Harper Collins  
 Many today find the Old Testament a closed book. The cultural issues seem insurmountable and we are easily baffled by that which seems obscure. Furthermore, without knowledge of the ancient culture we can easily impose our own culture on the text, potentially distorting it. This series invites you to enter the Old Testament with a company of guides, experts that will give new insights into these cherished writings. Features include • Over 2000 photographs,

drawings, maps, diagrams and charts provide a visual feast that breathes fresh life into the text. • Passage-by-passage commentary presents archaeological findings, historical explanations, geographic insights, notes on manners and customs, and more. • Analysis into the literature of the ancient Near East will open your eyes to new depths of understanding both familiar and unfamiliar passages. • Written by an international team of 30 specialists, all top scholars in background studies. Chronicles of Aurderia Simon and Schuster Explains the links between the Bible and ancient Sumerian texts, probing the age-old question of the relationship between humanity and its creators. • Challenges scientific maxims of the basis of human life. • Draws fascinating parallels

between the leaders of the Anunnaki (from the 12th planet) and Yahweh. • A comprehensive new look at the history of man. • First time available in hardcover. In *Divine Encounters* Zecharia Sitchin draws on basic Judeo-Christian texts to analyze the creation myths, paralleling Biblical stories to the myths of Sumer and Mesopotamia in order to show that humanity did not evolve without assistance. Sitchin daringly hypothesizes instead that Enki, one of the leaders of the Anunnaki from the 12th planet, created humanity as a "primitive worker." Furthermore, Sitchin suggests that the extraterrestrial encounters of today demonstrate the continued interest of the Anunnaki in the Earthlings they created. *The Stairway to Heaven (Book II)* Bear Hardcover collector's editions of all 7 volumes

of the Earth Chronicles Series in a display slipcase • Includes The 12th Planet, The Stairway to Heaven, The Wars of Gods and Men, The Lost Realms, When Time Began, The Cosmic Code, and The End of Days • The culmination of Sitchin's 30 years of intensive research offering indisputable documentary proof of humanity's extraterrestrial forefathers The Earth Chronicles series, with millions of copies sold worldwide, represents the culmination of Zecharia Sitchin's 30 years of intensive research into the history and prehistory of Earth and humankind as recorded by the ancient civilizations of the Near East. Within these volumes, Sitchin--one of the few scholars able to read and interpret ancient Sumerian and Akkadian clay tablets--presents indisputable millennia-old proof of humanity's extraterrestrial forefathers, the Anunnaki, who visited Earth every 3,600 years from their home planet Nibiru. This boxed set of hardcover collector's editions with enhanced maps and diagrams includes all 7 volumes of the Earth Chronicles series: The

12th Planet, The Stairway to Heaven, The Wars of Gods and Men, The Lost Realms, When Time Began, The Cosmic Code, and The End of Days. The Balance BRILL This volume presents for the first time both the authoritative Sumerian text and an elegant English translation of four Sumerian epics, the earliest known in any language. The introduction discusses the intellectual and cultural context as well as the poetics and meaning of this epic cycle. **The Sumerians** Tasicas-Young Fantasy Press "Zeus and his son Apollo are reigning in the New World Order! dutifully recorded the passage of time on clay tablets, watching the heavens from stage towers and pyramids and from megalithic monuments whose incredible size and precise architecture boggle the mind. . . . Who were the builders of these mysterious structures? What was their purpose? Whose signature is indelibly written on these timeless stones, and who was the Divine Architect? Why was Stonehenge and its likes built by ancient civilizations at the very same time--4,100 years ago? What is their message for our time? With these questions in mind, Zecharia Sitchin, renowned researcher of past ages, takes us on a journey through the records of time in this, the fifth book of his Earth Chronicles series. Drawing deeply on Sumerian and Egyptian writings, millennia-old artifacts, and sacred architecture ranging from ancient Mesopotamia to pre-Columbian civilizations in the Americas, this bestselling scholar provides astounding insights into the origins of the calendar, astronomy, and astrology. He takes readers to the climax circa 2100 b.c. when

Marduk, the Babylonian national god, attained supremacy on Earth and proclaimed the New Age of Aries--after which society, religion, science, and the status of women were never the same.

Will the past become our future? Is humankind destined to repeat the events that occurred on another planet, far away from Earth? Zecharia Sitchin's bestselling series *The Earth Chronicles* provided humanity's side of the story--as recorded on ancient clay tablets and other Sumerian artifacts--concerning our origins at the hands of the Anunnaki, "those who from heaven to earth came." In *The Lost Book of Enki*, we can view this saga from a different perspective through this richly conceived autobiographical account of Lord Enki, an Anunnaki god, who tells the story of these extraterrestrials' arrival on Earth from the 12th planet Nibiru. The object of their colonization: gold to replenish the dying atmosphere of their home planet. Finding this precious metal results in the Anunnaki creation of homo sapiens--the human race--to mine this

important resource. In his previous works, Sitchin compiled the complete story of the Anunnaki's impact on human civilization in peacetime and in war from the fragments scattered throughout Sumerian, Akkadian, Babylonian, Assyrian, Hittite, Egyptian, Canaanite, and Hebrew sources--the "myths" of all ancient peoples in the old world as well as the new. Missing from these accounts, however, was the perspective of the Anunnaki themselves. What was life like on their own planet? What motives propelled them to settle on Earth--and what drove them from their new home? Convinced of the existence of a now lost book that formed the basis of ancient Sumerian texts holding the answers to these questions, the author began his search for evidence. Through exhaustive research of primary sources, he has here re-created tales as the memoirs of Enki, the leader of these first "astronauts." What takes shape is the story of a world of mounting tensions, deep rivalries, and sophisticated scientific knowledge that is only today being confirmed. An epic tale of gods and men unfolds,

challenging every assumption we hold about our creation, our past, and our future.

Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it, and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, *The 12th Planet* is the first book in Zecharia Sitchin's prophetic *Earth Chronicles* series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man. *The 12th Planet* brings to life the Sumerian civilization, presenting millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki, and of the landings of the Anunnaki on Earth every 3,600 years, and reveals a complete history of the solar system as told by these early visitors from

another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide, deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams.

An insider's look into the decades of research behind Zecharia Sitchin's books as well as an in-depth overview of his theories and discoveries • Includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures • Each piece includes an introduction, offering context and insight into Sitchin's passionate work and revealing the man behind the theories • Explains the genesis of The 12th Planet, the Anunnaki influences on the Sumerian civilization, the orbit of Nibiru, the prehistory of the Americas, the extraterrestrial origins of modern man, and much

more What if the tales from the Old Testament and other ancient writings, such as those from Sumer, Babylon, Egypt, and Greece, were not myths or allegory but accounts of actual historical events? Known for his ability to read and interpret ancient Sumerian and Akkadian clay tablets, Zecharia Sitchin (1920-2010) took the words of our most ancient ancestors as fact and, through decades of meticulous research, showed that they revealed a coherent narrative about the true origins of humanity and civilization. Drawing both widespread interest and criticism, his Earth Chronicles series of books, beginning with *The 12th Planet*, detailed how humanity arose after the arrival of the Anunnaki ("those who from Heaven to Earth came"), alien "gods" who created modern man in their own image and imparted gifts of civilizing knowledge. Providing an insider's look into the decades of research behind Zecharia Sitchin's complete works as well as an in-depth overview of his theories, this collection includes carefully selected chapters from the Earth Chronicles series as well

as never-before-published letters, articles, and lectures. We learn about the genesis of The 12th Planet in "The Book as a Story," the Sumerians and their Anunnaki influences in "The Sudden Civilization," the orbit of Nibiru in "UFOs, Pyramids, and the 12th Planet," the prehistory of the Americas in "Cities Lost and Found," the extraterrestrial origins of modern man in "The Cosmic Connection--DNA," and much more. We get to read never-before-published lectures, culled from Sitchin's decades of presentations, as well as the article that spurred the writing of *There Were Giants Upon the Earth*. Each piece includes an introduction by Sitchin's niece, offering context and insight into Sitchin's passionate work. These introductions reveal the man behind the theories, a world traveler known for his scholarship, dry humor, and precisely chosen words. If his theories are true, as Sitchin wholeheartedly believed, then this collection presents some of the most important knowledge we have of our origins and future.  
Mesopotamian Chronicles  
The Anunnaki Chronicles  
A Zecharia Sitchin Reader

The Earth Chronicles series is based on the premise that mythology is not fanciful but the repository of ancient memories; that the Bible ought to be read literally as a historic/scientific document; and that ancient civilizations--older and greater than assumed--were the product of knowledge brought to Earth by the Anunnaki, "Those Who from Heaven to Earth Came." The 12th Planet, the first book of the series, presents ancient evidence for the existence of an additional planet in the Solar System: the home planet of the Anunnaki. In confirmation of this evidence, recent data from unmanned spacecraft has led astronomers to actively search for what is being called "Planet X." The subsequent volume, *The Stairway to Heaven*, traces man's unending search for immortality to a spaceport in the Sinai Peninsula and to the Giza pyramids, which had served as landing beacons for it--refuting the notion that these pyramids were built by human pharaohs. Recently, records by an eye witness to a forgery of an inscription by the pharaoh Khufu inside the Great Pyramid

corroborated the book's conclusions. *The Wars of Gods and Men*, recounting events closer to our times, concludes that the Sinai spaceport was destroyed 4,000 years ago with nuclear weapons. Photographs of Earth from space clearly show evidence of such an explosion. Such gratifying corroboration of audacious conclusions has been even swifter for *The Lost Realms*. In the relatively short interval between the completion of the manuscript and its publication, archaeologists, linguists, and other scientists have offered a "coastal theory" in lieu of the "frozen trekking" one to account for man's arrival in the Americas--in ships, as this volume has concluded. These experts have "suddenly discovered 2,000 years of missing civilization" in the words of a Yale University scholar--confirming this book's conclusion--and are now linking the beginnings of such civilizations to those of the Old World, as Sumerian texts and biblical verses. For the first time, the entire Earth Chronicles series is now available in a hardcover collector's edition.

