 Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition—how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

 If he had been with me everything would have been different... I

wasn't with Finn on that August night. But I should've been. It was raining, of course. And he and Sylvie were arguing as he drove down the slick road. No one ever says what they were arguing about. Other people think it's not important. They do not know there is another story. The story that lurks between the facts. What they do not know—the cause of the argument—is crucial. So let me tell you...

 INSTANT NEW YORK TIMES BESTSELLER - The Read With Jenna Today Show Book Club Pick! "A story of love and hope as interweaving characters display: how all moments, big and small, can measure a life. If you want joy, love, romance, and hope—read with us." —Jenna Bush Hager A luminous, spirit-lifting blockbuster for readers of *The Midnight Library*. Eight ordinary people. One extraordinary choice. It seems like any other day. You wake up, pour a cup of coffee, and head out. But today, when you open your front door, waiting for you is a small wooden box. This box holds your fate inside: the answer to the exact number of years you will live. From suburban doorsteps to desert tents, every person on every continent receives the same box. In an instant, the world is thrust into a collective frenzy. Where did these boxes come from? What do they mean? Is there truth to what they promise? As society comes together and pulls apart, everyone faces the same shocking choice: Do they wish to know how long they'll live? And, if so, what will they do with that knowledge? *The Measure* charts the dawn of this new world through an unforgettable cast of characters whose decisions and fates interweave with one another: best friends whose dreams are forever entwined, pen pals finding refuge in the unknown, a couple who thought they didn't have to rush, a doctor who cannot save himself, and a politician whose box becomes the powder keg that ultimately changes everything. Enchanting and deeply uplifting, *The Measure* is a sweeping, ambitious, and invigorating story about family, friendship, hope, and destiny that encourages us to live life to the fullest.

 Told in alternating timelines, *THE THINGS WE LEAVE UNFINISHED* examines the risks we take for love, the scars too deep to heal, and the endings we can't bring ourselves to see coming. Twenty-eight-year-old Georgia Stanton has to start over after she gave up almost everything in a brutal divorce—the New York house, the friends, and her pride. Now back home at her late great-grandmother's estate in Colorado, she finds herself face-to-face with Noah Harrison, the bestselling author of a million books where the cover is always people nearly kissing. He's just as arrogant in person as in interviews, and she'll be damned if the good-looking writer of love stories thinks he's the one to finish her grandmother's final novel...even if the publisher swears he's the

perfect fit. Noah is at the pinnacle of his career. With book and movie deals galore, there isn't much the "golden boy" of modern fiction hasn't accomplished. But he can't walk away from what might be the best book of the century—the one his idol, Scarlett Stanton, left unfinished. Coming up with a fitting ending for the legendary author is one thing, but dealing with her beautiful, stubborn, cynical great-granddaughter, Georgia, is quite another. But as they read Scarlett's words in both the manuscript and her box of letters, they start to realize why Scarlett never finished the book—it's based on her real-life romance with a World War II pilot, and the ending isn't a happy one. Georgia knows all too well that love never works out, and while the chemistry and connection between her and Noah is undeniable, she's as determined as ever to learn from her great-grandmother's mistakes—even if it means destroying Noah's career.

[Can't Hurt Me](#) Ballantine Books  
 The National Book Critics Circle Award-winning author delivers a collection of essays that serve as the perfect "antidote to mansplaining" (*The Stranger*). In her comic, scathing essay "Men Explain Things to Me," Rebecca Solnit took on what often goes wrong in conversations between men and women. She wrote about men who wrongly assume they know things and wrongly assume women don't, about why this arises, and how this aspect of the gender wars works, airing some of her own hilariously awful encounters. She ends on a serious note—because the ultimate problem is the silencing of women who have something to say, including those saying things like, "He's trying to kill me!" This book features that now-classic essay with six perfect complements, including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not knowing, of doubt and ambiguity, a highly original inquiry into marriage equality, and a terrifying survey of the scope of contemporary violence against women. "In this series of personal but unsentimental essays, Solnit gives succinct shorthand to a familiar female experience that before had gone unarticulated, perhaps even unrecognized." —*The New York Times* "Essential feminist reading." —*The New Republic* "This slim book hums with power and wit." —*Boston Globe* "Solnit tackles big themes of gender and power in these accessible essays. Honest and full of wit, this is an integral read that furthers the conversation on feminism and contemporary society." —*San Francisco Chronicle* "Essential." —*Marketplace* "Feminist, frequently funny, unflinchingly honest and often scathing in its conclusions." —*Salon*

