appreciating our planet as it is—not as we wish it would be. Irreverent and reflective, the book is a love letter to our biosphere's most tainted, most degraded ecosystems, and a measured consideration of what they mean for us. Equal parts travelogue, expose, environmental memoir, and faux guidebook, Blackwell careers through a rogue's gallery of environmental

disaster areas in search of the worst the world has to offer—and approaches a deeper understanding of what's really happening to our planet in the process. Environmental Science for AP®

Houghton Mifflin Harcourt

Strive for a 5: Preparing for the AP(R) Environmental Science Examination is a workbook designed to help students evaluate their understanding of the material covered in the student textbook, to reinforce key

concepts, and to prepare students for success on the AP(R) Environmental Science Exam. There are two sections in the Strive for a 5, a study guide section and a test preparation section. The study guide contains a detailed reading guide for students to use as they study the chapter with between 100 and 200 comprehension questions per chapter. There are also vocabulary exercises, math practice

problems, and review questions, as well as FRQ practice questions and two full practice cumulative exams.
