This book is a continuation of the previous volumes of our series on Advanced Computational Intelligence Paradigms in Healthcare. The recent advances in computational intelligence paradigms have highlighted the need of intelligent systems in healthcare. This volume provides the reader a glimpse of the current state of the art in intelligent support system design in the field of healthcare. The book reports a sample of recent advances in: • Clinical Decision Support Systems • Rehabilitation Decision Support Systems •

Technology Acceptance in Medical Decision Support Systems The book is directed to the researchers, professors, practitioner and students interested to design and develop intelligent decision support systems. ACS BRILL

Acclaimed authors reflect on what it's like to be gay and young, to be different, and to be aware of that difference from an early age. More than an anthology of coming out stories, From Boys to Men is a stunning collection of essays about what it is like to be gay and young, to be different and be aware of that difference from the earliest of ages. In these memoirs, coming out is less important than coming of age and coming to the realization that young gay people experience the world in ways quite unlike straight boys. Whether it is a fascination with soap opera, an intense sensitivity to their own difference, or an obsession with a certain part of the male anatomy, gay kids—or kids who would eventually identify as gay—have an indefinable but unmistakable gay sensibility. Sometimes the result is funny, sometimes it is harrowing, and often

it is deeply moving. Essays by lauded writers like Alexander Chee (Edinburgh), Aaron Hamburger (Faith for Beginners), K. M. Soehnlein (The World of Normal Boys), Trebor Healey (Through It Came Bright Colors), Tom Dolby (The Trouble Boy), David Bahr, and Austin Bunn, are collected along with work from Michael McAllister, Jason Tougaw, Viet Dinh, and the popular blogger, Joe Jervis.

Molly has now graduated high school and is about to start college but she has that summer in between, the best time to let go and get wild! She gets to play in her very own Manhattan apartment for the summer every which way. Her and her buxom naughty pal get it on with plenty of hot dudes and girls, including debauching an Asian girl, and using some unbelievably huge toys to stretch all openings to the limit!

New York Magazine  
Bearport Publishing  
New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for

itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

A remarkable memoir that shows the capacity of the human heart to heal after the challenge of having to say goodbye. Even the hardest lessons contain great gifts. Jim Beaver and his wife Cecily Adams appeared to have it all--following years of fertility treatments, they were finally parents and they were building their dream home and successful Hollywood careers. Life was good. But then their daughter, Maddie, was diagnosed as autistic. Weeks later, Cecily, a non-smoker, was diagnosed with Stage IV lung cancer. Sadly, after 14 years of marriage, Jim became a widower and a single dad. Faced with overwhelming grief, Jim reached out to family and friends by writing a nightly email--a habit he established when Cecily was first diagnosed. Initially a cathartic exercise for Jim, the prose became an unforgettable journey for his readers. *Life's That Way* is a compilation of those profound, compelling emails.

*Quillon's Covert* Springer Science & Business Media  
*The Great Perfection* (rDzogs chen in Tibetan) is a philosophical and meditative teaching. Its

inception is attributed to Vairocana, one of the first seven Tibetan Buddhist monks ordained at Samye in the eight century A.D. The doctrine is regarded among Buddhists as the core of the teachings adhered to by the Nyingmapa school whilst similarly it is held to be the fundamental teaching among the Bonpos, the non-Buddhist school in Tibet. After a historical introduction to Tibetan Buddhism and the Bon, the author deals with the legends of Vairocana (Part I), analysing early documents containing essential elements of the doctrine and comparing them with the Ch'an tradition. He goes on to explore in detail the development of the doctrine in the tenth and eleventh centuries A.D. (Part II). The Tantric doctrines that play an important role are dealt with, as are the rDzogs chen theories in relation to the other major Buddhist doctrines. Different trends in the rDzogs chen tradition are described in Part III. The author has drawn his sources mainly from early unpublished documents which throw light on the origins and development, at the same time also using a variety of sources

which enabled him to explicate the crucial position which the doctrine occupies in Tibetan religions. Marvel Enterprises  
If there was ever a single defining moment when muscle giant Samson casts his lifelong spell on super-endowed Amish boy Peter, it is right here in this book. After the astonishing demonstration of Sam's herculean strength and his miraculous pec ejaculation, our two big boys are finally about to get intimate. This is the third volume of Song's epic love story *Big is Better*. This time in full-colour!

The goal of this book is to bring together ideas from several different disciplines in order to examine the focus and aims that drive rehabilitation intervention and technology development. Specifically, the chapters in this book address the questions of what research is currently taking place to further

develop rehabilitation, applied technology and how we have been able to modify and measure responses in both healthy and clinical populations using these technologies.

#### **Alone in the Woods**

Joseph Lance Tonlet  
A wounded Special Ops bear shifter. A fiercely independent she-panther. And the secret she carried for months... His baby. Family is everything, and that's why I'd promised my struggling mother I'll always provide for her. And after my medical discharge from the Army, I knew I could continue to make good on my word by enlisting in the Special Ops Shifter Force. But what I didn't know? By joining, I'd be coming face to face with Emersyn again. The woman my bear couldn't ignore. The pantheress my soul couldn't resist. One glimpse of those enticing feline eyes of hers brought me right back to the fiery nights we shared

in the barracks. And my bear raged with the desire to claim his mate all over again. The way things ended, I never thought I'd see her again. But here we are, partnered up on a risky mission to ease tensions between the shifter gangs of L.A. Too bad I can't seem to ease tensions between us. Just when I think things are complicated enough, she drops the mother of all bombshells on me. You see, all this time, I'd been focused on supporting my family. But little did I know, I'd started a new one with Emersyn. Lucas is just about a year old now, and the moment I held him, I knew I'd never let him go. No matter what dangers lie ahead on this mission, I'll stop at nothing to protect what's mine. And win back Emersyn's heart forever. Steamy shifter love scenes and an HEA inside! No cheating or cliffhanger in this standalone story. Readers 18+.
