As we become more and more of a global trading world, the challenges of leading and managing within this turbulent environment and its associated, complex, interconnected markets and disconnected relationships are indisputable, so just how far can any change requirements be practically engaged with, whilst also keeping the employee at the organisation's central core? Today's business world cries out for people who can lead with a cross-cultural global perspective, who can lead from the heart as well as the mind and address and manage problems on not just

an integrated local level, but also with a healthy, holistic perspective. The subject of spirituality has long been discussed within academic research, but there still seems to be a misunderstanding and stagnation of both its real meaning and application amongst business academics, the population and organisations alike. This book aims to provide a realistic message to help those who are looking for some answers; for those who are looking for a way to advance their own skill-set and progress both their careers and the organisation's current standing; to move from being confused and insecure about strategies and tactics, to positively contributing to not only their own, but also to the employees' well-being and the business's overall purpose and

intention. By basing the content upon real and relevant, interesting, modern-day perspectives, applications, requirements, opportunities and benefits, all combined into a manual for thought and a practical framework for action, this book will significantly and realistically move the subject of spirituality forward. This book will be of interest to researchers, academics and students with a special interest in the, positive, influence of spirituality within the workplace and everyday healthy living.

A complete descriptive and illustrated catalogue of one of the largest and finest atlases ever assembled. Now housed in the Österreichische Nationalbibliothek in Vienna, the 46-volume atlas is an expanded version of Joan Blaeu's Atlas Maior or 'Great Atlas', published in Amsterdam between 1660 and 1663. Though the core of the atlas consists of the several hundred maps issued by Blaeu, the original owner of the atlas, Laurens van der Hem (1621-1678), added other maps, views, and drawings of his own

choice, including four volumes of manuscript maps of Africa and Asia made for the Dutch East India Company (VOC). The practice of augmenting atlases was common in the seventeenth century, but few of these personalized atlases have survived the centuries. The catalogue in 7 volumes (plus a volume about the making of the facsimile) will include all the sheets in the atlas reproduced in black-and-white, with cartographical historical and arthistorical descriptions by P. van der Krogt and E. de Groot. Each volume will contain approximately 16 full-colour illustrations. I. Spain, Portugal and France (vols. 1-8). 1996. With about 700 illustrations. 632 pp. ISBN 978 90 6194 278 8 II. Whether it's sleek leather pants, a shiny new Apple computer, or a designer toaster, we make important decisions as consumers every day based on our sensory experience. Sensory appeals are everywhere, and they are intensifying, radically changing how Americans live and work. The twenty-first century has become the age of aesthetics, and whether we realize it or not, this influence has taken over the marketplace, and much more. In this penetrating, keenly observed book, Virginia Postrel makes the argument that appearance counts, that aesthetic value is real. Drawing from fields as diverse as fashion, real estate, politics, design, and economics, Postrel deftly chronicles our culture's aesthetic imperative and argues persuasively that it is a vital component of a healthy, forward-looking society. Intelligent, incisive, and thought-provoking, *The Substance of Style* is a groundbreaking portrait of the democratization of taste and a brilliant examination of the way we live now.

The Art of Persuasion

The classical civilizations of Greece and Rome once dominated the world, and they continue to fascinate and inspire us. Classical art and architecture, drama and epic, philosophy and politics--these are the foundations of Western civilization. In *The Classical World*, eminent classicist Robin Lane Fox brilliantly chronicles this vast sweep of history from Homer to the reign of Hadrian. From the Peloponnesian War through the creation of Athenian democracy, from the turbulent empire of Alexander the Great to the creation of the Roman Empire and the emergence of Christianity, Fox serves as our witty and trenchant guide. He introduces us to extraordinary heroes and horrific villains, great thinkers and blood-thirsty tyrants. Throughout this vivid tour of two of the greatest civilizations the world has ever known, we remain in the hands of a great master.
