Modern Teacher: Essential Skills and Methods

Modern Teaching Of Educational Psychology Educational psychology is the branch of psychology concerned with the scientific study of human learning. The study

of learning processes, from both cognitive and behavioral perspectives, allows researchers to understand individual differences in intelligence, cognitive development, affect, motivation, self-regulation, and self-concept, as well as their role in learning. Educational psychology - Wikipedia History of

Educational Psychology . Educational psychology is a relatively young subfield that has experienced a tremendous amount of growth in recent years. Psychology did not emerge as a separate science until the late 1800s, so earlier interest in educational psychology was largely fueled by educational philosophers. Educational
