From Silicon Valley leader Maynard
Webb, how we can leverage technology
to change how we work Maynard Webb

has always been the go-to guy when Silicon Valley companies have thorny problems. Whether revamping eBay's crashing servers (transforming their technology weaknesses into a competitive strength) or investing in emerging technology start-ups, Webb brings strategic and operational savvy to every issue and venture. In his first book, Webb brings this same focus to tackle outdated models of work, created a century ago, which no longer sync up with either individual or employers' needs. Through a unique framework, Webb identifies 4 different mindsets around work (the company man, CEO of your own destiny, disenchanting employee, and the aspiring entrepreneur). It organizes those who are self-motivated versus those who are

waiting to be discovered and aims to give readers the tools to become more self-actualized, happier, and ultimately more fulfilled in their careers. In identifying a paradigm shift that is already under way, Webb demonstrates clearly how to harness technology to embrace our own personal happiness, allowing people to become more productive at work and also spend more time with their families. Contains a framework that demonstrates how we can leverage technology to create better job opportunities and foster more balanced lives Written by Maynard Webb, chairman of LiveOps, former COO of e-Bay, founder of Webb Investment Network (WIN), and board member of Yahoo! and salesforce.com Includes personalized worksheets and

empowering action-oriented advice
Rebooting Work reveals how anyone can
take control of his or her own future,
finding greater fulfillment, productivity,
and happiness.

Help transform your business and
innovate like the world's top tech
companies! In INSPIRED, product
thought leader Marty Cagan revealed the
best practices and techniques used by
the top product teams operating in the
product model. Next, EMPOWERED
shared the best practices and
techniques used by the top product
leaders to provide their teams with the
kind of environment they need to thrive
in the product model. Yet, the most
common question after reading

INSPIRED and EMPOWERED has been:
"Yes, we want to work this way, but the
way we work today is so different, and
so deeply ingrained, is it even possible
for a company like ours to transform to
the product model?" TRANSFORMED was
written to bridge the gap between where
most companies are right now and
where they need to be. The leaders of
these companies know they must
transform to compete in an era of rapidly
changing enabling technology, but most
of them have never operated this way
before. TRANSFORMED has three big
goals: First, the book will educate you
with a deep understanding of the
product operating model, and what it
means to work that way. Second, the
book will convince you with detailed
case studies of successful

transformations, that while difficult, it is absolutely possible for you to transform your company to the product operating model. Third, the book will inspire you with truly impressive case studies of product innovation, showing what you too will be capable of doing once you successfully transform. TRANSFORMED is written for those driving change, including the senior company leaders—starting with the CEO—as well as the senior executives and stakeholders who need to collaborate with the product teams, the product leaders, the members of the product teams, and all those who either support or depend on these product teams. Written by best-selling author Marty Cagan and his partners at the Silicon Valley Product Group, TRANSFORMED is

filled with real-world examples and proven, practical advice from their decades of experience helping companies move to the product operating model.

The Epworth Herald Harmony Work Flows investigates the emergence of "flow" as a crucial metaphor within Russian labor culture since 1870. Maya Vinokour frames concern with fluid channeling as immanent to vertical power structures—whether that verticality derives from the state, as in Stalin's Soviet Union and present-day Russia, or from the proliferation of corporate monopolies, as in the contemporary Anglo-American West. Originating in pre-revolutionary bio-utopianism, the Russian rhetoric of liquids and flow reached an apotheosis

during Stalin's First Five-Year Plan and re-emerged in post-Soviet "managed democracy" and Western neoliberalism. The literary, philosophical, and official texts that *Work Flows* examines give voice to the Stalinist ambition of reforging not merely individual bodies, but space and time themselves. By mobilizing the understudied thematic of fluidity, Vinokour offers insight into the nexus of philosophy, literature, and science that underpinned Stalinism and remains influential today. *Work Flows* demonstrates that Stalinism is not a historical phenomenon restricted to the period 1922-1953, but a symptom of modernity as it emerged in the twentieth century. Stalinism's legacy extends far beyond the bounds of the former Soviet Union, emerging in seemingly disparate

settings like post-Soviet Russia and Silicon Valley.