#### **Portrait of a Dead**

**Civilization** Andrews UK Limited

Since earliest times, human beings have pondered the incomprehensible questions of the universe, life . . . and the afterlife. Where did mortal man go to join the immortal Gods? Was the immense and complex structure at Giza an Egyptian Pharaoh's portal to immortality? Or a pulsating beacon built by extraterrestrials for landing on Earth? In this second volume of his trailblazing series *The Earth Chronicles*, Zecharia Sitchin unveils secrets of the pyramids and hidden clues from ancient times to reveal a grand forgery on which established Egyptology is founded, and takes the reader to the Spaceport and Landing Place of the Anunnaki gods—"Those Who from Heaven to Earth Came."

This book demonstrates Girsu is a primary locale for re-analyzing, through an interdisciplinary approach combining archaeological and textual evidence, the origins of the Sumerian city-state.

**When Time Began** Bear Reveals Zecharia Sitchin's groundbreaking research into the code left behind by the creators of humanity. • Explains how the Anunnaki were not merely the mythical gods of the Sumerians, but rather the founders of human life on Earth. • Using Biblical and ancient Sumerian sources, explains how to decode these messages our star ancestors left behind. Daring to challenge our long-held beliefs about the origins of man, Zecharia Sitchin suggests that humans are not the children of God, but rather the children of the Anunnaki, an ancient race from the planet Nibiru. His

revolutionary theories are supported by his intense scrutiny of not only ancient Sumerian texts but also stone structures all over the world. The similarities and astrological significance of these formations suggests that rather than looking for guidance from leaders here on Earth, humanity should instead look to the sky for answers. The Earth Chronicles deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. For the first time, the entire Earth Chronicles series is now available in a hardcover collector's edition.

*Journeys to the Mythical Past*  
Bear

The crowning work of the best-selling Earth Chronicles series • Reveals the existence of physical evidence of alien presence on Earth in the distant past • Identifies and describes the demigods, such as Gilgamesh, descended from these visitors • Outlines the tests of this physical evidence of alien presence that could unlock the secrets of health, longevity, life, and death In whose genetic image were we made?

From his first book *The 12th Planet* on, Zecharia Sitchin has asserted that the Bible's Elohim who said "Let us fashion The Adam in our image and after our likeness" were the gods of Sumer and Babylon--the Anunnaki who had come to Earth from their planet Nibiru. The Adam, he wrote, was genetically engineered by adding Anunnaki genes to those of an existing hominid, some 300,000 years ago. Then, according to the Bible, intermarriage took place: "There were giants upon the Earth" who took Adam's female offspring as wives, giving birth to "heroes of renown." With meticulous detail, Sitchin shows that these were the demigods of Sumerian and Babylonian lore, such as the famed Mesopotamian king Gilgamesh as well as the hero of the Deluge, the Babylonian Utnapishtim. Are we then, all of us, descendants of demigods? In this crowning oeuvre, Zecharia Sitchin proceeds step-by-step through a mass of ancient writings and artifacts, leading the reader to the stunning Royal Tombs of Ur. He reveals a DNA source that could prove the biblical and Sumerian tales true,

providing conclusive physical evidence for past alien presence on Earth and an unprecedented scientific opportunity to track down the "Missing Link" in humankind's evolution, unlocking the secrets of longevity and even the ultimate mystery of life and death.

### **The Lost Book of Enki**

Bear

The paperback release of the second volume of Sitchin's autobiographical account of the investigations and discoveries that led to The Earth Chronicles series • Zecharia Sitchin tells how his life was at risk inside the Great Pyramid and reveals the existence of a secret chamber • Reports on Vatican encounters, the Iceman of the Alps, the Antikythera computer, the temples and Ruts of Malta--and offers a solution to the enigma of the Nazca lines In Journeys to the Mythical Past the renowned researcher of antiquity Zecharia Sitchin reveals, for the first time, the existence of a secret chamber in Egypt's Great Pyramid, and he tells his own story of an indefatigable dedication to finding the truth that almost cost him his life--accidentally or otherwise--when uncovering secrets

of the Giza pyramids and Sphinx. Exposing hidden artifacts that contradict establishment assumptions or that baffle scientists, Sitchin's firsthand accounts of his explorations take the reader into the inner workings of the Vatican, the enigma of a futuristic computer from millennia ago, and the secret handiwork of a Divine Architect at Stonehenge, at Malta, and at a site in the Americas. Looking deep into antiquity, Sitchin offers astounding evidence that links the Nazca lines and a baffling adjoining site to the Departure from Earth of the Anunnaki, the ancient gods who, he believes, vowed to Return.

Samuel Noah Kramer is the leading authority on the interpretation and reading of civilization's oldest literature. His life and life's work are so thoroughly intertwined that his autobiography is also the story of the recovery of the language and literature of the Sumerians. From young Talmudist to the patriarch of Sumerology, Kramer recounts his long and distinguished career. Writing for the non-

specialist, he paints a panoramic view of Sumerian literature and provides thumbnail sketches of the individuals with whom he collaborated.

The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. "There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time

in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For

the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation."—American
