Learn vocabulary, terms, and more with flashcards, games, and other study tools. Chapter-16 Evolution of populations Flashcards | Quizlet Chapter 16 Evolution of Populations 16-1 Genes and Variation Darwin's original ideas can now be understood in genetic terms. Beginning with variation, we now know that traits are

controlled by genes and that many genes have at least two forms, or alleles. Chapter 16 Evolution of Populations Summary CHAPTER 16 EVOLUTION OF POPULATIONS A. Darwin's Ideas revisited - it was more than 50 years after Darwin started to develop his theory of evolution before biologists could determine how evolution takes place - about 1910, biologists realized that genes carry the information that determine traits CHAPTER 16 EVOLUTION OF POPULATIONS Biology Chapter 16 Evolution of Populations Vocabulary. 16 terms.
