A Revolutionary Conscience Cengage Learning
 William Howard Taft (15 September 1857-8 March 1930) was the 27th President of the United States and later the 10th Chief Justice of the United States. He is the only person to have served in both offices. Riding a wave of popular support of President (and fellow Republican) Theodore Roosevelt, Taft won an easy victory in his 1908 bid for the presidency. In his first and only term, President Taft's domestic agenda emphasized trust-busting, civil service reform, strengthening the Interstate Commerce Commission, improving the performance of the postal service, and passage of the Sixteenth Amendment. This book will take you through the voyage of Taft's Presidency and life in view of that prestigious appointment.

Yankee Nationalist Houghton Mifflin College Division
 "How the father and son presidents foresaw the rise of the cult of personality and fought those who sought to abuse the weaknesses inherent in our democracy. Until now, no one has properly dissected the intertwined lives of the second and sixth (father and son) presidents. John and John Quincy Adams were brilliant, prickly politicians and arguably the most independently minded among leaders of the founding generation. Distrustful of blind allegiance to a political party, they brought a healthy skepticism of a brand-new system of government to the country's first 50 years. They were unpopular for their fears of the potential for demagoguery lurking in democracy, and—in a twist that predicted the turn of twenty-first century politics—they warned against, but were unable to stop, the seductive appeal of political celebrities Thomas Jefferson and Andrew Jackson. In a bold recasting of the Adamses' historical roles, *The Problem of Democracy* is a major critique of the ways in which their prophetic warnings have been systematically ignored over the centuries. It's also an intimate family drama that brings out the torment and personal hurt caused by the gritty conduct of early American politics. Burstein and Isenberg make sense of the presidents' somewhat iconoclastic, highly creative engagement with America's political and social realities. By taking the temperature of American democracy, from its heated origins through multiple upheavals, the authors reveal the dangers and weaknesses that have been present since the beginning. They provide a clear-eyed look at a decoy democracy that masks the reality of elite rule while remaining open, since the days of George Washington, to a very undemocratic result in the formation of a cult surrounding the person of an elected leader"—

Making America: A History of the United States, Brief
 Cengage Learning

The Bush years have given rise to fears of a resurgent Imperial Presidency, but the problem cannot be solved simply by bringing a new administration to power. Both Left and Right agree on the boundless nature of presidential responsibility. For both sides, it is the president's job to grow the economy, teach our children well, save us from hurricanes, and even to spread democracy abroad. In short, the Imperial Presidency is the price we pay for making the office the focus of our national hopes and dreams. Combining historical scholarship, legal analysis, and cultural commentary, *The Cult of the Presidency* argues that the presidency needs to be reined in, with its powers checked by Congress and the courts. Only then will we begin to return the presidency to its proper constitutional role.

The Problem of Democracy Cengage Learning
 The Oxford History of the United States is by far the most respected multi-volume history of our nation. In this Pulitzer prize-winning, critically acclaimed addition to the series, historian Daniel Walker Howe illuminates the period from the battle of New Orleans to the end of the Mexican-American War, an era when the United States expanded to the Pacific and won control over the richest part of the North American continent. A panoramic narrative, *What Hath God Wrought* portrays revolutionary improvements in transportation and communications that accelerated the extension of the American empire. Railroads, canals, newspapers, and the telegraph dramatically lowered travel times and spurred the spread of information. These innovations prompted the emergence of mass political parties and stimulated America's economic development from an overwhelmingly rural country to a diversified economy in which commerce and industry took their place alongside agriculture. In his story, the author weaves together political and military events with social, economic, and cultural history. Howe examines the rise of Andrew Jackson and his Democratic party, but contends that John Quincy Adams and other Whigs—advocates of public education and economic integration, defenders of the rights of Indians, women, and African-Americans—were the true prophets of America's future. In addition, Howe reveals the power of religion to shape many aspects of American life during this period, including slavery and antislavery, women's rights and other reform movements, politics, education, and literature. Howe's story of American expansion culminates in the bitterly controversial but brilliantly executed war waged against Mexico to gain California and Texas for the United States. Winner of the New-York Historical Society American History Book Prize Finalist, 2007 National Book Critics Circle Award for Nonfiction *The Oxford History of the United States* The Oxford History of the United States is the most respected multi-volume history of our nation. The series includes three Pulitzer Prize winners, a New York Times bestseller, and winners of the Bancroft and Parkman Prizes. The

Atlantic Monthly has praised it as "the most distinguished series in American historical scholarship," a series that "synthesizes a generation's worth of historical inquiry and knowledge into one literally state-of-the-art book." Conceived under the general editorship of C. Vann Woodward and Richard Hofstadter, and now under the editorship of David M. Kennedy, this renowned series blends social, political, economic, cultural, diplomatic, and military history into coherent and vividly written narrative.

 Far from a monolithic block of diehard slave states, the antebellum South was, in William Freehling's words, "a world so lushly various as to be a storyteller's dream." It was a world where Deep South cotton planters clashed with South Carolina rice growers, as Northern egalitarianism infiltrated border states already bitterly divided on key issues. It was the world of Jefferson Davis, John C. Calhoun, Andrew Jackson, and Thomas Jefferson, and also of Gullah Jack, Nat Turner, and Frederick Douglass. Now, in the first volume of his long awaited, monumental study of the South's road to disunion, historian William Freehling offers a sweeping political and social history of the antebellum South from 1776 to 1854. All the dramatic events leading to secession are here: the Missouri Compromise, the Nullification Controversy, the Gag Rule, the Annexation of Texas, the Compromise of 1850, and the Kansas-Nebraska Act. Vivid accounts of each crisis reveal the surprising extent to which slavery influenced national politics before 1850 and provide important reinterpretations of American republicanism, Jeffersonian states' rights, Jacksonian democracy, and the causes of the American Civil War. Freehling's brilliant historical insights illustrate a work of rich social observation. In the cities of the Antebellum South, in the big house of a typical plantation, we feel anew the tensions between the slaveowner and his family, poor whites and planters, the Old and New Souths, and most powerfully between slave and master. Freehling has evoked the Old South in all its color, cruelty, and diversity. It is a memorable portrait, certain to be a key analysis of this crucial era in American history.

