Readers will learn that Lamborghinis are some of the sportiest luxury vehicles on the market. They combine innovative design with high-end performance to become one of the most sought-after vehicles money can buy. Readers will be introduced to Ferruccio Lamborghini, who began his automobile company, Automobili Ferruccio Lamborghini, as a powerful and very wealthy man. His goal was to build a sports car capable of competing with Ferrari. In 1963, he purchased a large plot of land just outside of Bologna, Italy, on which he built a large,

ultramodern factory. The first model, the 350 GTV, debuted at the Turin Auto Show in November 1963 and it was very well received.

For 40 years, Lamborghini has been one of the world's most flamboyant and exotic car marques. Written by a long-term Lamborghini insider, the book tells, for the first time, the real story of the men who kept the Italian company alive, making cars bought by wealthy business executives, show business celebrities, and sports stars. Custodians of Lamborghini have included Chrysler and businessmen in Switzerland and Asia. Now Lamborghini sits alongside Bugatti at Audi, part of the Volkswagen Group. Previous Lamborghini books have been little more than collections of pictures of the cars and technical descriptions, but this one describes the character of the men whose passion for Lamborghini kept the company alive. The book is published in 2004 as the all-new Lamborghini Gallardo goes on sale, 41 years after the original 350GTV burst onto the scene at the Turin auto show. Mercedes-Benz W123 Rick Steves

From iconic vehicles such as the Lamborghini Miura to the Maserati Quattroporte IV, the unassuming Audi 50/VW Polo to the remarkable Cizeta V16T, Gandini has crafted some of the most pivotal machines in automotive history. With hundreds of never-before-seen images and drawings, this book encapsulates Gandini's most significant cars alongside some of his lesser-known gems and presents them to readers in an engaging, accessible format.

With a raucous 769-hp V-12 engine and an exotic exterior, the 2022 Lamborghini Aventador is the definition of a hyper car. While competitors such as the Ferrari SF90 embrace an electrified future, the Lambo's 12-cylinder mill swills fuel like a frat bro chugs beer. Its scissor doors, wide and low proportions, and heavily vented bodywork double as a theater on wheels that's perpetually playing the Fast and Furious movies. Inside, its highly customizable cabin has room for two riders, but there's very little space to store loose items. Behind the wheel, the driver can activate the Aventador's shrieking soundtrack with a stab of their right foot or experience the massive machine's surprising agility by twirling the tiller. While its obsolete

automatic transmission is almost as frustrating as the roadster's cumbersome roof removal, those are but a small penance for the 2022 Aventador's otherwise awesome powers and unmistakable style. For more knowledge about this car check out Lamborghini Aventador SVJ book today!
