Time to dive back into Cape Cod in the fourth book of the Summer Lifeguards series featuring empowering female friendships, relatable challenges, and tons of beach fun! Piper Janssen is surprised by how much she likes being a Junior Lifeguard. Except for one thing: she's totally nervous about wearing a bathing suit in public. Add on a catering gig gone wrong, co-worker drama, and trying not to be distracted by adorable Luke, and Piper's got a lot on her plate this summer. Everyone knows that Piper is amazing. But will Piper ever be able to feel that about herself? Or will her self-consciousness distract her from seeing the real threats on the beach? The fourth book in the Summer Lifeguard series featuring: Strong female friendship
The challenges middle schoolers face and overcome! A heartwarming lesson on body image and self-love Wholesome

beach fun to add to the summer reading list The perfect series for grades three and up!

International Lifeguard Training Program CRC Press

Lifeguard Training Activities and Games is a complete resource for aquatics managers or lifeguard supervisors responsible for conducting site-specific on-the-job training for lifeguards. The compilation of games, skill drills, activities, and guidance enhances training and conditioning of lifeguards and creates a high-performing staff. Throughout the book, the focus is on keeping activities fun and engaging to promote participation and ensure your lifeguards acquire the skills they need in order to take action in an emergency. The book contains more than 70 proven training activities divided into chapters by type of lifeguard skill. Each activity is short enough to be part of an in-service or class warm-up session. Most have variations, allowing for continued challenges of participants' performances through increasing levels of difficulty. The drills, games, and activities improve lifeguards' -general aquatic skills and physical fitness; - surveillance, emergency response, and rescue skills; and - teamwork and problem-solving skills. With this knowledge and training, you will be able to develop and maintain a high-performing lifeguard staff. Certification as a lifeguard is the first step in the overall training process. The real training begins on the job, and the responsibility for that training is left to the aquatics manager or lifeguard supervisor. Lifeguard Training Activities and Games makes that training fun, engaging, meaningful, and practical.

Barrons Educational Series Incorporated

Employers face a myriad of issues when hiring: how to recruit, whom to select, how to interview, Equal Employment Opportunity policies, fair salary offerings, health issues, performance evaluations, behavior/disciplinary actions, turnover, and the list goes on and on. Practical Human Resources Management for Public Managers: A Case Study Approach provides insight into human resource trends and demonstrates how complex situations can be successfully managed by public sector practitioners. The authors take us step by step into the "real world" with examples of historical events that compare "What Happened" with "What Could Have Happened" as well as suggested readings for more in-depth analysis and important points to remember. Exploring the space between theory and what actually occurs in the world, this book supplies instructional case studies based upon actual events. The authors introduce key human resources issues with clear, concise language and provide techniques to address these issues in a real-world setting. The case studies cover legal and liability issues, recruiting and hiring, employee performance, reward and discipline issues, retention, termination, workplace violence, mentorship, motivation, and managing through transitions. The authors bring know-how from a wide array of working environments, including teaching and administrative experience in public universities and management in municipalities of various population sizes from a few thousand to more than a million. They have also worked in a variety of capacities within these organizations, which allow them to see different perspectives on how different departments handle similar situations. They use their from-the-trenches knowledge to

explore pragmatic ways to deal with human resource issues in public sector workplaces.

A Guide to Professional Qualifications in the UK - Where They Lead and How to Get Them Associated University Presse
Covers lifeguarding responsibilities along with information on such topics as rescue breathing, CRP and AED, supplemental oxygen support, spinal injury management, handling risks, and professionalism.

A career tool for job-seekers, career changers, licensing officials and for people who are relocating. It includes national and state information on the licenses and licensing procedures required for more than 500 occupations (and more than 1000 specific job titles) in the US. The book covers professional and vocational careers and is arranged by and cross-referenced by occupational title.

British Qualifications Amer Red Cross

As the number of community pools and waterparks grows nationwide, participation in aquatic activities is also growing. Lifeguards must receive proper and effective training, and maintain their skills to ensure their ability to work effectively with others as a part of a lifeguard team. This manual will supplement your in-service training to keep your knowledge and skills sharp.

The Science of Beach Lifeguarding Arcadia Publishing

The World Health Organization's recently published Global Report on Drowning found that drowning is the third leading cause of unintentional injury death worldwide—making the information presented in this new book an important part of the global effort to reduce this health risk. Written by leading researchers and academics from around the world, *The Science of Beach Lifeguarding* focuses on the scientific evidence that underpins what is taught to and practised by beach lifeguards. It is the first book to pull together all the different areas involved in beach lifeguarding and evaluate their evidence base. An accessible and informative reference underpinned by the best current research, the book's key themes cover the context of beach lifeguarding, the physical environment in which lifeguards work, medical aspects, practical lifeguarding techniques, physiological standards for lifeguards, safety education, and future developments in beach lifeguarding. The book presents groundbreaking work quantifying the scientific rationale behind a universally accepted fitness standard. It supplies an in-depth examination of the risks and hazards associated with the beach environment, including rip currents and cold water immersion. The book includes a state-of-the-art review of drowning and a comprehensive chapter on first aid. Detailing the recently announced 2015 European Resuscitation Council Guidelines, this book is a must-have for beach lifeguards, beach lifeguard managers, search and rescue personnel, paramedics, sports scientists, health and safety practitioners, and occupational health practitioners.

Best Practices for Lifeguards CRC Press

Provides full-length practice exams with answers and explanations, and includes reviews of all test areas from writing skills to science.

