 Since the dawn of civilization, humans were selected, allocated and organized based on their skills and job criteria. Today, the role of Human Resources (HR) professionals goes beyond recruitment and management of human capital. Human Resource Planning for the 21st Century tackles the current trends of human resource management (HRM) and human resource planning while highlighting certain roles that HR professionals are involved in. Human Resource Planning for the 21st Century explores HRM systems and their roles within a corporate setting, elaborates on HR plans for crises, uncovers the effects of downsizing on company brand and looks at the possible impact of globalization on corporate social responsibility and HRM.

A detailed overview of human resource management from a strategic perspective is provided in this text. To illustrate this approach, a human resource management model is tied to the strategic planning process, and then this model is utilized throughout the book to explain how subjects interrelate. By

introducing key definitions, concepts and background in the beginning of the text, students have a foundation for understanding the later discussions on strategic management, strategic planning, portfolio planning, and strategy-human resource linkages. Also emphasized is human resource issues outside of the human resource departments. Subsequent chapters review the relationships among various human resource management activities, the organization's strategies, and the company's external influences, including labour force characteristics, governmental regulations, labour unions, and cultural variations. This text also evaluates how to align corporate strategy and human resource practice by considering various approaches to cost/benefit analysis and the costing of human research activities.

The concept of strategic human resource management has developed widely in the last couple of years, especially because of the impact of human resources on the competitiveness of

organizations. The development of human resource strategies involves taking into account their multiple mutual dependencies and the fact that they must be vertically integrated with the business strategy. These strategies define the intentions and plans related to the overall organizational considerations, such as organizational competitiveness, effectiveness or image, and to more specific aspects of human resources management, such as resourcing, motivating, valuing, learning and development, reward and employee relations. Strategic management of human resources provides a large perspective on the way critical issues or success factors related to people can be addressed and how different concepts of strategic decisions are made, with long-term impacts on the behavior and success of the organization. The fundamental objective of human resource strategic management is to generate strategic capabilities by ensuring that the organization has the high-qualified, committed and well-motivated employees it needs to achieve and sustain the competitive advantage. The emergence of strategic human resource management (SHRM) is influenced by global competition and the corresponding search for sources of a sustainable competitive advantage. SHRM has achieved its prominence because it provides a means by which business firms can enhance the competitiveness and promote managerial efficiency. It facilitates the development of human capital that meets the requirements of a competitive business strategy, so that organizational goals and the mission of the organization will be achieved. The HRM system is defined as "a set of distinct but interrelated activities, functions and processes that are directed at attracting, developing, and maintaining (or disposing of) a firm's human resources." Many agree that HRM is the most effective tool which contributes to the creation of human capital, and in turn, contributes to organizational performance and the competitive advantage. This book puts emphasis on understanding the role of HRM between organizations and people and provides an analytical approach toward encompassing HRM, employment relations, and organizational behavior. As a management discipline, HRM draws insights, models and theories from cognate disciplines and applies them to real-world settings. Further, this book discusses how current theoretical perspectives and frameworks (e.g., those related to strategic competitiveness, knowledge management, learning organization, communities of practice, etc.) can be applied by reflective practitioners to create an eco-friendly organizational culture.

Strategic Human Resource Management has been a topic familiar to many. But this book approaches the same topic in a current global economy with so many Indian business houses venturing into acquiring global giants and establishing themselves atop of the world of business in our growing economy. This means that with electronic communication making the world into a global village and virtual organizations and learning having made the distinction between 'place' and 'space' not a matter of importance, strategies to be adapted by the HR professionals should be totally new. That is where this book is having a new approach to SHRM. It is interspersed with contemporary Indian cases and experience to fall back on to illustrate the different strategies HR has to play as a business partner. Issues in employee privacy in case of virtual organizations have been vividly dealt with. Gone are the days of the fire-fighting role of HR professionals. They are required to play a vital role being part of the business strategy not only at the domestic arena but also in the global business. Challenges involved in building multicultural organizations, cross border merger and acquisition and repatriation and outsourcing are topics that are significant in the local as well as the global human resource management which are discussed extensively. The book explains career planning and development and compensation packages in the context of competencies and balanced scorecard. When speed and alacrity are demanded of all the employees to stay ahead of competition, the employees are required to put in extended hours and work in a stressful environment. Hence, the new-era HR professional has to resort to developmental activities through mentoring, coaching, counseling, stress management and emotional balance. The book is divided into five parts. Apart from the stories narrated within the text of the book, and some exercises, there is a separate section of cases at the end of the book to augment the concepts narrated in each part. It would not only fully meet the requirements of MBA students but would also give new direction to the practicing HR professionals.

The meeting was sponsored by the Research Committee of the Human Resource Planning Society. In developing the symposium, the Research Committee built upon a study which resulted in a broad research agenda for the Society. The thrust of that research agenda was emphasis on linking the state-of-practice with the state-of-the-art. In the case of the symposium emphasis was on the presentation of forward looking applications which could help member organizations link current practice with the research frontier. The meeting had sessions on (1) Description of Issues, (2) Human Resource Costs and Strategy, (3) Case Studies of Strategic Planning, (4) Computer Technology and Office Automation, (4) Large Scale Forecasting and Compensation Issues, (5) Models for Policy Analysis, (6) Work Force Optimization, (7) Implementation of Information Processing Activities, (8) Productivity Analysis, and (9) Relationship of Strategy to Practice. Thirty papers were presented with discussion sessions at appropriate points in the meeting. This volume contains 18 of these papers along with an introductory paper. A short summary is also provided at the beginning of each major subdivision into which the papers are arraigned.
