CUNNINGHAM MARIELA

On Love University of Chicago Press
 Of all his books, *Love* was Stendhal's favorite. Written at a critical time in his life when his own love had been rejected, the book is a thinly disguised picture of the author's innermost feelings. Though it ranges over a wide variety of topics from courtly love to the emancipation of women, central to the book is Stendhal's account of love - an intense, romantic and generally unrequited love. 'On Love' is Stendhal's profound attempt to rationalise that most complex of emotions - romantic love. Inspired by his unrequited passion for the Countess Dembowska, he brings together logical, clear-sighted analysis with all-consuming emotion, to most remarkable effect. Having classified the many types of love - passionate, physical, vain... - Stendhal identifies the seven stages by which lovers fall under the spell of emotion. He here expounds his celebrated theory of crystallisation, through which the object of affection is transformed beyond all recognition, adorned with a thousand crystals, in the mind of the lover. The prescience of his theories about the psychological state of loving has astounded generations of readers. Yet

beneath these clever philosophical musings can be seen a desperate attempt by the author to reconcile and dispel his own tortured emotions. The result is an astonishing work that bears all the hallmarks of Stendhal's later masterpieces.

The Red and the Black and The Charterhouse of Parma e-artnow Inspired by his unrequited passion for the Countess Dembowska, Stendhal brings together logical, clear-sighted analysis with all-consuming emotion to remarkable effect in this unique treatise. Stendhal begins his study by classifying the different types of love—romantic, passionate, or courtly—and then muses on the causes of love’s birth. He identifies the seven stages of falling in love and proffers wise advice for the ardent lover on a variety of topics, including how to “crystallize” the object of one’s desire. Yet beneath these clever philosophical musings, Stendhal makes a desperate attempt to reconcile and dispel his own tortured emotions.

This is a book about the life and work of a singular writer, an author well-known for his biographies and travel writing but most famous for his novels *The Red and the Black* and *The Charterhouse of Parma*. As a child, Stendhal witnessed the unfolding of the French Revolution; as a young man, he served Napoleon first as a soldier and then as an administrator; and as a middle-aged man, he made it his task not to pursue his career, but instead to take as much paid leave as possible in order to be free and to be happy—and to write. Stendhal’s works often take the form of conversations with his readers—the “Happy Few” as he called them—about the things that matter most. He once claimed that he spent the majority of his life “carefully considering five or six main ideas.” This book makes clear what those main ideas were, why they mattered to Stendhal, and why they continue to matter to all of us.

Stendhal's great novel *The Red and the Black*, published in 1830, is seen as one of the most distinguished monuments of literary realism. In this introductory study, Stirling Haig shows how this realism derives from the incorporation of both history and legal reportage into the novel, and how it combines autobiography with mimesis. Professor Haig locates the novel in the context of Stendhal's own experiences as a Commissariat officer in the Napoleonic army, journalist, opera-lover, salon dandy and traveller in Italy and Restoration France, and highlights the constant inter-penetration of personal, documentary, and fictional elements in Stendhal's writings.

Unconsummated Love Stories from Boccaccio to Stendhal

New York : Twayne Publishers ; Toronto : Maxwell Macmillan Canada ; New York : Maxwell Macmillan International Quintessentially fascinating, love intrigues and perplexes us, and drives much of what we do in life. As wary as we may be of its illusions and disappointments, many of us fall blindly into its traps and become ensnared time and again. Deliriously mad excitement turns to disenchantment, if not deadening repetition, and we wonder how we shall ever break out of this vicious cycle. Can psychoanalysis – with ample assistance from philosophers, poets, novelists, and songwriters – give us a new perspective on the wellsprings and course of love? Can it help us fathom how and why we are often looking for love in all the wrong places, and are fundamentally confused about “what love really is”? In this lively and wide-ranging exploration of love throughout the ages, Fink argues that it can. Taking within his compass a vast array of

traditions – from Antiquity to the courtly love poets, Christian love, and Romanticism – and providing an in-depth examination of Freud and Lacan on love and libido, Fink unpacks Lacan’s paradoxical claim that “love is giving what you don’t have.” He shows how the emptiness or lack we feel within ourselves gets covered over or entwined in love, and how it is possible and indeed vital to give something to another that we feel we ourselves don’t have. This first-ever commentary on Lacan’s Seminar VIII, Transference, provides readers with a clear and systematic introduction to Lacan’s views on love. It will be of great value to students and scholars of psychology and of the humanities generally, and to analysts of all persuasions.

We are conditioned to think love's purpose is to heal wounds, make us happy, and give our lives meaning. When the opposite occurs, and love causes us to feel fractured, disenchanting, and full of existential turmoil, our suffering is compounded by the sense that love has failed us, or that we've failed to experience what so many others effortlessly enjoy. In this eloquently argued, psychologically-informed book, Mari Ruti portrays love as a much more complex, multifaceted phenomenon prompting us to access the depths of human existence. Love's ruptures are as important as its triumph.

