### BRAYDON CAMILA

**Gerontological Nursing Competencies for Care** Lippincott Williams & Wilkins

Renowned for its holistic perspective and step-by-step approach, this pocket-size text takes you through every stage of the nursing assessment for adults and special populations. The book's "see" and "do" guidance provides all that you need to perform a range of common assessment procedures with confidence.

**Gerontological Nursing** Elsevier Health Sciences

Covering both disorders and wellness, Gerontologic Nursing provides the essential information you need to provide the best nursing care to older adults. A body-system organization makes information easy to find, and discussions include health promotion, psychologic and sociocultural issues, and the common medical-surgical problems associated with aging adults. Written by expert educator and clinician Sue Meiner, EdD, RN, CS, GNP, this book also emphasizes topics such as nutrition, chronic illness, emergency treatment, patient teaching, home care, and end-of-life care. Comprehensive assessment guidelines identify findings that are normal, deviate from normal, and abnormal. A separate Health Promotion chapter and specialty boxes provide information related to promoting healthy lifestyles and preventing disease. Detailed coverage of pain, infection, cancer, chronic illness, loss, death and dying, and substance abuse explains the complex aspects of aging and related care. Cultural Influences chapter and

Cultural Awareness boxes focus on clients' specific customs and how they affect your nursing care. Client/Family Teaching boxes help you communicate effectively on self-care. Home Care Tips boxes promote practical, effective care for the homebound older client. Emergency Treatment boxes highlight critical care in emergency situations. Nutrition boxes discuss the special nutritional needs and concerns of an aging population. Key points help you remember what you've read, and critical thinking activities help expand learned concepts. Up-to-date content includes the latest on hip and knee replacement, Lyme disease, lactose intolerance, upper respiratory infections, current arthritis therapies and treatments, and expanded information on abuse of older adults. Unique! Nursing Care Plans link NANDA-I nursing diagnoses, NIC priority interventions for specific conditions, and NOC suggested outcomes for guidance in providing appropriate care. Unique! Evidence-Based Practice boxes help you apply the research leading to better outcomes of nursing care. Unique! Nursing Process boxes provide quick and easy access to care information.

Measurement of Nursing Outcomes, 2nd Edition Elsevier Health Sciences

Part of the popular LPN Threads series, Introduction to Maternity & Pediatric Nursing provides a solid foundation in obstetrics and pediatric nursing. An easy-to-follow organization by developmental stages, discussion of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, this edition reflects the current NCLEX® test plan with additional material on safety, health promotion, nutrition, and related psychosocial care. Cultural Considerations boxes and a Cultural Assessment Data Collection Tool help in developing individualized plans of care. Updated health promotion content includes Health Promotion boxes focusing on preventive strategies for achieving prenatal wellness, health during pregnancy,

postnatal health, and pediatric illness prevention and wellness -- including the complete immunization schedules for all ages. Nursing Tips provide information applying to the clinical setting. Objectives are listed in each chapter opener. Key terms include phonetic pronunciations and text page references at the beginning of each chapter. Nursing Care Plans with critical thinking questions help you understand how a care plan is developed, how to evaluate care of a patient, and how to apply critical thinking skills. A companion Evolve website includes animations, videos, answers to review questions and answer guidelines for critical thinking questions, an English/Spanish audio glossary, critical thinking case studies, and additional review questions for the NCLEX examination. Get Ready for the NCLEX® Examination! sections at the end of each chapter help you prepare for classroom tests and the NCLEX examination. Increased focus on safety helps you prepare for safe nursing practice, with: Safety Alert! boxes based on The Joint Commission's 2009/2010 National Patient Safety Goals Medication Safety Alert! boxes highlighting serious and potentially fatal medication errors in infants and children New information on determining pediatric dosages and a discussion of the Pedislide system New skills include step-by-step instructions for: Bathing the Newborn Assessing the Length and Height of Infants and Children Calculating BMI Removal of a Peripheral Intravenous Catheter Using the Peak Flowmeter Using a Metered-Dose Inhaler Updated, vibrant full-color design highlights key information and enhances your understanding of important concepts. Updated nutrition content compares commercially available infant formulas and discusses organic, natural, and dietetic foods. Nutrition Considerations boxes cover prenatal care, nutritional issues during infancy, and the crisis in childhood obesity. Memory Jogger boxes help you remember important material with mnemonics, tips, and tricks. An updated glossary is available in the textbook, as well as on the companion Evolve website.
