The Essential Difference: Men, Women and the Extreme Male Brain by Simon Baron-Cohen. 'The Essential Difference' shows that, on average, male and female minds are of a slightly different character. Men tend to be better at analysing systems (better systemisers), while women tend to be better at reading the emotions of other people (better empathisers). The Essential Difference by Baron-Cohen, Simon (ebook) We all appreciate that there are differences in the typical psychology of men and women. Yet underlying these subtle differences, Simon Baron-Cohen believes, there is one essential difference, and it

affects everything we do: Men have a tendency to analyze and construct systems while women are inclined to empathize. With fresh evidence for these claims, Baron-Cohen explores how these sex ...
