The
importance of
a strong
evidence-base
is widely
recognised in

contemporary health, social care and education practice, meaning that there is a real need for research which can be quickly and easily translated into real world situations. Research co-produced by practitioners and academics from early stages to end results can draw on each party's knowledge and experience, in order to create high quality evidence that

is relevant and appropriate to practice needs. This guide introduces the basics of co-producing research, looking at the evidence for co-produced research and outlining its theoretical underpinnings, as well as discussing barriers and facilitators to consider. It includes a practitioner perspective and an academic perspective on the benefits and challenges of co-produced

research. The substantive chapters are each co-written by an academic and practitioner team and give examples of work carried out - and lessons learned - in public health, education and criminal justice settings. Key learning points are included throughout and drawn together to comprise a toolkit at the end of the book. This book teaches academics and practitioners

more about how they can find practical evidence-based answers to complex questions. The Essential Wayne Dyer Collection SAGE Across several industries, we are observing a paradigm shift from traditional, firm-centric and top-down value creation to more open and collaborative approaches, also referred to as bottom-up economics. The boundaries of firms dissolve and external

actors (customers, user, suppliers etc.) enter the domain of value creation by means of advanced information and communication technologies. These new and evolving patterns require a renewed and interdisciplinary understanding of how co-creation enables organizations to reshape business and society. With contributions from industrial and academic experts, this

book provides deep insights into the theory and practice of bottom-up economics, and addresses the major opportunities and challenges that have emerged in the era of co-creation. A must read for decision-makers looking to innovate their companies' business models—from ideation to marketing. Dr.-Ing. Michaela Colla, K-GXI Leader - Industry 4.0 at Volkswagen

Simply put, co-creation is the future of work. With technology morphing the way we work and young people wanting to tackle problems that matter, co-creation is the sandbox where the world can come together to solve big challenges. Plus, co-creation rapidly delivers products with built-in market fit. Megan Brewster, Vice President of Advanced Manufacturing at Launch

BESTSELLER • Tarana Burke and Dr. Brené Brown bring together a dynamic group of Black writers, organizers,

artists, academics, and cultural figures to discuss the topics the two have dedicated their lives to understanding and teaching: vulnerability and shame resilience. Contributions by Kiese Laymon, Imani Perry, Laverne Cox, Jason Reynolds, Austin Channing Brown, and more NAMED ONE OF THE BEST BOOKS OF THE YEAR BY MARIE CLAIRE AND BOOKRIOT It started as a text between

two friends. Tarana Burke, founder of the 'me too.' Movement, texted researcher and writer Brené Brown to see if she was free to jump on a call. Brené assumed that Tarana wanted to talk about wallpaper. They had been trading home decorating inspiration boards in their last text conversation so Brené started scrolling to find her latest Pinterest pictures when

the phone rang. But it was immediately clear to Brené that the conversation wasn't going to be about wallpaper. Tarana's hello was serious and she hesitated for a bit before saying, "Brené, you know your work affected me so deeply, but as a Black woman, I've sometimes had to feel like I have to contort myself to fit into some of your words. The core of it rings so true for me, but the

application has been harder." Brené replied, "I'm so glad we're talking about this. It makes sense to me. Especially in terms of vulnerability. How do you take the armor off in a country where you're not physically or emotionally safe?" Long pause. "That's why I'm calling," said Tarana. "What do you think about working together on a book about the Black experience with vulnerability and shame

resilience?”

propelling one to succeed at all costs by never giving up on an inner picture. In this view, and attitude that combines hard work with an indefatigable drive toward excellence is the way to succeed. However, intention is viewed very differently in this book. [The author] has researched intention as a force in the universe that allows the act to creation to take place. This book explores intention-not

