### **Writers on Books Loved and Lost, Overlooked, Under-read, Unavailable, Stolen, Ex tinct, or Otherwise Out of Commission** John Wiley & Sons

Rosemary J. Mundhenk and LuAnn McCracken Fletcher have assembled a remarkable variety of Victorian nonfiction prose, both classic and lesser known. In both their commentary and selection the editors have drawn upon the insights of recent theoretical approaches to literature and culture to present a complex range of responses to Victorian issues, thus inviting modern readers to explore the many voices of the period and

reenvision the Victorian era.

### *The Book of Blam* Routledge

The Use of Man starts with an unexpected discovery. World War II is ending. Sredoje Lazukić has been fighting all through it. Now, as one of the victorious Partisans, he has come home to Novi Sad. He visits the house he grew up in. Strangers nervously show him around. He looks up the mother of Milinko, his best friend. Milinko's girlfriend, Vera, was the daughter of a Jew, a bookish businessman. Her house stands empty and open. Venturing in, Sredoje is surprised to find the diary of the German tutor that Milinko, Vera, and he all shared, Fräulein, who died on the operating table just before the war. Here, however, in a cheap notebook in Vera's old room, is a record of Fräulein's lonely days, with the sentimental caption Poésie. . . . The diary survived. Sredoje survived. Vera and Milinko have survived too. But what survives? A few years back Sredoje, Vera, and Milinko were teenagers, struggling to make sense of life. Life, they now know, can be more bitter than death. A work of stark poetry and illimitable sadness, *The Use of Man* is one of the great books of the 20th century.

### **Teaching, Knowledge Exchange & Public Engagement**

Houghton Mifflin Harcourt

Applying modern critical theory to the interpretation of Latin poetry, the author argues for a critical approach wherein the meaning of a text is necessarily involved in the process of "reception"-- as illustrated through exemplary readings of Virgil, Ovid, Horace and Lucan.

The essential guide to twentieth-century literature around the world For six decades the Penguin Modern Classics series has been an era-defining, ever-evolving series of books, encompassing works by modernist pioneers, avant-garde iconoclasts, radical visionaries and timeless storytellers. This reader's companion showcases every title published in the series so far, with more than 1,800 books and 600 authors, from Achebe and Adonis to Zamyatin and Zweig. It is the essential guide to twentieth-century literature around the world, and the companion volume to *The Penguin Classics Book*. Bursting with lively

descriptions, surprising reading lists, key literary movements and over two thousand cover images, *The Penguin Modern Classics Book* is an invitation to dive in and explore the greatest literature of the last hundred years.

*Classic Sketchbook: Cats* shows how it's done by showing museum-quality works, then coaching you to try the techniques with the help an expert's suggestions. Whether scribbling out a quick sketch with minimal detail, or making a finished portrait where every silky hair and polished whisker stands out, the best cat artists can capture the very essence of feline-ness. How do they do it? Firsthand observation of cats will tell you a lot about the way they sit, yawn, tweak their tails, and curl up to sleep, but it won't tell you how to get those things down on paper. *Classic Sketchbook: Cats* is the second in a series of instructional books that began with *Classic Sketchbook: Botanicals*. The series shows how to draw your subjects by looking at the details of museum-quality works, then coaching you through the techniques with the help an expert's suggestions. In this case the expert is Patricia Wynne, a noted illustrator with a specialty in animals. Wynne will guide you through fur, paws, and eyes, as well as cats sleeping, playing, or pouncing. Her unique instructions places a close-up of a drawing or painting by a noted artist like Gauguin, Chardin, Gwen John, and Theodore Steinlen on the left side of the page. And on the right side of the page Patricia Wynne coaches you with detailed, step-by-step drawings, that illuminate the process.

A progressive repertoire series designed to motivate students while allowing them to progress evenly and smoothly from the earliest classics toward intermediate literature. These pieces are from the standard classical literature, chosen to appeal both to teacher and student. Each volume comes with a corresponding CD. Valery Lloyd-Watts studied at the Conservatory of Music in Toronto and the Royal College of Music in London. She earned a Master of Music degree from the University of Wisconsin, where she studied with Paul Badura-Skoda. She co-authored the text

Studying Suzuki Piano: More than Music, which was endorsed by Dr. Suzuki.

