Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. *Overcoming School Refusal* helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. The Nightmare Affair is the first in a gripping new urban fantasy trilogy by Mindee Arnett. Sixteen-year-old Dusty Everhart breaks into houses late at night, but not because she's a criminal. No, she's a Nightmare. Literally. Being the only Nightmare at Arkwell Academy, a boarding school for magickind, and living in the shadow of her mother's infamy, is hard enough. But when Dusty sneaks into Eli Booker's house, things get a whole lot more complicated. He's hot, which means sitting on his chest and invading his dreams couldn't get much more embarrassing. But it does. Eli is dreaming of a murder. Then Eli's dream comes true. Now Dusty has to follow the clues—both within Eli's dreams and out of them—to stop the killer before more people turn up dead. And before the killer learns what she's up to and marks her as the next target. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

This work contains the first comprehensive description of Abui, a language of the Trans New Guinea family spoken approximately by 16,000 speakers in the central part of the Alor Island in Eastern Indonesia. The description focuses on the northern dialect of Abui as spoken in the village Takalelang. This study is based on primary data collected by the author on Alor. With Pantar island, Alor Island is the western-most area where Papuan languages are spoken. Abui syntax is characterized by rigid head-final word order. The language presents a number of typologically interesting features such as semantic alignment. Characteristic for Abui is the extensive use of generic verbs. Generic verbs appear as parts of complex verbs or in serial verb constructions. This grammar covers the phonology, morphology and basic syntax of Abui. The appendix contains several Abui texts and word lists. Not being written against any particular theoretical background, this book is of interest to scholars of both Papuan and Austronesian languages, as well as linguistic typology.

This book examines how style and intersubjective meanings emerge through language use. It is innovative in theoretical scope and empirical focus. It brings together insights from discourse-functional linguistics, stylistics, and conversation analysis to understand how language resources are used to enact stances in intersubjective space. While there are numerous studies devoted to youth language, the focus has been mainly on face-to-face interaction. Other types of youth interaction, particularly in mediated forms, have received little attention. This book draws on data from four different text types - conversation, e-forums, comics, and teen fiction - to highlight the multidirectional nature of style construction. Indonesia provides a rich context for the study of style and intersubjectivity among youth. In constructing style, Indonesian urban youth have been moving away from conventions which emphasized hierarchy and uniformity toward new ways of connecting

in intersubjective space. This book analyzes how these new ways are realized in different text types. This book makes a valuable addition to sociolinguistic literature on youth and language and an essential reading for those interested in Austronesian sociolinguistics.
