The revolutionary movements in late tsarist Russia inspired a reaction by groups on the right. Although these groups were ostensibly defending the status quo, they were in fact, as this book argues, very radical in many ways. This book discusses these radical rightist groups, showing how they developed considerable popular appeal across the

whole Russian Empire, securing support from a wide cross-section of society. The book considers the nature and organisation of the groups, their ideologies and policies on particular issues and how they changed over time. The book concludes by examining how and why the groups lost momentum and support in the years immediately before the First World War, and briefly explores how far present day rightist groups in Russia are connected to this earlier movement.

A scholarly, comprehensive study of the art of enamels in Europe, presenting examples from the seventeenth to the late nineteenth century. Demonstrates the extraordinary quality and scope of these exquisite works. This scholarly book contains comprehensive information on the art of enamels in Europe and England. It also examines the techniques and tools of enamelists and presents an overview of artists, patrons and sitters represented in this fine collection.

Russian Orders, Decorations and Medals, Including a Historical Résumé and Notes, Under the Monarchy Ashgate Publishing Company

This alphabetically-arranged dictionary provides concise biographies of Russian emigres from the former Russian Empire that occurred after the revolutions and

Civil War of 1917-21. Presenting a selection of the most well-known and influential members of the Russian diaspora, each entry describes the places and dates of their birth (and death, when known), their reasons for emigrating, a brief personal and political history, and their achievements and publications. The Military-naval Encyclopedia of Russia and the Soviet Union Copyright Office, Library of Congress

A comprehensive diplomatic and military history of the Russian conquest of Central Asia, spanning the whole of the nineteenth century.

1972: January-June London J. Hearne 1839.

At the edge of empires lies Finland, Estonia, Latvia, and Lithuania. They actually live on the edge of a number of empires. To the west lies Sweden. Sweden was once a great power in the Baltic region. The Swedish empire at its height covered today's Finland, part of Russia, Estonia as well as parts of what is today Germany and Poland. Sweden even held Norway for a time. To the east lies Imperial Russia and, later, the Soviet Union. The Russian empire covered a vast area at one time, including the Baltic states and Finland. It also fought wars with Sweden to gain other, former, Swedish territory in the area. After its collapse, the Soviet Union took its place. The Baltic states and Finland broke free but the Baltic states didn't stay independent for long and eventually became part of the USSR during the Second World War. Another empire laid to the South; the German Empire, and later, Nazi Germany. Imperial Germany had a great influence on Finland and Nazi Germany briefly occupied the Baltic states and fought with Finland against

the Soviet Union. This varied history leaves quite a bit of interest, for the military enthusiast, in the area. We will take a tour through time and space, from the days when Sweden ruled in the area, through to the German invasions of the First and Second World Wars and onto the Soviet occupation of the Baltic states and finally to the modern, post Soviet, World. I have divided the book into sections. Starting with the individual soldier's kit and uniform. After that I will look at a sample of the vehicles found on the edge of so many empires. This will include, of course, many Soviet vehicles, like the BMP-1 as it was used by Finland as well, but also some home grown vehicles such as the Finnish Patria Pasi. There are also vehicles from other countries such as Sweden, so we will have quite a few overlaps. For the artillery part, I will be a bit generous with my definition of "artillery" and include things like grenades. I will then move on to radios before I get to aircraft. Next, I will look to seaborne craft. After that, I will look at bases. Again, I'm generous with my definition of bases and will include any location with a military connection. Then we will look at some battlefields. The area has seen many battles and I include some of the famous ones, like the Battle of Suomussalmi, but also some less well known battles, like the Battle of Partakoski and Kärnäkoski passes. After that we will look at flags and emblems, as the military like that sort of thing there are many fascinating badges and flags around. Far too many for this book so I will just give a taste. Then we will go on to museums before looking briefly at models. I hope to inspire people to go out and visit these places themselves; see the battlefields and museums. This book is meant as a teaser, there is far more to see and do

between the empires than I could possibly put into a book. So, enjoy ... Pen and Sword

This book (Volume One) gives an historical overview of 36 countries whose armed forces served in Europe 1900-2000, together with uniform descriptions. Includes 200 full colour paintings of the regular armies, marines, airforce and para-military troops engaged in land exercises, operations and warfare in Europe, including non-European troops serving in Europe. Each entry is accompanied by a history and description of the uniforms illustrated. The author and illustrator Ron Kidd, has been interested in both police and military history, uniforms and insignia since he was a school boy in the 1950's. He has visited over 300 police and military museums world-wide, and has written and illustrated a number of magazine articles on both police and military history and uniforms. He is a member of both the Military Heraldry Society and the Military Historical Society. It is anticipated that Volume Two will be published in 2013.