"This blazing-hot forbidden romance manages to sensibly, and compassionately, capture the complexities of starting adult life after college and finding love and your identity in middle age. Cassie and Erin's romance is by turns delightfully raunchy and deeply emotional. This reader hopes Wilsner keeps these scorched coming." - The Washington Post "[Wilsner writes] erotic yearning in a class all their own." - Entertainment Weekly From Meryl Wilsner, the acclaimed author of *Something to Talk About*, comes *Mistakes Were Made*, a sharp and sexy rom-com about a college senior who accidentally hooks up with her best friend's mom. When Cassie Klein goes to an off-campus bar to escape her school's Family Weekend, she isn't looking for a hookup—it just happens. Buying a drink for a stranger turns into what should be an uncomplicated, amazing one-night stand. But then the next morning rolls around and her friend drags her along to meet her mom—the hot, older woman Cassie slept with. Erin Bennett came to Family Weekend to get closer to her daughter, not have a one-night stand with a college senior. In her defense, she hadn't known Cassie was a student when they'd met. To make things worse, Erin's daughter brings Cassie to breakfast the next morning. And despite Erin's better judgement—how could sleeping with your daughter's friend be anything but bad?—she and Cassie get along in the day just as well as they did last night. What should have been a one-time fling quickly proves impossible to ignore, and soon Cassie and Erin are sneaking around. Worst of all, they start to realize they have something real. But is being honest about the love between them worth the cost? "Wilsner proves their serious romance range with a sophomore novel that laughs in the slow-burning face of their debut by kicking off with a hookup that'll have you fanning your face for days." - Buzzfeed "A steaming hot, thoughtful story about all kinds of love, featuring a firecracker of a couple that's impossible not to root for." - Women's Health

Bearded, bad-boy barber Knox prefers to live his life the way he takes his coffee: Alone. Unless you count his basset hound, Waylon. Knox doesn't tolerate drama, even when it comes in the form of a stranded runaway bride. Naomi wasn't just running away from her wedding. She was riding to the rescue of her estranged twin to Knockemout, Virginia, a rough-around-the-edges town where disputes are settled the old-fashioned way...with fists and beer. Usually in that order. Too bad for Naomi her evil twin hasn't changed at all. After helping herself to Naomi's car and cash, Tina leaves her with something unexpected. The niece Naomi didn't know she had. Now she's stuck in town with no car, no job, no plan, and no home with an 11-year-old going on thirty to take care of. There's a reason Knox doesn't do complications or high-maintenance women, especially not the romantic ones. But since Naomi's life imploded right in front of him, the least he can do is help her out of her jam. And just as soon as she stops getting into new trouble he can leave her alone and get back to his peaceful, solitary life. At least, that's the plan until the trouble turns to real danger.

