This book was developed through an analysis of prior MBE exams to identify questions that are best able to predict

success or failure on the bar examination. The outlines describe principles of substantive law, which most often govern the correct answer to most questions on each section of the MBE: •

Constitutional law • Contract law • Criminal law • Evidence • Property law • Tort law • Federal jurisdiction MBE

Essentials: Governing Law

describes the principles of substantive law, which most often governs the correct answers to Multistate Bar Examination Questions.

The performance of candidates on individual questions has been correlated with success or failure on the bar examination. Through an

analysis of these statistics, we have been able to identify those questions that are best able to predict success or failure on the bar

examination and put together the outlines of laws that govern those questions. Students should learn these important governing law principles in order to determine the answers to the questions on the MBE.

These rules of law will likely determine the answers to more than half of the questions on each section of the MBE.

Knowing these principles helps to make a decision between two tough choices; it is important to have this knowledge to get a passing score on the exam.

holistic approach to bar exam study and test taking, offering explicit guidance for students as they attempt to transfer what they have learned in law school to bar study.

This makes the textbook unique in that it will provide instructors and students with one source that simultaneously

provides the two necessary aspects of bar exam preparation: (1) an exploration and discussion of the skills associated with bar study strategies and techniques and (2) practice questions to use in applying these study strategies and techniques.
