 The title says it all! Klismaphilia - enema play - is one of the last taboos of kinky sex, yet this style of play can be erotic, intense and safe. M.R. Strict, an experienced practitioner whose expertise and enthusiasm have been shared by hundreds of thousands of devotees on his website, shares some of his hottest and most outrageous personal enema experiences (with men and women, gay and straight). Between the anecdotes, he explains the psychology, physiology and safety issues of using enemas as a disciplinary scenario, part of a medical roleplay, preparation for other forms of play or simply as exciting foreplay. The first book that explains how to bring the thrilling yet forbidden practice of klismaphilia to your own bedroom!

In this true story—a haunting saga of medical murder set in an era of steamships and gaslights—Gregg Olsen reveals one of the most unusual and disturbing criminal cases in American history. In 1911 two wealthy British heiresses, Claire and Dora Williamson, arrived at a sanatorium in the forests of the Pacific Northwest to undergo the revolutionary “fasting treatment” of Dr. Linda Burfield Hazzard. It was supposed to be a holiday for the two sisters, but within a month of arriving at what the locals called Starvation Heights, the women underwent brutal treatments and were emaciated shadows of their former selves. Claire and Dora were not the first victims of Linda Hazzard, a quack doctor of extraordinary evil and greed. But as their jewelry disappeared and

forged bank drafts began transferring their wealth to Hazzard's accounts, the sisters came to learn that Hazzard would stop at nothing short of murder to achieve her ambitions.

Comprehensive and detailed, this is the first ever study of ancient beer and its distilling, consumption and characteristics Examining evidence from Greek and Latin authors from 700 BC to AD 900, the book demonstrates the important technological as well as ideological contributions the Europeans made to beer throughout the ages. The study is supported by textual and archaeological evidence and gives a fresh and fascinating insight into an aspect of ancient life that has fed through to modern society and which stands today as one of the world's most popular beverages. Students of ancient history, classical studies and the history of food and drink will find this an useful and enjoyable read.

A brilliant look at colonialism and its effects in Antigua--by the author of Annie John "If you go to Antigua as a tourist, this is what you will see. If you come by aeroplane, you will land at the V. C. Bird International Airport. Vere Cornwall (V. C.) Bird is the Prime Minister of Antigua. You may be the sort of tourist who would wonder why a Prime Minister would want an airport named after him--why not a school, why not a hospital, why not some great public monument. You are a tourist and you have not yet seen . . ." So begins Jamaica Kincaid's expansive essay, which shows us what we have not yet seen of the ten-by-twelve-mile island in the British West Indies where she grew up. Lyrical, sardonic, and forthright by turns, in a Swiftian mode, *A Small Place* cannot help but amplify our vision of one small place and all that it signifies.

Named a Best Book of 2020 by The Telegraph, The Times, and BBC History Magazine An illuminating guide to the scientific and technological achievements of the Middle Ages through the life of a crusading astronomer-monk. "Falk's bubbling curiosity and strong sense of storytelling always swept me along. By the end, The Light Ages didn't just broaden my conception of science; even as I scrolled away on my Kindle, it felt like I was sitting alongside Westwyk at St. Albans abbey, leafing through dusty manuscripts by candlelight." —Alex Orlando, Discover Soaring Gothic cathedrals, violent crusades, the Black Death: these are the dramatic forces that shaped the medieval era. But the so-called Dark Ages also gave us the first universities, eyeglasses, and mechanical clocks. As medieval thinkers sought to understand the world around them, from the passing of the seasons to the stars in the sky, they came to develop a vibrant scientific culture. In *The Light Ages*, Cambridge science historian Seb Falk takes us on a tour of medieval science through the eyes of one fourteenth-century monk, John of Westwyk. Born in a rural manor, educated in England's grandest monastery, and then exiled to a cliff-top priory, Westwyk was an intrepid crusader, inventor, and astrologer. From multiplying Roman numerals to navigating by the stars, curing disease, and telling time with an ancient astrolabe, we learn emerging science alongside Westwyk and travel with him through the length and breadth of England and beyond its shores. On our way, we encounter a remarkable cast of characters: the clock-building English abbot with leprosy, the French craftsman-turned-spy, and the Persian polymath who founded the world's most advanced observatory. *The Light Ages* offers a gripping story of the struggles and successes of an ordinary man in a precarious world and conjures a vivid picture of medieval life as we have never seen it before. An enlightening history that argues that these times weren't so dark after all, *The Light Ages* shows how medieval ideas continue to color how we see the world today.

