That Wedding EverAfter Romance

Marry the boy next door in this sweet contemporary romance by USA Today Best Selling Author, Jillian Dodd. The gorgeous engagement ring on my finger mimics my happiness. I feel so sparkly, glittery, and full of promise, because I absolutely know he's that

boy. The boy I want to marry. My prince. My happily ever after. But then our pastor starts asking lots of questions. His parents say I haven't dealt with my past. I have horrible wedding disaster dreams. I can't find the perfect dress. I have to manipulate him to get my way. An old boyfriend asks me to run away with him. My best friend says I'm going to ruin everything. And forever starts to sound like a really long time. Which totally freaks me out and makes me question

everything I know. Should best friends get married? Will my past affect our relationship? Are my horrible dreams a warning? Will I ever find a dress? Could his sexiness be clouding my judgment? Am I going to ruin everything? Or is it just a case of cold feet? And then I have to decide. Am I willing to give up on true love forever, or am I going to listen to my heart and marry him?

As he rose through the

ranks of various departments of the Metropolitan Police, Christian Plowman dreamt of being an undercover cop. When he finally achieved his ambition, becoming one of an elite group of officers, the reality of covert work turned his life into a nightmare. To catch criminals, Christian bought and sold drugs with taxpayers' money, been beaten up, arrested at gunpoint and barricaded in a pub by a gang of marauding gypsies – all in a day's

work. At one stage, he was running almost a dozen mobile phones to keep track of his different identities and had so many aliases that he nearly forgot who he was. He put his life on the line for the job but was to find that being the 'best of the best' wasn't all it was cracked up to be. The pressure became so intense that he even contemplated suicide. *Crossing the Line* is a visceral, gripping account of what it really takes to be an undercover cop. It exposes how the Met

conducts its business behind the scenes and reveals the harsh realities of modern covert police work.

 Todd Hido: Intimate Distance is the first comprehensive monograph charting the career of acclaimed American photographer Todd Hido. Though he has published many smaller monographs of individual bodies of work, this gathers his most iconic images for the first time and brings a fresh perspective to his oeuvre with the inclusion of many

unpublished photographs. Well-known for his photographs of landscapes and suburban housing across the United States, and for his use of luminous color, Hido casts a distinctly cinematic eye across all that he photographs, digging deep into his memory and imagination for inspiration. David Company introduces the work and looks specifically at Hido's cinematic influences and the kind of spectatorship the work demands. The book is organized

chronologically, showing how his series overlap in exciting, new ways. Also featured are short interviews with Hido about the making of each of his monographs. From exterior to interior, surface observations to subconscious investigations, landscapes to nudes, this mid-career survey reveals insight into Hido's practice and illustrates how his unique focus has developed and shifted over time.
Losing Your Mind as an Undercover Cop
 This is an elementary

introduction to syntactic analysis. Assuming no prior knowledge of the subject whatsoever, it is intended for students who are encountering such analysis for the first time. For those embarking on a longer term study of syntax, this will be a valuable and quickly assimilated foundation course. For students who will need to use syntax as a basic descriptive tool - such as trainee teachers,

speech therapists or students of literacy style - the book provides a framework for their analysis and practice in its use. The book begins by looking at the use of generalizations in describing sentence structure and the basis for word categories. It then moves through increasingly more complex constructions giving students plenty of opportunity by way of practical exercises to

understand the basis of each analysis before moving further. The aim of the book is not to explore complex issues of argumentation. Its emphasis is on practical "hands on" analysis.
