Chop-Monster is a sequential jazz improvisation method by acclaimed jazz pianist and educator Shelly Berg that utilizes a "call-and-response" approach: students listen to a jazz idea, imitate it until it is internalized, and then "try it on their own." In Chop-Monster 1, students will hear and improvise to the Ima7, iimi7, and V7 chords in the key of B-flat, plus a basic blues progression. In Chop-Monster 2 students will hear and improvise to the ii-V-I progression in three keys (concert B-flat, E-flat, F).

The Portraits series fills one of the longtime gaps in student-level piano repertoire by presenting colorful, fun-to-play pieces in jazz, blues, rock and other popular styles. Portraits invites you on a guided tour through the music of various artists in these styles, exploring what gives each artist his or her own special sound, while the progressively arranged original pieces allow you to try out these styles on your own. Each piece is accompanied by a biography and photo of the artist who inspired it, listening suggestions and specially tailored preparatory exercises. While the Portraits books are recommended for students age 12 and older, younger musicians will certainly enjoy playing the pieces under the guidance of a teacher. A CD that demonstrates all the examples and allows you to play along (with solo keyboard or full band) is also available. The Portraits series is designed to complement all popular piano methods, including adult methods.