The majority of articles in this volume employ social-historical methodology, and see the Russian military as a window on the symbiotic triangular relationship between army, state and society. They demonstrate that the issues affecting the tsarist army were at all times a reflection of the many social problems, aspirations, or political thought of the broader imperial Russian civil society.

We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. <https://usgovpub.com>

The Russian Imperial Award System During the Reign of Nicolas II, 1894-1917 Modern War Studies

This tribute to the life of Jerzy Dobiecki, a Polish cavalry captain with the 18-ty Pułk Ułanów Pomorskich – the 18th Polish Pomeranian Lancers, is a story based on previously archived material, originally written by the Captain in Polish, that has been translated for the first time into English. The Captain's chronicles bring to life eye-witness accounts of his regiment's deployments during the Russo-Polish War between 1919 and 1921, one of several little-publicized wars in English and fought between Poland and her neighbors immediately following the 1914-1918 Great War. Eighteen years later, as Poland was invaded by Germany in September 1939, from his position on attachment to the

Polish Ministry of Military Affairs in Warsaw, Captain Dobiecki kept a diary of battles as they developed across Poland during the first weeks of the Second World War. The diary records events as he, and what remained of the Polish military High Command, were evacuated to neighboring Romania when Poland was additionally overrun by Soviet forces from the east. His journal sheds light on his subsequent escape from internment across Europe to France and later on to Britain, where he served as a staff officer with the command of the Polish 1st Corps, formed in exile in Scotland. Following the end of hostilities in Europe in 1945 and upon return to Britain after the fighting on the continent, like thousands of other Poles commissioned under the auspices of the Polish Resettlement Corps, Jerzy had to decide whether to return to his native Poland or whether he should try to somehow rescue and bring to England what was left of his family – now trapped behind the iron curtain in eastern Poland, facing an uncertain future and severity under a Stalinist regime.

Boys of the Dvina - Latvia's Army

1918-1940 Bloomsbury Publishing
An important aspect of the Russian Civil War were the several Allied expeditions immediately following World War I in support of the disunited Russian 'White' armies resisting the Bolshevik Revolution. Although they ended in failure, these ventures were long resented, and were the origin of the 70-year-long Soviet suspicion of the Western Allies. British and US expeditionary forces operated in North Russia and Siberia in support of General Yudenich and Admiral Kolchak respectively, and a French and Greek expeditionary force (plus Romanian and Polish elements) operated in Crimea and

south-western Ukraine, in support of General Denikin. The situation was further complicated by the presence of strong Imperial German elements still under arms, and by war between various factions in the Ukraine. This Southern theatre of the Allied interventions is far less well known than that of the British and Americans in the North and East. Featuring rare photos and new colour plates, this fascinating new book describes this major Allied intervention in the Russian Civil War. Dr Phoebus Athanassiou writes a compelling account of how the French and Greeks alongside White Russians were greatly outnumbered by pro-Bolshevik forces and were relentlessly pushed back by the Ukrainian forces. In just over 4 months, on 28 April 1919, the last of their forces were evacuated by Allied navies from Sevastopol in Crimea.

This remarkable book provides an account of the origins of various foreign Orders of Knighthood, especially those conferred upon British subjects, and such recipients are listed. A separate section is devoted to honorary sword and plate awards by the Patriotic Fund Institution of Great Britain for gallant conduct, together with relevant citations, and the value of each in pounds sterling. These were for deeds performed during the first decade of the 19th Century during the Napoleonic Wars. A most interesting and historic piece of work, dedicated to Sir Robert Peel.

MILITARY UNIFORMS IN EUROPE 1900 - 2000 Volume One Historial Research
This book examines the uniforms and badges of an almost forgotten group of soldiers Don, Kuban, Terek and Siberian Cossack units that fought with the German Wehrmacht during World War II. With the cooperation of former members

of many Cossack units the authors have collected a great deal of material much of the information in this book appears in print here for the first time. Among the subjects covered are: Cossacks in the Imperial Russian Army; the uniforms and badges of the Cossacks in the Wehrmacht in World War II, including collar insignia, Cossack headgear, sleeve badges (arm shields), Cossack qualification badges, decorations awarded to Cossacks; flags and command symbols of the Cossack units.
