In this follow-up book to the landmark *From the Mind of God to the Mind of Man*, the Text and

Translation Committee discusses the historical preservation of the Word of God. The solid facts of the process by which the Bible has come to its present form are explained in detail. The book includes textual criticism of the existing manuscripts and autographs, including the Textus Receptus, the Majority, Eclectic, and Minority texts, and the Masoretic Text. It also provides needed answers to the arguments of those who adhere to extreme or exclusive positions. This

book is excellent for pastors, teachers, and laypersons alike. It will prove that all conservative versions are, without a doubt, translations of the plenary verbally inspired Word of God.

Education: Teaching with the Musical and Practical

in Harmony, 2nd Edition is intended for college instrumental music education majors studying to be band and orchestra directors at the elementary, middle school, and high school levels. This textbook presents a research-based look at the topics vital to running a successful instrumental music program, while balancing musical, theoretical, and practical approaches. A central theme is the compelling parallel between language and music, including "sound-

to-symbol" pedagogies. Understanding this connection improves the teaching of melody, rhythm, composition, and improvisation. The companion website contains over 120 pedagogy videos for wind, string, and percussion instruments, performed by professional players and teachers, over 50 rehearsal videos, rhythm flashcards, and two additional chapters, "The Rehearsal Toolkit," and "Job Search and Interview." It also includes over 50 tracks of

acoustically pure drones and demonstration exercises for use in rehearsals, sectionals and lessons. New to this edition:

- Alternative, non-traditional ensembles: How to offer culturally relevant opportunities for more students, including mariachi, African drumming, and steel pans.
- More learning and assessment strategies
- The science of learning and practicing: How the brain acquires information
- The philosophies of Orff and El Sistema, along with
