 Chapter 3 Test Multiple Choice
 Identify the choice that best completes the statement or answers the question. ____
 1. Which of the following descriptions about the organization of an ecosystem is

correct? a. Species make up communities, which make up populations. b. Species are grouped in populations, which make up communities.
Chapter 3 The Biosphere Test Answer Key - fullexams.com
 A central organizing concept in biology is that life changes and develops through evolution, and that all life-forms known have a common origin. The theory of

evolution postulates that all organisms on the Earth, both living and extinct, have descended from a common ancestor or an ancestral gene pool. This universal common ancestor of all organisms is believed to have appeared about 3.5 billion ...
