According to the last census, one in five people in the United States lives with a disability. Some are visible, some are hidden--but all are underrepresented in media and popular culture. Now, just in time for the thirtieth anniversary of the Americans with Disabilities Act, activist Alice Wong brings together an urgent, galvanizing collection of personal essays

by contemporary disabled writers. There is Harriet McBryde Johnson's "Unspeakable Conversations," which describes her famous debate with Princeton philosopher Peter Singer over her own personhood. There is columnist s. e. smith's celebratory review of a work of theater by disabled performers. There are original pieces by up-and-coming authors like Keah Brown and Haben Girma. There are blog posts, manifestos, eulogies, and testimonies to Congress. Taken together, this anthology gives a glimpse of the vast richness and complexity of the disabled experience, highlighting the passions, talents, and everyday lives of this community. It invites readers to question their own assumptions and understandings. It celebrates and documents disability culture in the now. It looks to the future and past with hope and love.

Develop and implement an action plan for self-care Cultivating focus, re-energizing

oneself, and improving daily habits are essential for educators' well-being and the good that they pass along to students. Mike Kuczala asserts that educators' greatest tool is a mirror—in it, teachers will find their greatest advocate for personal growth, power, wellness, and vision: themselves. However, finding the time to implement new habits can be hard. Because small changes are easier to plan for and realize, Kuczala concentrates on the habits that are most likely to yield significant improvements. This book guides educators in meaningful self-reflection by providing: Five critical practices to increase productivity and decrease anxiety Reflection prompts and vignettes to guide readers in developing self-care strategies Practical checklists and templates to help educators maintain goals Grounded in new research connecting personal change to professional improvement, Kuczala's approach to well-being builds a bridge between mind and body to create a comprehensive path for success.
