From Teamwork to
Excellence: Labor and
Economic Factors
Affecting Educators is a
great book for anyone
interested in team
building. In order to
work as a team,
educators need to
know the contributions
that each member of
the team provides to
build a successful
school. They need to
know what their

teammates have been
trained to do and
which uses of their
time and effort are
likely to be effective.
Data-based
suggestions of ways to
productively utilize the
time of teammates are
provided along with
many illustrations from
the authors'
professional
experiences. This book
demonstrates how
time and talent can be
used effectively in the
various roles found in
PK-12, with one
chapter addressing
time management in
higher education. The

authors wanted to show just how much extra time and money educators give to the profession. This text could be utilized in Schools of Education as a required or optional textbook; as a tool for school leaders who plan professional development; as a resource to the public to better understand the world of education today.

Schedule of Examinations and Instructions to Applicants *Oswaal Books* Gifted Hands reveals the remarkable journey of Dr. Ben Carson from an angry, struggling young boy with everything stacked against him to the

director of pediatric neurosurgery at the Johns Hopkins Children's Center. As a boy, he did poorly in school and struggled with anger. If it were not for the persistence of his mother, a single parent who worked three jobs and pushed her sons to do their best, his story may have ended tragically. Join Dr. Carson on his journey from a struggling inner-city student to the pinnacle of his career as a world-renowned neurosurgeon. A man of humility, decency, compassion, courage, and sensitivity, he now serves as a role model for everyone who wants to achieve their God-given potential. As you learn more about Dr. Carson's amazing story, you'll be inspired to: Take charge of your

own destiny Hone your God-given gifts Face adversity head on Filled with fascinating stories, *Gifted Hands* will transport you into the operating room to witness surgeries that made headlines around the world, and into the private mind of a compassionate, God-fearing physician who lives to help others. [Gifted Hands](#) Oswaal Books and Learning Private Limited What happens when teachers share power with students? In this profound book, Ira Shor—the inventor of critical pedagogy in the United States—relates the story of an experiment that nearly went out of control. Shor provides the reader with a reenactment of one semester that shows what really can happen

when one applies the theory and democratizes the classroom. This is the story of one class in which Shor tried to fully share with his students control of the curriculum and of the classroom. After twenty years of practicing critical teaching, he unexpectedly found himself faced with a student uprising that threatened the very possibility of learning. How Shor resolves these problems, while remaining true to his commitment to power-sharing and radical pedagogy, is the crux of the book.

Unconventional in both form and substance, this deeply personal work weaves together student voices and thick descriptions of classroom experience

with pedagogical theory to illuminate the power relations that must be negotiated if true learning is to take place.