American Political Culture at the Time of the Civil War

Cengage Learning
 Shaped with a clear political chronology, MAKING AMERICA reflects the variety of individual experiences and cultures that comprise American society. The book's clear and helpful presentation speaks directly to students, sparking their curiosity and inviting them to "do history" as well as read about it. For instructors whose classrooms mirror the diversity of today's college students, the strongly chronological narrative, together with visuals and an integrated program of learning and teaching aids, makes the historical content vivid and comprehensible to students at all levels of preparedness. Available in the following split options: MAKING AMERICA, Seventh Edition (Chapters 1-29),

ISBN: 978-1-285-19479-0; Volume I: To 1877 (Chapters 1-15), ISBN: 978-1-285-19480-6; Volume II: Since 1865 (Chapters 15-29), ISBN: 978-1-285-19481-3. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

William H. Taft Oxford University Press

Benjamin Harrison was an honest, intelligent, hardworking lawyer from Indiana who became the twenty-third President of the United States. During his term in office, he signed important legislation and provided leadership in negotiating foreign policy, striving to advance the United States toward becoming a world power. The book presents an up-to-date and cogent biography of this president who is now considered one of the better presidents of the late nineteenth century.

John Quincy Adams ABC-CLIO

Study guide and review for Advanced Placement United States History for the student serious about doing well in the course. It serves as a great resource either while going through the course, or at the end of the course as a review before the AP exam. This book is directly aligned with "American Pageant" (15th Edition) so the student will do as well as possible during the course. Included are detailed outlines. The outlines link directly to each chapter and to each chapter's sub-sections, thus making it great for a student taking U.S. History and using Bailey and Kennedy's "American Pageant" as his or her main text and who strives to excel in the course. Note: this is the ebook/epub/ipad version. *Reconstruction: A Reference Guide* Nova Publishers Herbert Clark Hoover (10 August 1874-20 October 1964), the 31st President of the United States (1929-1933), was a successful

mining engineer, the peoples icon, and administrator. He showed the Efficiency Movement component of the Progressive Era, arguing there were other solutions to all social and economic problems - a position that was challenged by the Great Depression that began while he was President. Hoover had a distinguished public service career before becoming president at a time of great religious and social turmoil. He had the misfortune to arrive at the presidency at the same time as the Stock Market Crash of 1929 and the outset of the Great Depression and his legacy to this day carries that stigma. He nevertheless is generally ranked in the middle of the pack of effective presidents. *The Professional Bulletin of Army History* Lulu.com

Relatively little attention has been paid to American military history between 1783 and 1812—arguably the most formative years of the United States. This encyclopedia fills the void in existing literature and provides greater understanding of how the nation evolved during this era. • Offers comprehensive, accessible, in-depth information and analyses in a format that lends itself to quick and easy use for readers from the high school level to senior scholars researching the field • Provides in-depth coverage of the Tripolitan War, key weapons, major battles, and Native Americans and Native American tribes *Recarving Rushmore* Nova Publishers

Developed to meet the demand for a low-cost, high-quality history book, this economically priced version of MAKING AMERICA, Seventh Edition offers readers the complete narrative while limiting the number of features, photos, and maps. All volumes feature a two-color paperback format that appeals to those seeking a comprehensive, trade-sized history text. Shaped with a clear political chronology, MAKING AMERICA reflects the variety of individual experiences and cultures that comprise American society. For instructors whose classrooms mirror the diversity of today's college students, the clear narrative, together with an integrated program of learning and teaching aids, makes the historical content vivid and comprehensible to students at all levels of preparedness. MAKING AMERICA is available in the following options: CENGAGE ADVANTAGE BOOKS: MAKING AMERICA, Seventh Edition (Chapters 1–29); Volume 1: To 1877 (Chapters 1-15); Volume 2: Since 1865 (Chapters 15-29). AP U.S. History Review and Study Guide Aligned With American Pageant 15th Edition* Oxford University Press

MAKING AMERICA: A HISTORY OF THE UNITED STATES, BRIEF SIXTH EDITION, presents history as a dynamic process shaped by human expectations, difficult choices, and often the surprising consequences. With this focus on history as a process, MAKING AMERICA encourages readers to think historically and to develop into citizens who value the past. The clear chronology, straightforward narrative, and strong thematic structure emphasize communication over intimidation and appeal to readers of varied learning levels. The Brief Sixth Edition retains a hallmark feature of the MAKING AMERICA program: pedagogical tools that allow readers to master complex material and enable them to develop analytical skills. Every chapter has chapter outlines, chronologies, focus questions, and on-page glossaries (defining both key terms and general vocabulary) to provide guidance throughout the text; the open, inviting design allows readers to access and use pedagogy to improve learning. A wealth of images throughout provides a visual connection to the past, with captions that help readers analyze the subject of the painting, photograph, or artifact from an historical point of view. Investigating America gets to the heart of learning history: reading and analyzing primary sources. A new feature, In The Wider World introduces a global perspective for each chapter. In addition, a new map program provides clear, visually engaging maps with globe insets to put the map in a global context. Available in the following split options: MAKING AMERICA, Brief Sixth Edition Complete, Volume 1: To 1877, and Volume 2: Since 1865.