Reveals that those who love and work with crystals and stones have been intuitively following the path of spiritual alchemy •
Provides

meditative practices with specific stones to go with each stage of the alchemical transformation process as well as other tools and techniques •
Includes an illustrated dictionary summarizing the spiritual qualities of more than 375 different minerals, crystals, and gemstones
The Alchemy of Stones presents an inspired breakthrough in Robert Simmons' thirty-five year career of exploring and

revealing the spiritual qualities and potentials of minerals, crystals, and gemstones. This holistic, Earth-based framework for understanding stones and their energies initiates readers into an alchemical worldview that leads to spiritual healing, transformation , and transcendence . Engaging readers step by step, Simmons provides guidance on discovering and harnessing

the three human powers of intention, attention, and imagination, each a crucial component for meeting and working in harmony with the energies of the Stone Beings. Simmons also introduces us to the Divine Feminine intelligence known as Sophia, or Wisdom. The Stone Beings are her emissaries, and through relating and co-creating with them, the healing and redemption of ourselves and the Earth

becomes a reality. Offering an illustrated dictionary of the spiritual qualities of more than 375 different minerals, crystals, and gemstones, Simmons also explores in depth what he calls the Four Cornerstones of the Alchemy of Stones: Moldavite, Phenacite, Azeztulite, and Rosophia. He discusses the stages of alchemical transformation and provides meditative practices with specific stones

to go with each stage. He also explores how to work with stone mandalas, crystal body layouts, gemstone elixirs, and Orgonite energy devices and details powerful techniques for working with stones. Woven throughout are Simmons' personal stories of the pivotal mystical experiences that triggered his capacity to feel stone energies and led him to develop his

relationship with the stones, revealing how this work can open minds and awaken hearts. Lavishly illustrated, *The Alchemy of Stones* is an invitation to a journey of enlightenment, transformation, and spiritual metamorphosis aligned with the path of our living, conscious Earth. *The Success Criteria Playbook* BIS Publishers DISCOVER HOW TO MANIFEST ANYTHING

The Power of Co-Creation

Stanford University Press

From the author of the bestselling novel *The Shack* and the New York Times bestsellers *Cross Roads* and *Eve* comes a compelling, conversational exploration of twenty-eight assumptions about God—assumptions that just might be

keeping us from experiencing His unconditional, all-encompassing love. In his wildly popular novels, Wm. Paul Young portrayed the Triune God in ways that challenged our thinking—sometimes upending long-held beliefs, but always centered in the eternal, all-encompassing nature of God’s love. Now, in Wm. Paul Young’s first nonfiction book, he

invites us to revisit our assumptions about God—this time using the Bible, theological discussion, and personal anecdotes. Paul encourages us to think through beliefs we’ve presumed to be true and consider whether some might actually be false. Expounding on the compassion fans felt from the “Papa” portrayed in *The Shack*—now a major film starring Sam

Worthington and Octavia Spencer—Paul encourages you to think anew about important issues including sin, religion, hell, politics, identity, creation, human rights, and helping us discover God’s deep and abiding love. The Power of Intention (EasyRead Large Bold Edition) Policy Press

“Intention is a force in the universe, and everything and everyone is connected to this invisible force.” Dr. Wayne W. Dyer has researched intention as a force in the universe that allows the act of creation to

take place. This beautiful edition of Wayne’s international bestseller explores intention—not as something we do—but as an energy we’re a part of. We’re all intended here through the invisible power of intention—a magnificent field of energy we can access to begin co-creating our lives! Part I deals with the principles of intention, offering true stories and examples showing how to make the

connection. Wayne identifies the attributes of the all-creating universal mind of intention as kind, loving, beautiful, expanding, endlessly abundant, and receptive, emphasizing the importance of emulating this source of creativity. In Part II, he offers an intention guide with specific ways to apply the co-creating principles in daily life. Part III is an exhilarating description of

Wayne's vision of an individual connected at all times to the universal mind of intention. **Reinhabiting the Village** AK Press AN INTERNATIONAL SENSATION FROM #1 NEW YORK TIMES BEST-SELLING AUTHORS OF THE LAW OF ATTRACTION, ESTHER AND JERRY HICKS A POWERFUL RELATIONSHIP BOOK TO UNDERSTAND EVERY RELATIONSHIP YOU HAVE EVER EXPERIENCED - FEATURING
