Everything You Always Wanted to Know
 about Heaven Sterling Test Prep
 Challenging the widely-held assumption
 that Slavoj Žižek's work is far more
 germane to film and cultural studies than
 to literary studies, this volume
 demonstrates the importance of Žižek to
 literary criticism and theory. The
 contributors show how Žižek's practice of
 reading theory and literature through one

another allows him to critique, complicate,
 and advance the understanding of
 Lacanian psychoanalysis and German
 Idealism, thereby urging a rethinking of
 historicity and universality. His
 methodology has implications for
 analyzing literature across historical
 periods, nationalities, and genres and can
 enrich theoretical frameworks ranging
 from aesthetics, semiotics, and
 psychoanalysis to feminism, historicism,
 postcolonialism, and ecocriticism. The
 contributors also offer Žižekian
 interpretations of a wide variety of texts,
 including Geoffrey Chaucer's *Troilus and
 Criseyde*, Shakespeare's *The Merchant of
 Venice*, Samuel Beckett's *Not I*, and

William Burroughs's *Nova Trilogy*. The
 collection includes an essay by Žižek on
 subjectivity in Shakespeare and Beckett.
 Everything You Always Wanted to Know

 Žižek affirms Žižek's value to literary
 studies while offering a rigorous model of
 Žižekian criticism. Contributors. Shawn

Everything You Always Wanted to Know about Acting, But Were Afraid to Ask, Dear Verso

A fun, illustrated history of the umbrella's surprising place in life and literature. Humans have been making, using, perfecting, and decorating umbrellas for millennia--holding them over the heads of rulers, signalling class distinctions, and exploring their full imaginative potential in folk tales and novels. In the spirit of the best literary gift books, *Brolliology* is a beautifully designed and illustrated tour through literature and history. It surprises us with the crucial role that the oft-overlooked umbrella has played over centuries--and not just in keeping us dry. Marion Rankine elevates umbrellas to their rightful place as an object worthy of philosophical inquiry. As Rankine points out, many others have tried. Derrida sought to find the meaning (or lack thereof) behind an umbrella mentioned in Nietzsche's notes, Robert Louis Stevenson wrote essays on the handy object, and Dickens used umbrellas as a narrative device for just about everything. She tackles the gender, class, and social connotations of carrying an umbrella and helps us realize our deep connection to this most forgettable everyday object--which we only think of when we don't have one.

An If Only novel Waterbrook Press

In his earlier book, Eric Metaxas tackled the questions people had always wanted to ask about God. His book was well-received, but Metaxas soon realized there was a long list of questions that still needed to be addressed. In *Everything Else You Always Wanted to Know about God...*, the author answers the rest--and some of the very best--of the questions that surface when God is the topic of conversation. Metaxas' s welcoming tone and his skillful use of humor lower readers' defenses. He presents biblical truth in the form of engaging answers that can't help but connect, whether the reader is an inquisitive skeptic, an open-minded agnostic, or even a new believer looking to get grounded in the basics of the Christian faith. No matter who is asking the questions, this sequel delivers the goods with disarming candor and biblical authority.

'A modernist work of art is by definition 'incomprehensible'; it functions as a shock, as the irruption of a trauma which undermines the complacency of our daily routine and resists being integrated. What postmodernism does, however, is the very opposite: it objects par excellence are products with mass appeal; the aim of the postmodernist treatment is to estrange their initial homeliness: 'you think what you see is a simple melodrama your granny would have no difficulty in following? Yet without taking into account the difference between symptom and signifier/the structure of the Borromean knot/the fact that Woman is one of the Names-of-the-Father ... you've totally missed the point!' if there is an author whose name epitomises this interpretive pleasure of 'estranging' the most banal content, it is Alfred Hitchcock (and—useless to deny it—this book partakes unrestrainedly in this madness).' Hitchcock is placed on the analyst's couch in this extraordinary volume of case studies, as its contributors bring to bear an unrivalled enthusiasm and theoretical sweep on the entire Hitchcock oeuvre, from Rear Window to Psycho, as an exemplar of 'postmodern' defamiliarization. Starting from the premise that 'everything has meaning', the films' ostensible narrative content and formal procedures are analysed to reveal a rich proliferation of ideological and psychical mechanisms at work. But Hitchcock is here to lure the reader into 'serious' Marxist and Lacanian considerations on the construction of meaning. Timely, provocative and original, this is sure to become a landmark of Hitchcock studies. Contributors: Frederic Jameson, Pascal Bonitzer, Miran Bozovic, Michel Chion, Mladen Dolar, Stojan Pellko, Renata Salecl, Alenka Zupancic and Slavoj Zizek.
