Science & Business Media *Yurei Attack!* is a nightmare-inducing one-stop guide to Japan's traditional ghosts and spirits. Surviving encounters with angry ghosts and sexy spectres. Haunted places. Dangerous games and how to play them. And more importantly, a guided tour of what awaits in the world of the dead. *Yurei* is the Japanese word for "ghost." It's as simple as that. They are the souls of dead people, unable--or unwilling--to shuffle off

this mortal coil. Yurei are many things, but "friendly" isn't the first word that comes to mind. Not every yurei is dangerous, but they are all driven by emotions so uncontrollably powerful that they have taken on a life of their own: rage, sadness, devotion, a desire for revenge, or even the firm belief that they are still alive. This book, the third in the authors' bestselling Attack! series, after Yokai Attack! and Ninja Attack! gives detailed information on 39 of the creepiest

yurei stalking Japan, along with detailed histories and defensive tactics should you have the misfortune to encounter one.

Japanese ghosts include: Oiwa, The Horror of Yotsuya Otsuyu, The Tale of the Peony Lantern The Lady Rokujo, The Tale of Genji Isora, Tales of Moonlight and Rain Orui, The Depths of Kasane Book 3 of 3 in the Yokai Attack! series. Others include Ninja Attack! and Yokai Attack!.

An encyclopedia of Japanese animation and comics made since 1917. *Attack on Titan Omnibus 1 (Vol. 1-3)* Pen and Sword Northrop's T-38 Talon was the world's first supersonic trainer aircraft, and remains in service today in air forces worldwide. It entered service in 1961, and quickly set climb records, earning it the nickname 'white rocket'. Nearly 1200 Talons were produced before the last one rolled off the assembly line in 1972. Capable of a speed of

Mach 1.3, and a climb rate approaching 34,000 feet per minute, the T-38's performance was sufficient to warrant service as the USAF Thunderbirds' aircraft in the mid-1970s. Its primary role however, was as a dedicated training and proficiency platform. More than 50,000 USAF, NASA and NATO pilots have flown the Talon, a record that may never be matched. Originally printed by the U.S. Air Force and Northrop, this handbook for the T-38 provides a fascinating

glimpse inside the cockpit of this famous aircraft. Originally classified 'restricted', the manual was recently declassified and is here reprinted in book form. *U.S.S. Cod (SS-224)* Tuttle Publishing
 Today tied up on the Cleveland, Ohio waterfront, U.S.S. Cod is the lowest numbered surviving World War II American fleet submarine. During the war, Cod made a total of seven war patrols, operating from Australia, Hawaii and Guam. This book contains

the complete text of the war patrol reports submitted by her three wartime commanding officers, Commander James C. Dempsey, Commander James A. Adkins, and Lieutenant Commander Edwin M. Westbrook, Jr. Also included is an Introduction and notes by popular submarine novelist and historian J.T. McDaniel. [Advanced Data Mining and Applications](#) National Geographic Books
 Leader of the Pack recounts the incredible history of USS Batfish, a

record-setting American World War II fleet submarine. Batfish entered the pantheon of military lore during its famous sixth patrol in February 1945, where it sank a record three Japanese submarines in seventy-six hours. In addition to offering a rousing and meticulously researched account of the famous sixth patrol, author and military historian Mark W. Allen unravels a nautical mystery that had gone unresolved for over sixty years: the identity of the

first Japanese submarine sunk by Batfish skipper John K. Fyfe. Controversy has surrounded the identity of the first submarine almost since the day of the sinking, but *Leader of the Pack*, through a diligent recreation of the events that unfolded in the days leading up to the sixth patrol, solves the mystery once and for all. Lastly, Allen shares a personal story, never told before in such detail, of Batfish's rescue of three downed aviators who were forced to ditch their B-25 Mitchell

bomber after it was hit by enemy anti-aircraft fire during a bombing mission on the Japanese homeland.

