As a young girl in a working-class neighborhood of Sydney, Australia, Geraldine Brooks longed to discover the places where history happens and culture comes from, so she enlisted pen pals who offered her a window on adolescence in the Middle East, Europe, and America. Twenty years later Brooks, an award-winning foreign correspondent, embarked on a human treasure hunt to find her pen friends. She found men and women whose lives had been shaped by war and hatred, by fame and notoriety, and by the ravages of mental illness. Intimate, moving, and often humorous, *Foreign Correspondence* speaks to the unquiet heart of every girl who has ever yearned to become a woman of the world.

A translation of short stories by the well-known Indonesian author, Pramoedya Ananta Toer.

Written in the 1950s, these stories are intensely regional in flavor and modern in approach. This collection includes such works as "Stranded Fish," "Creatures Behind Houses," and the great "Ketjapi."

With *House Of Glass* comes the final chapter of Pramoedya's epic quartet, set in the Dutch East Indies at the turn of the century. A novel of heroism, passion, and betrayal, it provides a spectacular conclusion to a series hailed as one of the great works of modern literature. At the start of *House of Glass*, Minke, writer and leader of the dissident movement, is now imprisoned—and the narrative has switched to Pangemanann, a former policeman, who has the task of spying and reporting on those who continue the struggle for independence. But the hunter is becoming the hunted. Pangemanann is a victim of his own conscience and has come to admire his adversaries. He must decide whether the law is to safeguard the rights of the people or to control the people. He fears the loss of his position, his family, and his self-respect. At last Pangemanann sees that his true opponents are not Minke and his followers, but rather the dynamism and energy of a society awakened.

"Everything should be made as simple as possible—but not simpler" Albert Einstein Traffic Theory, like all other sciences, aims at understanding and improving a physical phenomenon. The phenomenon addressed by Traffic Theory is, of course, automobile traffic, and the problems associated with it such as traffic congestion. But what causes congestion? Some time in the 1970s, Doxiades coined the term "oikomenopolis" (and "oikistics") to describe the world as man's living space. In Doxiades' terms, persons are associated with a living space around them, which describes the range that they can cover through personal presence. In the days of old, when the movement of people was limited to walking, an individual oikomenopolis did not intersect many others. The automobile changed all that. The term "range of good" was also coined to describe the maximal distance a person can and is willing to go in order to do something useful or buy something. Traffic congestion is caused by the intersection of a multitude of such "ranges of good" of many people exercising their range utilisation at the same time. Urban structures containing desirable structures contribute to this intersection of "ranges of good". xii Preface In a biblical mood, I opened a 1970 paper entitled "Traffic Control -- From Hand Signals to Computers" with the sentence: "In the beginning there was the Ford".

The Giant Awakens! Talk To Me In Korean

This work is based on Dr. Washington Matthews studies of the Hidatsa Indians while stated at a military post and serving as a medical officer of the Army. This work presents what Matthews learned by observing manners, customs, and other characteristics, as well as making a close and careful study of their language. The original intent was to publish this treatise as a portion of a general work on Indian ethnography, but a delay in publishing the larger work made it desirable to prepare this material as a separate publication.

As the world moves into the twentieth century, Minke, one of the few European-educated Javanese, optimistically starts a new life in a new town: Betawi. With his enrollment in medical school and the opportunity to meet new people, there is every reason to believe that he can leave behind the tragedies of the past. But Minke can no more escape his past than he can escape his situation as part of an oppressed people under a foreign power. As his world begins to fall apart, Minke draws a small but fervent group around him to fight back against colonial exploitation. During the struggle, Minke finds love, friendship, and betrayal—with tragic consequences. And he goes from wanting to understand his world to wanting to change it. Pramoedya's full literary genius is again evident in the remarkable characters that populate the novel—and in his depiction of a people's painful emergence from colonial domination and the shackles of tradition.

"Let a thousand verses bloom. Anthems of Resistance is about the iconoclastic tradition of poetry nurtured by Ali Sardar Jafri, Faiz Ahmad Faiz, Javed Akhtar, Fehmida Riyaz and all those who have been part of the progressive writers' movement in the Indian subcontinent. It documents the rise of the Progressive Writers' Association, its period of ascendancy, its crucial role in the struggle for independence, and its unflagging spirit of resistance against injustice. In the process, the book highlights various aspects of the PWA's aesthetics and politics such as its internationalist ethos, its romance with modernity, its engagement with feminism, its relationship to Hindi cinema and film lyrics, and the vision of a radically new world which its members articulated with passion. Part history, part literary analysis, part poetic translation, and part unabashed celebration of the PWA era, this book is truly a unique resource. This is a lucidly written account of a glorious chapter in the history of Indian literature. The powerful verses of the PWA poets are wonderfully translated and, along with the highly accessible transliteration, offer the general reader a rare opportunity to appreciate the writings that helped shape a nation. Anthems of Resistance is truly an inspiring and pleasurable read." - Professor Mushirul Hasan, Vice Chancellor, Jamia Millia Islamia, New Delhi "Such a gift from the Brothers Mir! Lyrical and thoughtful, this introduction to the vast swathe of

progressive Urdu poetry belongs on all our shelves, and in all our hearts. It is a companion worthy of the poetry itself. A singular achievement." - Professor Vijay Prashad, Director of International Studies, Trinity College, Connecticut, US "Like the many poets they celebrate, the authors write with passion and conviction ... Their book makes for a joyous and exhilarating read." -Professor C.M. Naim, Professor Emeritus, University of Chicago

First published in 1908, "Scouting for Boys" is the seminal work on scouting by British Army officer and founder of the worldwide scouting movement, Robert Baden-Powell. Originally written as a manual for self-instruction, "Scouting for Boys" details many important scouting skills including scoutcraft, tracking, woodcraft, camping, and first-aid. Baden-Powell's work is a rework of his earlier "Aids to Scouting", published in 1899, and borrows many ideas from Ernest Thompson Seton's "The Birch Bark Roll of the Woodcraft Indians", published in 1906. "Scouting for Boys" includes numerous tales that can be told around the campfire, as well as many of Baden-Powell's personal anecdotes, and opinions on proper moral character of boy scouts. While some of the information in this work may seem outdated and some of the moralizing may seem antiquated to modern readers, "Scouting for Boys" remains an important historical work in the scouting movement. Having sold millions of copies since its first publication, the impact Baden-Powell's "Scouting for Boys" as well as his personal advocacy for the scouting movement cannot be overstated. This edition is printed on premium acid-free paper.