Can these opposites turn up the heat . . . without burning down the house? House-flipping sensation Maggie Nichols can't wait to dig into her next challenge: a crumbling Victorian mansion in a tiny American town. With only four months to do it, Maggie has her to-do lists, her blueprints and her team. What she doesn't have is time for sexy, laid-back landscaper Silas Wright. The man takes flirtation to a whole new level. And he does it shirtless . . . He's impressively persistent. But Maggie's not interested in putting down roots. A short-term fling on the other hand could fit nicely into her calendar. As their summer gets downright steamy, Silas manages to demolish the emotional walls Maggie's spent years building, sending her into a panic. He's the wrench in her carefully constructed plans. With the end of the project looming, Maggie has a decision to make. But how can she stay when her entire career is built on moving on? Maybe the mansion isn't the only thing due a revamp: her heart has been long neglected. 'Fast-paced, fun and full of Gilmore Girls-worth banter!' New York Times 100 Notable Books of 2018 • Amazon Editors' Top 100 of 2018 Rachel Cusk, the award-winning and critically acclaimed author of *Outline* and *Transit*, completes the transcendent literary trilogy with *Kudos*, a novel of unsettling power. A woman writer visits a Europe in flux, where questions of personal and political identity are rising to the surface and the trauma of change is opening up new possibilities of loss and renewal. Within the rituals of literary culture, Faye finds the human story in disarray amid differing attitudes toward the public performance of the creative persona. She begins to identify among the people she meets a tension between truth and representation, a fissure that accrues great dramatic force as *Kudos* reaches a profound and beautiful climax. In this conclusion to her groundbreaking trilogy, Cusk unflinchingly explores the nature of family and art, justice and love, and the ultimate value of suffering. She is without question one of our most important living writers.

**100 Things We've Lost to the Internet** Farrar, Straus and Giroux

A work of fantasy, *I Who Have Never Known Men* is the haunting and unforgettable account of a near future on a barren earth where women are kept in underground cages guarded by uniformed groups of men. It is narrated by the youngest of the women, the only one with no memory of what the world was like before the cages, who must teach herself, without books or sexual contact, the essential human emotions of longing, loving, learning, companionship, and dying. Part thriller, part mystery, *I Who Have Never Known Men* shows us the power of one person without memories to reinvent herself piece by piece, emotion by emotion, in the process teaching us much about what it means to be human.

For Naomi Witt, a lot is going on. This novel had all I could desire, from Knox's grumpiness to Naomi's attempts to make sense of

the swirling chaos that has become her life, and love found a way in the midst of it all, and there were some other poignant and amusing moments as well! Naomi had just emerged from a major disaster. Still, just when she thought things couldn't worsen, her twin sister Tina took all Naomi's belongings and abandoned her to care for her niece, Waylay, whom she had no idea existed. Add in Knox, who appeared to irritate Naomi psychologically and physically \*wink, wink\*. From the way she held herself to low-key checking her Facebook to see everything about her, Knox appeared frustrated but attracted by Naomi, having some spicy dreams about her that had him wanting her in ways he'd never felt before. Not to add Knox telling Naomi to her face that she wasn't his "type." As a result, you can only imagine how enjoyable and exciting it was to see the tension between Naomi and Knox develop. I enjoyed seeing Naomi adjust to the new changes in her life, such as attempting to care for Waylay and be the best

guardian she could be, mainly because Tina (Waylay's mother) never cared for her and treated her horribly. Knox, Nash, Liza J, Naomi's parents, and the whole village of Knockemout were all concerned about Waylay. It was nice to watch how those folks rallied around Waylay and showed her love and support. Plus, you could see that Waylay valued having that feeling of actual family around her, especially because she had never experienced it before. At first, Naomi tried to find ways to connect with Waylay and give her all of the things she needed. Fortunately, Knox, the grouchy resident, went out of his way to assist Naomi with Waylay. I guess I always felt even if the world came to an end, McDonald's still would be open. High school sophomore Miranda's disbelief

turns to fear in a split second when an asteroid knocks the moon closer to Earth, like "one marble hits another." The result is catastrophic. How can her family prepare for the future when worldwide tsunamis are wiping out the coasts, earthquakes are rocking the continents, and volcanic ash is blocking out the sun? As August turns dark and wintery in northeastern Pennsylvania, Miranda, her two brothers, and their mother retreat to the unexpected safe haven of their sunroom, where they subsist on stockpiled food and limited water in the warmth of a wood-burning stove. Told in a year's worth of journal entries, this heart-pounding story chronicles Miranda's struggle to hold on to the most important resource of all--hope--in an increasingly desperate and unfamiliar world. An extraordinary series debut Susan Beth Pfeffer has written several companion novels to *Life As We Knew It*, including *The Dead and the Gone*, *This World We Live In*, and *The Shade of the Moon*.
