What is the distinctive Zoroastrian experience, and what is the common diasporic experience? The Zoroastrian Diaspora is the outcome of twenty years of research and of archival and fieldwork in eleven countries, involving approximately 250,000 miles of travel. It has also involved a survey questionnaire in eight countries, yielding over 1,840 responses. This is the first

book to attempt a global comparison of Diaspora groups in six continents. Little has been written about Zoroastrian communities as far apart as China, East Africa, Europe, America, and Australia or on Parsis in Mumbai post-Independence. Each chapter is based on unused original sources ranging from nineteenth century archives to contemporary newsletters. The book also includes studies of Zoroastrians on the Internet, audio-visual resources, and the modern development of Parsinovels in English. As well as studying the Zoroastrians for their own inherent importance, this book contextualizes the Zoroastrian migrations within contemporary debates on Diaspora studies. John R. Hinnells examines what it is like to be a religious Asian in Los Angeles or London, Sydney or Hong Kong. Moreover, he explores not only how experience differs from one country to another, but also the differences between cities in the same

country, for example, Chicago and Houston. The survey data is used firstly to consider the distinguishing demographic features of the Zoroastrian communities in various countries; and secondly to analyse different patterns of assimilation between different groups: men and women and according to the level and type of education. Comparisons are also drawn between people from rural and urban backgrounds; and between generations in religious beliefs and practices, including the preservation of secular culture.

John Dewey's *Democracy and Education* addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, *Democracy and Education* is regarded as the seminal work on public education by one of the most important scholars of the century.

John Stuart Mill was a prolific and well-regarded author and philosopher in his day, but perhaps his most enduring work is *On Liberty*, an essay developed over several years and with significant input from his wife. In it, he applies his views on the Utilitarian ethical theory to systems of society and governance. The result became one of the most influential essays on liberal political thought in modern history. In *On Liberty* Mill addresses such familiar concepts as freedom of speech, the importance of individuality, and the limits of society's influence on the individual. He caps the discussion with an application of these principles to problems of the day, including education and the economy. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

The cultural universe of urban, English-speaking middle class in India shows signs of growing inclusiveness as far as English is concerned. This phenomenon manifests itself in increasing forms of bilingualism (combination of English and one Indian language) in everyday forms of speech - advertisement jingles, bilingual movies, signboards, and of course conversations. It is also evident in the startling prominence of Indian Writing in English and somewhat less visibly, but steadily rising, activity of English translation from Indian languages. Since the eighties this has led to a frenetic activity around English translation in India's academic and literary circles. Kothari makes this very current phenomenon her chief concern in *Translating India*. The study covers aspects such as the production, reception and marketability of English translation. Through an unusually multi-disciplinary approach, this study situates English translation in India amidst local and global debates on translation, representation and authenticity. The case of Gujarati - a case study of a relatively marginalized language - is a unique addition that demonstrates the micro-issues involved in translation and the politics of language. Rita Kothari teaches English at St. Xavier's College, Ahmedabad (Gujarat), where she runs a translation research centre on behalf of Katha. She has published widely on literary sociology, postcolonialism and translation issues. Kothari is one of the leading translators from Gujarat. Her first book (a collaboration with Suguna Ramanathan) was on English translation of Gujarati poetry (*Modern Gujarati Poetry: A*

Selection, Sahitya Akademi, New Delhi, 1998). Her English translation of the path-breaking Gujarati Dalit novel *Angaliyat* is in press (The Stepchild, Oxford University Press). She is currently working on an English translation of Gujarati short stories by women of Gujarat, a study of the nineteenth-century narratives of Gujarat, and is also engaged in a project on the Sindhi identity in India.

The kingdom of Patan is under attack from the army of Avanti. People have fled their villages to seek refuge in the city. Amidst the mounting panic, the arrival of Kaak, a young warrior from Laal, sets in motion a frantic chain of events. The Lord and Master of Gujarat is set four years after The Glory of Patan, and unfolds at dizzying speed, abounding in conspiracies, heroism and romance. From the spectacular rise of Siddhraj Jaysinh to the intrigues surrounding the consolidation of Gujarat, from the growing romance between Kaak and Manjari to the escalating tension between Munjal Mehta and Kirtidev over the future of the kingdom, this is an epic novel in the grand tradition of Alexandre Dumas. Arguably K.M. Munshi's best-known work, it deftly weaves state politics and battles with personal trials and tribulations into

one glorious tapestry.

**The International Year Book and Statesmen's Who's who** Mixing narrative and images, this book provides a stark account of the collapse of the textile industry in Ahmedabad. Over a four-year period, the author, accompanied by photographer Parthiv Shah, found out what had happened to their previous informants. Hindus and Muslims alike remembered a shared past of working in the same mills and living in the same neighborhoods. Then, following the 2002 riots, the community suffered its final fractures of religious hate. The stories and images here form a unique record of the social consequences of mass pauperization, a record that pays special attention to the coping mechanisms of women in preserving the basic fabric of family.
