Bloomsbury  
Publishing  
USA  
The first  
reference to  
literary and  
cultural  
representation  
s of war in  
20th-century  
English & US  
literature and  
film. Covering  
the two World  
Wars, the  
Spanish Civil  
War, the Cold  
War, the  
Vietnam War,  
the Troubles  
in Northern  
Ireland and  
the War on  
Terror, this  
Companion

reveals the  
influence of  
modern wars  
on the  
imagination. These newly  
researched  
and innovative  
essays  
connect 'high'  
literary  
studies to the  
engagement  
of film and  
theatre with  
warfare,  
extensively  
covers the  
literary and  
cultural  
evaluation of  
the  
technologies  
of war and  
open the  
literary field to  
genre  
fiction. Divided  
into 5  
sections: 20th-  
Century Wars  
and Their

Literatures;  
Bodies,  
Behaviours,  
Cultures; The  
Cultural  
Impact of the  
Technologies  
of Modern  
War; The  
Spaces of  
Modern War &  
Genres of War  
Culture. Key  
Features: \*  
All-new  
original essays  
commissioned  
from major  
critics and  
cultural  
historians.\*  
Reflects the  
way war  
studies are  
currently  
being taught  
and  
researched: in  
the volume's  
approach,  
structure and  
breadth of

coverage.\* For scholars: core arguments and detailed research topics.\* For students: Historically grounded topic- and genre-based essays, useful for studying the modern period and war modules.

Oxford University Press  
"Great Catherine (Whom Glory Still Adores)" by Bernard Shaw.  
Published by Good Press.  
Good Press publishes a wide range of titles that

encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and

accessible to everyone in a high-quality digital format.  
*Why Comparative Literature Matters*  
Universitat de València  
Pygmalion is a play by George Bernard Shaw, named after a Greek mythological figure. It was first presented on stage to the public in 1913.  
[Communicating with Learners in the Lifelong Learning Sector](#)  
Springer  
The Promise and Premise of Creativity

considers literature in the larger context of globalization and "the clash of cultures." Refuting the view that the study of literature is "useless," Eoyang argues that it expands three distinct intellectual skills: creative imagination, vicarious sympathy, and capacious intuition. With the advent of the personal computer and the blurring of cultural and economic boundaries, it is the ability to imagine, to

intuit, and to invent that will mark the educated student, and allow her to survive the rapid pace of change. As never before, the ability to empathize with other peoples, to understand cultures very different from one's own, is vital to success in a globalized world. In this, the very "uselessness" of literature may inure the mind to think creatively. Engaging with both the theory and practice of

literature, its past and its potential future, Eoyang claims that our sense of the world at large, of the salient similarities and differences between cultures, would be critically diminished without comparative literature. Shakespeare Survey: Volume 56, Shakespeare and Comedy Edinburgh University Press  
The theme of this collection is a discussion of the notions

of 'norms' and 'standards', which are studied from various different angles, but always in relation to the English language. These terms are to be understood in a very wide sense, allowing discussions of topics such as the norms we orient to in social interaction, the benchmark employed in teaching, or the development of English dialects and varieties over

time and space and their relation to the standard language. The collection is organized into three parts, each of which covers an important research field for the study of norms and standards. Part 1 is entitled "English over time and space" and is further divided into three thematic subgroups: standard and non-standard features in English varieties and dialects; research on

English standardization processes; and issues of standards and norms in oral production. Part 2 deals with "English usage in non-native contexts," and Part 3 is dedicated to "Issues on politeness and impoliteness." The notions of standards and norms are equally important concepts for historical linguists, sociolinguists with a variationist background, applied linguists, pragmatics

, and discourse analysts. **Language Acquisition in G.B. Shaw's Play "Pygmalion"** Knopf  
The choice of a pronunciation model for the 21st century learner has become a major issue of debate among applied linguists concerned with teaching English. The standard pronunciation models - Received Pronunciation and General American - have recently been

confronted with a new proposal of a Lingua Franca Core (LFC) or English as a Lingua Franca (ELF), put forward as a didactic priority in teaching English pronunciation to foreigners. This volume, which includes selected contributions from the Poznań Linguistic Meetings of 2003 and 2004, does not intend to present yet another model, but sets out to place the teaching and

learning of English pronunciation in the context of the 21st century. As the needs of English users are clearly changing fast in the globalizing world, the question is to what extent, if at all, models of pronunciation have been able to keep up with them, and whether they in fact should do so. Thus, key issues in the integration of pronunciation into English as L2 curricula are explored. **Third series**