Recontextualized: A Framework for Teaching English with Music is a book that can benefit any English teacher looking for creative approaches to teaching reading, writing, and critical thinking. Providing theoretically-sound, classroom-tested practices, this edited collection not only offers accessible methods for including music into your lesson plans, but also provides a framework for thinking about all classroom practice involving popular culture. The framework described in Recontextualized can be easily adapted to a variety of educational standards and consists of four separate approaches, each with a different emphasis or application. Written by experienced teachers from a variety of settings across the United States, this book illustrates the myriad ways popular music can be used, analyzed, and created by students in the English classroom. "Together, this editor/author team has produced a book that virtually vibrates with possibilities for engaging youth in ways that speak to their interests while simultaneously maintaining the rigor expected of English classes." – Donna E. Alvermann, University of Georgia

**Politics, Literature, Science and Art** Rockport Publishers  
An Anchor Books Original Seventy-four distinguished writers tell personal tales of books loved and lost—great books overlooked, under-read, out of print, stolen, scorned, extinct, or otherwise out of commission. Compiled by the editors of Brick: A Literary Magazine, *Lost Classics* is a reader's delight: an intriguing and entertaining collection of eulogies for lost books. As the editors have written in a joint introduction to the book, "being lovers of books, we've pulled a scent of these absences behind us our whole reading lives, telling people about books that exist only on our own shelves, or even just in our own memory." Anyone who has ever been changed by a book will find kindred spirits in the pages of *Lost Classics*. Each of the editors has contributed a lost book essay to this collection, including Michael Ondaatje on Sri Lankan filmmaker Tissa Abeysekara's *Bringing Tony Home*, a novella about a mutual era of childhood. Also included are Margaret Atwood on sex and death in the scandalous *Doctor Glas*, first published in Sweden in 1905; Russell Banks on the off-beat travelogue *Too Late to Turn Back* by Barbara Greene—the "slightly ditz" cousin of Graham; Bill Richardson on a children's book for

adults by Russell Hoban; Ronald Wright on William Golding's Pincher Martin; Caryl Phillips on Michael Mac Liammoir's account of his experiences on the set of Orson Welles's *Othello*, and much, much more.

*Delphi Collected Works of Confucius - Four Books and Five Classics of Confucianism (Illustrated)* Cambridge University Press  
*A People's History of Classics* explores the influence of the classical past on the lives of working-class people, whose voices have been almost completely excluded from previous histories of classical scholarship and pedagogy, in Britain and Ireland from the late 17th to the early 20th century. This volume challenges the prevailing scholarly and public assumption that the intimate link between the exclusive intellectual culture of British elites and the study of the ancient Greeks and Romans and their languages meant that working-class culture was a 'Classics-Free Zone'. Making use of diverse sources of information, both published and unpublished, in archives, museums and libraries across the United Kingdom and Ireland, Hall and Stead examine the working-class experience of classical culture from the Bill of Rights in 1689 to the outbreak of World War II. They analyse a huge volume of data, from individuals, groups, regions and activities, in a huge range of sources including memoirs, autobiographies, Trade Union collections, poetry, factory archives, artefacts and documents in regional museums. This allows a deeper understanding not only of the many examples of interaction with the Classics, but also what these cultural interactions signified to the working poor: from the promise of social advancement, to propaganda exploited by the elites, to covert and overt class war. *A People's History of Classics* offers a fascinating and insightful exploration of the many and varied engagements with Greece and Rome among the working classes in Britain and Ireland, and is a must-read not only for classicists, but also for students of British and Irish social, intellectual and political history in this period. Further, it brings new historical depth and perspectives to public debates around the future of classical education, and should be read by anyone with an interest in educational policy in Britain today.

