BRADFORD BRYLEE

A Play on Words Cherrytree Books
 This book is a sociolinguistic study of children's talk and how they interact with one another and their teachers in multilingual, multicultural and multiethnic schools. It is based on tape recordings and ethnographic observations of majority Greek and minority Turkish-speaking children at an Athens primary school. It offers the reader a unique look into the ways in which children draw upon their rich interactional histories and share, transform and recontextualize linguistic and other semiotic resources in circulation to construct play frames and explore, adopt, resist available as well as novel social roles and identities. Drawing on ethnographically informed approaches to discourse, the book shows the ways in which verbal phenomena such as teasing, joking, language play, music making and chanting can provide a productive locus for the study of the negotiation of social identities and roles at school. This book will be of interest to scholars, researchers and students of sociolinguistics, discourse analysis, cultural studies, and multicultural education. It will also be of interest to anthropologists and sociologists.

If you gulped through reading or streaming *13 Reasons Why*, *Tease* is the book for you. Provocative, unforgettable, and inspired by real-life incidents, Amanda Maciel's highly acclaimed debut novel *Tease* is the story of a teenage girl who faces criminal charges for bullying after a classmate commits suicide. With

its powerful narrative, unconventional point of view, and strong anti-bullying theme, this coming-of-age story offers smart, insightful, and nuanced views on high school society, toxic friendships, and family relationships. Emma Putnam is dead, and it's all Sara Wharton's fault. At least, that's what everyone seems to think. Sara, along with her best friend and three other classmates, has been criminally charged for the bullying and harassment that led to Emma's shocking suicide. Now Sara is the one who's ostracized, already guilty according to her peers, the community, and the media. In the summer before her senior year, in between meetings with lawyers and a court-recommended therapist, Sara is forced to reflect on the events that brought her to this moment—and ultimately consider her own role in an undeniable tragedy. And she'll have to find a way to move forward, even when it feels like her own life is over.

Men view love as a game. One you can walk away from. At least that's what the men in my life have taught me. My dad ran off when I was young, and just when I thought I was getting my own happily ever after, my ex left me on my own with two kids. Trying to pick up the pieces, I move to a small town where I can have help from my children's grandparents. I think I know what to expect from small-town life. Until I meet my new neighbor. Knox Madigan. Local hero. Great smile. So hot I'm sure I'd be burned if I got too close. Literally. He and my kids are in a major prank war. From whoopie cushions in my bed to snapping fireworks under my front door mat, I've witnessed it all. But I can't hold it against him because my kids are smiling more than I've seen since their dad left. Every meddling person in this town thinks we'd be the perfect match, but I know better. History's shown men view love as a game, and he's an expert. But I can't afford to play with my heart again. Especially since it's not just my heart on the line.

This collection offers empirical studies and theoretical essays about human communication in everyday life. The writings come from many of the world's leading researchers and cut across academic boundaries, engaging scholars and teachers from such disciplines as communication, sociology, anthropology, linguistics, and education. Chapters emphasize empirical, qualitative studies of people's everyday uses of talk-in-interaction, and they feature work in such areas as sociolinguistics, conversation analysis, discourse

analysis, and ethnography. The volume is dedicated to and highlights themes in the work of the late Robert Hopper, an outstanding scholar in communication who pioneered research in Language and Social Interaction (LSI). The contributors examine various features of human interaction (such as laughter, vocal repetition, and hand gestures) occurring naturally within a variety of settings (at a dinner table, a doctor's office, an automotive repair shop, and so forth), whereby interlocutors accomplish aspects of their interpersonal or institutional lives (resolve a disagreement, report bad medical news, negotiate a raise, and more), all of which may relate to larger social issues (including police brutality, human spirituality, death, and optimism). The chapters in this anthology show that social life is largely a communicative accomplishment and that people constitute the social realities experienced every day through small and subtle ways of communicating, carefully orchestrated but commonly taken for granted. In showcasing the diversity of contemporary LSI research, this volume is appropriate for scholars and graduate students in language and social interaction, communication, sociology, research methods, qualitative research methods, discourse analysis, conversation analysis, linguistics, and related areas.

A philosophical inquiry into the essence of comedy. Traditional philosophy places a singular emphasis on tragedy, acting under the assumption that tragedy is more profound than comedy. Gelven argues that comedy deserves equal if not greater attention from philosophy. Through the interpretative readings and concrete analysis of three classical

works, Gelven shows that comedy provides an access to truth unavailable by any other means. Silvius in Shakespeare's *As You Like It*, Cherubino in Mozart's *The Marriage of Figaro*, and Lord Goring in Wilde's *An Ideal Husband* are examined in terms of why and how they are comic, along with how and why they are seen both as fools and yet as graced. Gelven finds that in revealing the spirit of graced folly, comedy teaches us about our own essence, the fundamental nature of our finitude. This will undoubtedly be of considerable importance not only to philosophical aestheticians or literary critics, but also for those seeking to understand the nature of truth itself. Michael Gelven is Distinguished Research Professor of Philosophy at Northern Illinois University, and has authored many books, including *The Risk of Being: What It Means to be Good and Bad*.

Constructing and Reconstructing Gender is an excellent compendium of current research, and will be appealing and useful to those interested in gender issues in a wide variety of disciplines. This book cuts across disciplines and scholarly methods, drawing from many backgrounds, including Communication, Linguistics, English, Business, Law, and Psychology. The interweaving of rhetorical, critical, phenomenological, and statistical methods gives readers a multifaceted analysis of gender. At the same time that this book shows the value of gender research in provoking new currents of thought, it also brings into focus two aspects of gender that are often confused: how gender operates as a cultural category that affects communication behavior, and how communication and language function to

create gender categories.

This book is essential reading for any clinician or researcher working with teens with autism spectrum disorders. This parent-assisted intervention for teens is based on a comprehensive, evidence-based, 14-week program at UCLA's Semel Institute for Neuroscience and Human Behavior, the manualization of the popular UCLA PEERS Program, and the success of the Children's Friendship Training (Routledge, 2002) manual for children. After reviewing techniques designed to help parents and therapists tailor the manual to the needs of the teens with whom they are working, the text moves on to the individual treatment sessions and strategies for tackling issues such as developing conversational skills, choosing friends, using humor, get-togethers, teasing, bullying, gossiping, and handling disagreements. Each session chapter includes handouts, homework assignments, descriptions of what to expect (and how to handle challenges in delivering the intervention), and customized tips for both parents and therapists.