How to master the power of buzz
Trendspotters and bestselling authors Marian Salzman and Ira Matathia demystify buzz and show how marketers can create and leverage it for the success of their products and services. The world we inhabit is in constant flux, and the captive audience on which advertisers relied for years no longer exists. Branding today requires a flexibility and creativity that have thus far eluded many traditional practitioners.

When there is no clear forum for communicating your brand message to the audience, you must have your audience do it for you. The authors show how and why buzz works, examining case studies like Kate Spade, Madonna, Bulgari, Ford, Nokia, and French Connection. They explore the role specific consumer groups play in setting trends, show how influence works, reveal the efficacy of shock ads, and explain how to manage brand momentum. This book is a dynamic guide that sheds new light on the topic of buzz using real-world examples and case studies that show how marketers can manufacture the seemingly authentic word-of-mouth to which today's cynical consumer responds.

[The Complete Works of C. H. Spurgeon, Volume 25](#) John Wiley & Sons Volume 25 Sermons 1451-1510 Charles Spurgeon (19 June 1834 - 31 January 1892) is one of the church's most famous preachers and Christianity's foremost prolific writers. Called the "Prince of Preachers," he was one of England's most notable ministers for most of the second half of the nineteenth century, and he still remains highly influential among Christians of

different denominations today. His sermons have spread all over the world, and his many printed works have been cherished classics for decades. In his lifetime, Spurgeon preached to more than 10 million people, often up to ten times each week. He was the pastor of the congregation of the New Park Street Chapel (later the Metropolitan Tabernacle) in London for 38 years. He was an inexhaustible author of various kinds of works including sermons, commentaries, an autobiography, as well as books on prayer, devotionals, magazines, poetry, hymns and more. Spurgeon was known to produce powerful sermons of penetrating thought and divine inspiration, and his oratory and writing skills held his audiences spellbound. Many Christians have

discovered Spurgeon's messages to be among the best in Christian literature. Edward Walford wrote in *Old and New London: Volume 6 (1878)* quoting an article from the *Times* regarding one of Spurgeon's meetings at Surrey: "Fancy a congregation consisting of 10,000 souls, streaming into the hall, mounting the galleries, humming, buzzing, and swarming—a mighty hive of bees—eager to secure at first the best places, and, at last, any place at all. After waiting more than half an hour—for if you wish to have a seat you must be there at least that space of time in advance—Mr. Spurgeon ascended his tribune. To the hum, and rush, and trampling of men, succeeded a low, concentrated thrill and murmur of devotion, which seemed to run at once, like an electric current,

through the breast of every one present, and by this magnetic chain the preacher held us fast bound for about two hours. It is not my purpose to give a summary of his discourse. It is enough to say of his voice, that its power and volume are sufficient to reach every one in that vast assembly; of his language, that it is neither high-flown nor homely; of his style, that it is at times familiar, at times declamatory, but always happy, and often eloquent; of his doctrine, that neither the 'Calvinist' nor the 'Baptist' appears in the forefront of the battle which is waged by Mr. Spurgeon with relentless animosity, and with Gospel weapons, against irreligion, cant, hypocrisy, pride, and those secret bosom-sins which so easily beset a man in daily life; and to sum up all in a word,

it is enough to say of the man himself, that he impresses you with a perfect conviction of his sincerity." More than a hundred years after his death, Charles Spurgeon's legacy continues to effectively inspire the church around the world. For this reason, Delmarva Publications has chosen to publish the complete works of Charles Spurgeon. When you show appreciation to others you improve loyalty and trust. People have a basic need to feel appreciated. People need to know you care. If you're the leader, you can raise morale and create loyalty, job satisfaction, and motivation when you express appreciation to your staff for their efforts. You can invest in your employees now and "pay" them with sincere appreciation and achieve even better performance. Or you can "pay" later by seeing your team's performance sink

and overall morale decrease. Sincere appreciation will motivate your team to a higher level and achieve more.