**An Inquiry Into the Usage of Baptizo and the Nature of Johannic Baptism** Anderson Lovelace Pub

A posthumously published collection of thirty-six essays offering Italo Calvino's invigorating and illuminating analysis of his most

treasured literary classics.

*Reading the Sacred Scriptures* Ubiquity Press

Perspectives and identity are typically reinforced at a young age, giving teachers the responsibility of selecting reading material that could potentially change how the child sees the world. This is the importance of sharing diverse literature with today's children and young adults, which introduces them to texts that deal with religion, gender identities, racial identities, socioeconomic conditions, etc. Teachers and librarians play significant roles in placing diverse books in the hands of young readers. However, to achieve the goal of increasing young people's access to diverse books, educators and librarians must receive quality instruction on this topic within their university preparation programs. The *Handbook of Research on Teaching Diverse Youth Literature to Pre-Service Professionals* is a comprehensive reference source that curates promising practices that teachers and librarians are currently applying to prepare aspiring teachers and librarians for sharing and teaching diverse youth literature. Given the importance of sharing diverse books with today's young people, university educators must be aware of engaging and effective methods for teaching diverse literature to pre-service teachers and librarians. Covering topics such as syllabus development, diversity, social justice, and activity planning, this text is essential for university-level teacher educators, library educators who prepare pre-service teachers and librarians, university educators, faculty, adjunct instructors, researchers, and students.

*Practical Classics* Anchor

Edited by organisers of "Digital Classicist" seminars in London and Berlin, this volume explores the impact of computational approaches to the study of antiquity on audiences other than the scholars who conventionally publish it. In addition to colleagues in classics and digital humanities, the eleven chapters herein concern and are addressed to students, heritage professionals and "citizen scientists". Each chapter is a scholarly contribution, presenting research questions in the classics, digital humanities or, in many cases, both. They are all also examples of work within one of the most important areas of academia today: scholarly research and outputs that engage with collaborators and audiences not only including our colleagues, but also students, academics in different fields including the hard sciences, professionals and the broader public. Collaboration and scholarly

interaction, particularly with better-funded and more technically advanced disciplines, is essential to digital humanities and perhaps even more so to digital classics. The international perspectives on these issues are especially valuable in an increasingly connected, institutionally and administratively diverse world. This book addresses the broad range of issues scholars and practitioners face in engaging with students, professionals and the public, in accessible and valuable chapters from authors of many backgrounds and areas of expertise, including language and linguistics, history, archaeology and architecture. This collection will be of interest to teachers, scientists, cultural heritage professionals, linguists and enthusiasts of history and antiquity.

Western Interpretations of Greek Philosophy Forgotten Books

This landmark collection presents a wide variety of viewpoints on the value and role of reception theory within the modern discipline of classics. A pioneering collection, looking at the role reception theory plays, or could play, within the modern discipline of classics. Emphasizes theoretical aspects of reception. Written by a wide range of contributors from young scholars to established figures, from Europe, the UK and the USA. Draws on

material from many different fields, from translation studies to the visual arts, and from politics to performance. Sets the agenda for classics in the future.

*The Saturday Review of Politics, Literature, Science and Art* IGI Global

This book examines the creative and critical works of Nigerian playwright and novelist Femi Euba to demonstrate the place and function of African cultures in modernity. The author makes the case for the vibrancy of such cultures in the shaping and constitution of the modern world.

*Uses and Abuses of the Classics* Routledge

From very early on, Western philosophers have been obsessed with the understanding of a relatively few works of philosophy which have played a disproportionately large and fundamental role in developing the Western philosophical canon, dominating the curriculum in the past and in the present; there is no indication that they will not do so in the future. *Uses and Abuses of the Classics* examines the various ways in which the different periods of the history of philosophy have approached these texts. The editors have chosen for analysis some of the major philosophers from periods of the history of philosophy in which

the interpretation of the classics has been particularly significant. Contributions to this book include entries on: Aristotle's reading of Plato; Averroes on Aristotle; Nietzsche on the Beginnings of Western Philosophy; and Thomas Aquinas's Commentary on Aristotle's *Metaphysics*.

*Saturday Review* Lexington Books