United States Strategic Bombing Survey Lulu.com "No One Avoided Danger" is a detailed combat narrative of the 7 December 1941 Japanese attacks on NAS Kaneohe Bay, one of two naval air stations on the island of O'ahu. Partly because of Kaneohe's location—15 air miles over a mountain range from the main site of that day's infamous attack on Pearl

Harbor—military historians have largely ignored the station's story. Moreover, there is an understandable tendency to focus on the massive destruction sustained by the U.S. Pacific Fleet. The attacks on NAS Kaneohe Bay, however, were equally destructive and no less disastrous, notwithstanding the station's considerable distance from the harbor. The work focuses on descriptions of actions in the air and on the ground at the deepest practical,

personal, and tactical level, from both the American and Japanese perspectives. Such a synthesis is possible only by pursuing every conceivable source of American documents, reminiscences, interviews, and photographs. Similarly, the authors sought out Japanese accounts and photography from the attacks, many appearing in print for the first time. Information from the Japanese air group and aircraft carrier action reports has never before

been used. On the American side, the authors also have researched the Official Military Personnel Files at the National Personnel Records Center and National Archives in St. Louis, Missouri, extracting service photographs and details of the military careers of American officers and men. The authors are among the first historians to be allowed access to previously unused service records. The authors likewise delved into the background and

personalities of key Japanese participants, and have translated and incorporated the Japanese aircrew rosters from the attack. This accumulation of data and information makes possible an intricate and highly integrated story that is unparalleled. The interwoven narratives of both sides provide a deeper understanding of the events near Kane'ohe Bay than any previous history.

 This is a regimental history with a difference, one that is bound up with the history of the British Empire in Africa and the extension and

development of British rule in the territories of Somaliland, British East Africa (redesignated Kenya from July 1920), Uganda, Nyasaland and, after 1918, Tanganyika (previously German East Africa). These were the territories that were the recruiting grounds for the KAR to which officers from the British Army were seconded - there were no permanent commissions in the KAR unlike the Indian Army which had its own officer structure. No regiment has ever been more intimately

connected with the territory through which it marched and fought, or with the peoples from which it was recruited. It was a unique regiment. The author has arranged the book in five parts: The Campaigns of the Early Regiments; The Consolidation of the Regiment, 1901-1914; The East Africa Campaign, 1914-1918; Internal Security and Reorganization 1914-1939; and The War of 1939-1945. The story begins with the political background to the British

administration in East and Central Africa up to the close of the nineteenth century. During the last decade of that century three regiments were formed which were the forerunners of the K.A.R - The Central African Regiment, The Uganda Rifles and the East African Rifles. These saw action in various expeditions and campaigns, in Mauritius, Somaliland, The Ashanti War, The Gambia Expedition, Expeditions against the Nandi and others. On 1 January 1902 the King's African Rifles

came into being, incorporating the original regiments as battalions, six battalions: 1st and 2nd (Central Africa); 3rd (East Africa); 4th and 5th (Uganda) and 6th (Somaliland) Battalions. The total strength was returned as 4,683 officers and men, including 104 British officers. For the new regiment the main operations before WWI were the campaigns against the Mad Mullah of Somaliland involving four expeditions; he wasn't finally seen off until 1920. During the Great War

there were 21 battalions and at peak strength in July 1918 the K.A.R. numbered 1,193 officers, 1,497 British NCOs and 30,658 Africans; casualties amounted to 5,117 with a further 3,039 died of disease. The regiment's part in the campaign against von Lettow-Vorbeck in East Africa is fully described. The regiment was again in action during WWII taking part in three separate campaigns: the defeat of the Italians in Somalia and Abyssinia; the occupation of Madagascar against the

opposition of the Vichy French; and the reconquest of Burma when, for the first time, K.A.R. battalions fought outside the continent of Africa. This must be one of the best regimental histories ever written.

Air Commodore Peter Malam 'Pete' Brothers CBE, DSO, DFC, and Bar (1917-2008) was one of the most heroic and highly praised pilots of the Second World War. Decorated extensively, he secured a total of 16 'kills' over the course of the conflict, with 10 of these occurring during the Battle of Britain. Pivotal moments in his career include the time, in August 1940, when his flight encountered around a hundred enemy aircraft,

including Messerschmitt 110's; he led the flight in attack against them, and soon found himself in a stalled position, out of which he spun, only to be confronted by a Dornier 215, which he shot down, before later destroying a Messerschmitt 109. Scores of these kind of risky manoeuvres and winning victories punctuated a career defined by great courage, leadership and initiative in the face of fierce opposition. ??This new and engaging biography profiles a pilot who, until

now, hasn't been the subject of such a thorough book-length study. The story of his career is incredibly entertaining, featuring a number of hair-raising episodes, and is sure to appeal to fans of aviation history as well as the more general reader seeking out an action-packed biography offering fresh insights into one of the most pivotal conflicts of the twentieth century. *U.S. Strategic Bombing Survey: Ludwigshafen-Oppau Works of Farbenindustrie A.G.*