<p>Influence Publishers The teaching of the phonetics and the phonology of British English to undergraduat e students is often based on a bare, uncritical presentation of facts as they are usually portrayed in classic publications such as Gimson- Cruttenden, Collins &amp; Mees, Roach, Car, etc. While they present a welcome canonical view of language, there is a danger that</p>	<p>students will end up holding a quasi- dogmatic opinion of the phonology of English, with little awareness of other views and approaches. In an attempt to overcome this limitation, the contributors to this volume have tried to combine theory and praxis in tackling different aspects of the phonology of English. The result is this book of readings which will hopefully</p>	<p>provide students with reliable and up-to-date information on key issues both at segmental and supra- segmental level. <u>Writing for Broadcast Journalists</u> Cambridge Scholars Publishing This carefully edited collection has been designed and formatted to the highest digital standards and adjusted for readability on all devices. This accessible book helps readers to understand the theories and principles that underpin effective communication and apply this theory to improve their communication with learners, colleagues and others in professional life. It examines the environment
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

of educational settings and looks at how individuals communicate with the sector. It gives detailed advice on communication skills and promoting a supporting learning environment. It goes on to include notes on communicating for specific teaching situations, inclusion and working with colleagues. Finally, it covers resources for communication and their adaptation for

different situations. **American Language** e-artnow This book explores the encounters between “East” and “West”, studying how “they get along”. These exchanges involve deliberate exoticizations and incommensurabilities, as well as creative fusions, such as Matteo Ricci, a Jesuit monk in the late 16th-early 17th centuries who learned Chinese in Beijing well

enough to compose works in Chinese, and Octavio Paz, the Mexican Nobel Laureate, who admired Chinese civilization. The book also considers the effect of the West on Asian countries, the cases of Japan and Turkey, who tried to “modernize” by becoming more “Western”, and the examples of China and Korea, who adopted Western forms of theatre to advance a distinctly

Asian aesthetic. It will appeal to anyone seeking more than a superficial understanding of the encounters between “East” and “West”.

Talking Proper

is a history of

the rise and

fall of the

English accent

as a badge of

cultural,

social, and

class identity.

Lynda

Mugglestone traces the origins of the phenomenon in late eighteenth-century London, follows its history through the nineteenth and twentieth centuries, and charts its downfall during the era of New Labor. This is a witty, readable account of a fascinating subject, liberally spiced with quotations from English speech and writing over the past 250 years.

Saint Joan Illustrated  
Cambridge University Press

Phonopoetics tells the neglected story of early "talking records" and their significance for literature, from the 1877 invention of the phonograph to some of the first recorded performances of modernist works. The book challenges assumptions of much contemporary criticism by taking the recorded, oral performance as its primary object of analysis and by exploring the historically specific convergences between audio recording technologies, media formats, generic forms, and the institutions and practices surrounding the literary. Opening with an argument that the earliest spoken recordings were a mediated extension of Victorian reading and elocutionary culture, Jason Camlot explains the literary significance of these pre-tape era voice artifacts by analyzing early promotional fantasies about the phonograph as a new kind of speaker and detailing initiatives to deploy it as a pedagogical tool to heighten

literary experience. Through historically-grounded interpretations of Dickens impersonators to recitations of Tennyson to T.S. Eliot's experimental readings of "The Waste Land" and of a great variety of voices and media in between, this first critical history of the earliest literary sound recordings offers an unusual perspective on the transition from the Victorian to modern periods and

sheds new light on our own digitally mediated relationship to the past. *Written and Spoken English* Routledge This carefully crafted ebook: "The Collected Plays (Illustrated)" is formatted for your eReader with a functional and detailed table of contents. Dictating to the Mob BEYOND BOOKS HUB Delve into a hilarious examination of Victorian love,

manners, morals, and marriage written by the author of *Pygmalion*. In *Candida*, George Bernard Shaw gives us the story of the misbegotten love triangle that springs up between a reverend, his putatively prim and proper wife, and a love-struck and starry-eyed young poet. **The Essential Plays of George Bernard Shaw (Illustrated Edition)** Guardian

Faber Publishing  
Man and Superman BEYOND BOOKS HUB  
Man and Superman Hal Leonard Corporation  
The English language is now accepted as the global lingua franca of the modern age, spoken or written in by over a quarter of the human race. But how did it evolve? How did a language spoken originally by a few thousand Anglo-Saxons become one used by more than 1,500 million? What

developments can be seen as we move from Beowulf to Chaucer to Shakespeare to Dickens and the present day? A host of fascinating questions are answered in *The Stories of English*, a groundbreaking history of the language by David Crystal, the world-renowned writer and commentator on English. Many books have been written about English, but they have all focused on a single variety:

the educated, printed language called “standard” English. David Crystal turns the history of English on its head and instead provides a startlingly original view of where the richness, creativity and diversity of the language truly lies—in the accents and dialects of nonstandard English users all over the world. Whatever their regional, social or ethnic background, each group

has a story worth telling, whether it is in Scotland or Somerset, South Africa or Singapore. Interweaved within this central chronological story are accounts of uses of dialect around the world as well as in literary classics from *The Canterbury Tales* to *The Lord of the Rings*. For the first time, regional speech and writing is placed center stage, giving a sense of the social realities behind the

development of English. This significant shift in perspective enables the reader to understand for the first time the importance of everyday, previously marginalized, voices in our language and provides an argument too for the way English should be taught in the future. Including Renowned Titles like Pygmalion, Mrs. Warren's Profession, Candida, Arms and The Man, Man and
