A Dog's Tale Little, Brown Books for Young Readers

On the hottest summer afternoons when desert creatures look for shade and stay close to the earth and keep their voices low I sit high on a cactus and fling my loud ringing trill out to the sun... So sings the Cactus Wren, one of the ten desert creatures that speaks for itself in the evocative and lyrical verses of Desert Voices. In both text and illustration, Desert Voices conveys a message of spirit and courage from the shy and quiet creatures of the beautiful desert land.

As teachers become better at planning and providing practice sessions that build these skills, students become more adept at using new knowledge and processes swiftly and accurately. Fluent thinking is crucial for success on the SAT, ACT, and other timed testing situations. Practicing Skills, Strategies, & Processes: Classroom Techniques to Help Students Develop Proficiency explores explicit techniques for mastering this crucial strategy of instructional practice. It includes:
* Explicit steps for implementation*

Recommendations for monitoring students' ability to develop fluent thinking* Adaptations for students who struggle, have special needs, or excel in learning* Examples and nonexamples from classroom practice* Common mistakes and ways to avoid them

The Essentials for Achieving Rigor series of instructional guides helps educators become highly skilled at implementing, monitoring, and adapting instruction. Put it to practical use immediately, adopting day-to-day examples as models for application in your own classroom.

A fresh new look for this modern classic by the Newbery-Award winning and bestselling author of *Where the Mountain Meets the Moon* Pacy is back! The beloved heroine of *The Year of the Dog* and *The Year of the Rat* has returned in a brand new story. This summer, Pacy's family is going to Taiwan for an entire month to visit family and prepare for their grandmother's 60th birthday celebration. Pacy's parents have signed her up for a Chinese painting class, and at first she's excited. This is a new way to explore her art talent! But everything about the trip is

harder than she thought it would be--she looks like everyone else but can't speak the language, she has trouble following the art teacher's instructions, and it's difficult to make friends in her class. At least the dumplings are delicious... As the month passes by, Pacy eats chicken feet (by accident!), gets blessed by a fortune teller, searches for her true identity, and grows closer to those who matter most.

Thirteen-year old McKay is a talented

baseball player, but as equally untalented when it comes to algebra. If he doesn't bring his grade up, his parents threaten to make him quit the team. His best friend Tony thinks the natural solution is for McKay to befriend Serena, a pretty girl in class, who also happens to get straight A's in algebra. Not only will that get McKay the tutor he desperately needs, but it will give Tony the chance to flirt with Serena's two best friends. Unfortunately, if McKay follows Tony's advice on how to "play the game," he might find himself in an even worse spot than when he was merely failing algebra. With a keen sense of wit, and more self-confidence than he gives himself credit for, McKay will keep readers alternately laughing and groaning as he is dragged kicking and

screaming into the subtle (and often not so subtle) world of teen dating.