Dr. Bob Herrin grew up on a dairy farm in Oklahoma. He was taught respect and love for others. He was energetic, enjoyed working on the farm and helping his mother. He was strong and quick and had unusual acuteness of vision and hearing. Dr. Herrin worked his way through high school, college, and medical school. He worked forty hours per week, graduated in four years and entered Medical School in Oklahoma with the highest grade point average in his class. He became a general surgeon and entered practice in Marshall, Texas in 1965. He worked a huge number of hours and took emergency call for thirty-five years. He was dedicated to his patients, family and friends. In *You Light Up Our Country*, Dr. Herrin presents his opinions—formed during his many years as a surgeon —on all the things he believes are affecting our country today, including collected articles from newspapers, magazines and TV, which he uses to validate his opinions and facts. He has great concern about changes in the legal system and government that he believes are injuring the people and nation. He believes his major duty as a citizen is to provide little-known truth and information that is essential to saving our country.

As the world has struggled in the wake of an economic crisis that brought much of society to its knees, twenty-five-year-old Maria Davis has grown adept at living on the streets and stealing from the homes of the rich and powerful, but her luck runs out when she is caught in the act of robbing the home of a high-ranking government official. Sentenced to a day in the Punishment Clinic, she faces what will be by far the most humiliating experience of her life. She will be stripped naked, intimately examined, thoroughly cleaned both inside and out, and spanked long and hard, and that will only be the beginning. Helplessly aroused and completely on display, she will learn what it truly means to blush as she is brought to one quivering climax after another, and before her

sentence is complete she will beg to be taken long and hard in the most shameful way possible.

Publisher's Note: Sentenced to the Punishment Clinic is not a romantic story and it is not for the faint of heart. It is pure erotica that includes sexual scenes and sexual punishments, extensive medical play, spankings, anal play and punishments, exhibitionism, elements of BDSM, and more. If such material offends you, please don't buy this book.

The word lovemap was first used by Dr. John Money in lectures at Johns Hopkins University in 1980 to symbolize the neutral template expressed in every individual's sexueroetic fantasies and practices. The word connotes our often subconscious pattern of erotic yearnings and desire. Each of us has a distinctive lovemap, as different and individual as a fingerprint. In this book, Dr. Money outlines healthy lovemap development as well as lovemap pathology - lovemaps gone awry. Such pathology falls into three categories: hypophilia (sexual dysfunction, such as impotence), hyperphilia (erotomania), and paraphilia (perversions). Paraphilia, another term coined by Money (from the Latin para - away from what is expected, and philia - love) can range from those that are playful and harmless to those that are bizarre and deadly. Presenting case histories, Lovemaps describes the sexual practices of several patients and subsequent treatments of their paraphilias. Money pioneered the application of the hormone MPA, or Depo-Provera, to treat repeat sex criminals. He believes he has proved that science can prevent paraphilic sex offending, as is the case for other, physiological diseases. Lovemaps and its stirring accounts of lovemap pathology in case histories, (which are indexed under paraphilia), can be invaluable tools for those in the fields of sexology, child psychology, clinical psychology, criminology and, with its comprehensive glossary, the general reader - in short, anyone interested in human sexual development. This fascinating book sheds new light on sexual development and deserves a prominent place on the 'must read' list. -Seattle Institute for Sex Therapy, Education and Research

The Hidden History of Women Who Surrendered Children for Adoption in the Decades Before Roe v. Wade Lulu Press, Inc

"A remarkably well-researched and accomplished book." —The New York Times Book Review "A wrenching, riveting book." —Chicago Tribune In this deeply moving and myth-shattering work, Ann Fessler brings out into the open for the first time the astonishing untold history of the million and a half women who surrendered children for adoption due to enormous family and social pressure in the decades before Roe v. Wade. An adoptee who was herself surrendered during those years and recently made contact with her mother, Ann Fessler brilliantly brings to life the voices of more than a hundred women, as well as the spirit of those times, allowing the women to tell their stories in gripping and intimate detail.