CliffsNotes on Stendhal's The Red and the Black Routledge

We have so often been shewn in melodrama the Italian brigands of the sixteenth century, and so many people have spoken of them without any real knowledge, that we have come to hold the most erroneous ideas of what they were like. Speaking generally, one may say that these brigands were the Opposition to the vile governments which, in Italy, took the place of the mediaeval Republics. The new tyrant was, as a rule, the wealthiest citizen of the defunct Republic, and, to win over the populace, would adorn the town with splendid churches and fine pictures. Such were the Polentini of Ravenna, the Manfredi of Faenza, the Riario of Imola, the Cani of Verona, the Bentivoglio of Bologna, the Visconti of Milan, and lastly, the least bellicose and most hypocritical of all, the Medici of Florence. Among the historians of these little States none has dared to relate the countless poisonings and assassinations ordered by the fear that used to torment these petty tyrants; these grave historians were in their pay.

Charts the rise and fall of an ambitious young social climber in a cruel, monarchical society Handsome, ambitious Julien Sorel is determined to rise above his humble provincial origins. Soon realizing that success can only be achieved by adopting the subtle code of hypocrisy by which society operates, he begins to achieve advancement through deceit and self-interest. His triumphant career takes him into the heart of glamorous Parisian society, along the way conquering the gentle, married Madame de Rênal, and the haughty Mathilde. But then Julien commits an unexpected, devastating crime—and brings about his own downfall. *The Red and the Black* is a lively, satirical portrayal of French society after Waterloo, riddled with corruption, greed and ennui, and Julien—the cold exploiter whose Machiavellian campaign is undercut by his own emotions—is one of the most intriguing characters in European literature. Roger Gard's fine translation remains faithful to the natural, conversational tone of the original, while his introduction elucidates the complexities of Julien's character. This edition also contains a chronology, further reading and an appendix on Stendhal's use of epigraphs. The son of a carpenter, Julian Sorel is inspired by the writings of Napoleon to conquer the heights of society. His initial plan to work his way up through the church is, however, thwarted when he is forced to accept employment as a tutor--and this rash social entrepreneur certainly has not considered the dangers of falling in love. Stendhal's novel is an amusing and piquant study of hypocrisy and free will in post-Napoleonic France.

On Stendhal: "The study of human nature, 'the observation of the human heart and its passions,' was his constant preoccupation. But where could he study the passions better than in himself? Though he lived exuberantly, submitting himself to experience... he went on incessantly writing down everything that happened to him just as it happened. He even led to perform some remarkable experiments upon himself. He laid claim to having been a soldier, a man of fortune, a great lover, a society wit, a diplomat, a traveler, and even, sometimes, a revolutionary conspirator. "Fifty years after his death he becomes one of the demigods of the world's letters, taking his place in the ranks of the great social writers who appeared toward the end of the last century. his manner of life itself has fascinated whole regiments of literary scholars in France, Italy and Germany in the last forty years."- Matthew Josephson, *From the Introduction* (1946) "Like Josephson's Victor Hugo, it is the best and most comprehensive English study of its subject, a careful collection of material, skillfully assembled and organized...When Freud read Stendhal's memoirs of his childhood and adolescence he called them 'a manifestation of psychological genius.' Stendhal, he saw, had been a Freudian some 70 years before Freud himself."-TIME Magazine (1946)

Through close readings of a selection of European novels and novellas written between 1340 and 1827, this study of "analytical fiction" examines how unconsummated love stories probe the frailty of self-knowledge. Tracing elements of what the French call the roman d'analyse in the works of Boccaccio, Marguerite de Navarre, Cervantes, Marie de Lafayette, Samuel Richardson, Jane Austen, and Stendhal, Adele Kudish discusses how the metaphor of unconsummated love is deployed to represent a fundamental lack of insight into the self. Rather than depicting the mind as transparent, analytical fiction deals in the opacity of the mind. Narrators and characters are faced with deception, misprision, doubt, and confusion, leading to self-deception, jealousy, and crises of self. The European Roman d'Analyse reads such epistemological failures as symptoms of a more fundamental preoccupation with the human psyche as un-chartable and bizarre. In this way, the authors of romans d'analyse enact a larger philosophical project: an anatomy of the psyche wherein we are unable-or unwilling-to know ourselves.

Peter Lang

"Stendhal's most independent heroines are usually disliked or marginalized by critics. However, when gender-neutral criteria are applied, Mina de Vanghel, Vanina Vanini, Mathilde de La Mole, and Lamiel can all be shown to enact extraordinary experiments in freedom. These experiments are all the more remarkable in view of the gender of their agents, the historical situation of the author (1783-1842), and the conventions of the literary movement that his fiction helped to found: realism. Simone de Beauvoir's 1949 study of Stendhal's heroines gives preference to the reserved females over his Amazons. But existentialism, as a philosophy of freedom, also enables a reading of the self-determining heroines that acknowledges the superiority of their choices: their resistance and counter-plots, their paradoxical authenticity, their rejection of seriousness, and their assumption of responsibility for the routes they plot."