The Test Kogan Page Publishers

Lifeguards of San Diego County traces the origins of the nine professional lifeguard agencies that serve the public swimming, diving, and boating along the shorelines of San Diego County. Sporadic lifeguard service existed as early as 1906, but on a single day in 1918, thirteen people drowned at Ocean Beach. The drownings focused community and government attention on the need for consistent lifeguard services along San Diego County's beaches. Today there are more than 600 lifeguards from city and state agencies that serve San Diegans throughout the county. Here for the first time, the origins, experiences, and stories of these dedicated and most often heroic people are woven together into one volume.

Your Professional Qualification McGraw Hill Professional

The Pumpkin Falls Private Eyes grapple with pirates and mermaids in the third cozy mystery of the Edgar Award-nominated middle grade series from the author of the beloved Mother-Daughter Book Club books. Truly Lovejoy is excited for the perfect summer in Pumpkin Falls, New Hampshire: swim practice outside, working at the bookstore, one-on-one time with her mom, and best of all, time with the dreamy RJ Calhoun who may just like Truly back. But the idyllic falls apart when she's sent off to mermaid academy—sparkly tail and all. Luckily, a mystery is never too far behind the Pumpkin Falls Private Eyes, and synchronized swimming turns into a hunt for a sunken ship and an investigation of the founding of Pumpkin Falls...which may

have involved more pirates than originally thought. And as the Pumpkin Falls Private Eyes get closer to the heart of the mystery and Truly gets closer to her mermaid debut, she may just learn to come out of her shell.

And Other Ways Our Intuitions Deceive Us Gale Cengage

Topics Include: applications of engineering anthropometry, postural strain and discomfort, industrial injury prevention, manual materials handling, and ergonomics of rehabilitation and healthcare systems.

Advances In Industrial Ergonomics VI Kogan Page Limited

This book analyses the accessibility and success of vocational training programmes for unemployed and disadvantaged youth in Sub-Saharan Africa. Examining the implementation of vocational education and training programmes, the author assesses various internal and external enabling factors that can help foster youth employment. In doing so, the author presents a solid base for robust and evidence-informed practice and policy making for vocational training programmes, analysing such themes as employability skills, the labour market, and work-integrated learning. It also emphasises the importance of stakeholders taking into account the enabling and disabling environments found in a given local, regional or national context. It will be of interest to scholars of vocational training programmes in Sub-Saharan Africa and elsewhere, as well as of youth poverty and unemployment.

State, prospects and development of rescue, physical culture and sports in the XXI century St. Louis, Mo. ; Toronto : Mosby Lifeline

Reading this book will make you less sure of yourself—and that's

a good thing. In *The Invisible Gorilla*, Christopher Chabris and Daniel Simons, creators of one of psychology's most famous experiments, use remarkable stories and counterintuitive scientific findings to demonstrate an important truth: Our minds don't work the way we think they do. We think we see ourselves and the world as they really are, but we're actually missing a whole lot. Chabris and Simons combine the work of other researchers with their own findings on attention, perception, memory, and reasoning to reveal how faulty intuitions often get us into trouble. In the process, they explain:

- Why a company would spend billions to launch a product that its own analysts know will fail
- How a police officer could run right past a brutal assault without seeing it
- Why award-winning movies are full of editing mistakes
- What criminals have in common with chess masters
- Why measles and other childhood diseases are making a comeback
- Why money managers could learn a lot from weather forecasters

Again and again, we think we experience and understand the world as it is, but our thoughts are beset by everyday illusions. We write traffic laws and build criminal cases on the assumption that people will notice when something unusual happens right in front of them. We're sure we know where we were on 9/11, falsely believing that vivid memories are seared into our minds with perfect fidelity. And as a society, we spend billions on devices to train our brains because we're continually tempted by the lure of quick fixes and effortless self-improvement. *The Invisible Gorilla* reveals the myriad ways that our intuitions can deceive us, but it's much more than a catalog of human failings. Chabris and Simons explain why we succumb to these everyday illusions and what we can do to inoculate

ourselves against their effects. Ultimately, the book provides a kind of x-ray vision into our own minds, making it possible to pierce the veil of illusions that clouds our thoughts and to think clearly for perhaps the first time.

This New American Red Cross CPR/AED for the Professional Rescuer Participant's Manual and course reflect changes based on the 2005 Consensus on Science for CPR and Emergency Cardiovascular Care (ECC) and the Guidelines 2005 for First Aid. Changes to this program and manual include simplifications to many of the CPR skill sequences, which helps improve retention. There have also been changes to help improve the quality of CPR. The integration of CPR skills into the operation of AEDs had changed to help improve survival from sudden cardiac arrest. Professional rescuers are now trained to use AEDs on adults and children. Information has been updated and added to this program to help professional rescuers administer epinephrine, aspirin and fixed-flow-rate oxygen. The skills learned in this

course include adult, child and infant rescue breathing, conscious and unconscious choking, CPR, two-rescuer CPR and adult and child AED. Additional training can be added to this course including bloodborne pathogens training and emergency oxygen administration. While the skills and knowledge that professional rescuers use are increasing, this training will help you meet your most important responsibility as a professional rescuer- the responsibility to save lives.

Lifeguards of San Diego County American Red Cross Lifeguard Exam Lifesaver Certification This practice test includes 140 multiple choice test questions about American Red Cross Lifeguard Exam.
