Rondón tells the engaging story of salsa's roots in Puerto Rico, Cuba, Colombia, the Dominican Republic, and Venezuela, and of its emergence and development in the 1960s as a distinct musical movement in New York. Rondón presents salsa as a truly pan-Caribbean phenomenon, emerging in the migrations and interactions, the celebrations and conflicts that marked the region. Although salsa is rooted in urban culture, Rondón explains, it is also a commercial product produced and shaped by professional musicians, record producers, and the music industry. --from publisher description.

In *Gangs and Organized Crime*, George W. Knox, Gregg W. Etter, and Carter F. Smith offer an informed and carefully investigated examination of gangs and organized crime groups, covering street gangs, prison gangs, outlaw motorcycle gangs, and organized crime groups from every continent. The authors have spent decades investigating gangs as well as researching their history and activities, and this dual professional-academic perspective informs their analysis of gangs and crime groups. They take a multidisciplinary approach that combines criminal justice, public policy and administration, law, organizational behavior, sociology, psychology, and urban planning perspectives to provide insight into the actions and interactions of a variety of groups and their members. This textbook is ideal for criminal justice and sociology courses on gangs as well as related course topics like gang behavior, gang crime and the inner city, organized crime families, and transnational criminal groups. *Gangs and Organized Crime* is also an excellent addition to the professional's reference library or primer for the general reader. Genealogía de una actividad ilegal millonaria, varias veces superior al producto bruto interno, que involucró a los más altos funcionarios desde los orígenes hasta la actualidad del país. La patria nació bajo el signo del contrabando. Moreno, Belgrano, Brown y Rivadavia fueron de los primeros en desarrollar en el Río del Plata esta práctica que busca burlarse de aduanas y fronteras. Desde aquel momento inaugural, el contrabando se fue haciendo cada vez más complejo y se extendió al narcotráfico, a la trata de personas y al lavado de dinero. Algo que terminó asociándolo con la violencia y el crimen organizado. La Argentina tiene una larga historia de comercio ilegal en el que se mezclan multimillonarios negocios privados con la corrupción del Estado. En *Historia del contrabando en la Argentina*, Mauro Federico y Fernando Ortega Zabala realizan una documentada reconstrucción de la trama de este delito -con datos desconocidos hasta ahora-, en el que estuvieron y están involucrados altos personajes del poder, desde Menem a Macri. Este libro pone en evidencia que la ilegalidad sigue siendo parte ineludible del paisaje nacional.

Dwellers of Memory is an ethnographic study of how urban youth in Colombia came to be at the intersection of multiple forms of political, drug-related, and territorial violence in a country undergoing forty years of internal armed conflict. It examines the ways in which youth in the city of Medellín reconfigure their lives and, cultural worlds in the face of widespread violence. This violence has transgressed familiar boundaries and destroyed basic social supports and networks of trust. This volume attempts to map and understand its patterns and flows. The author explores how Medellín's youth locate themselves and make, sense of violence through contradictory and shifting memory practices. The violence has not completely taken over their cultural worlds or their subjectivities. Practices of remembering and forgetting are key methods by which these youth rework their identities and make sense of the impact of violence on their lives. While the experience of violence is rooted in urban space and urban youth, the memory dwellers use a sense of place, oral histories of death, and narratives of fear as survival strategies for inhabiting violent neighborhoods. The book also examines fissures in memory, the contradictory constructions of young people's subjective selves, and practices of gendered violence

and terror. All have and continue to pose risks to the historical memory and cultural survival of the residents of Medellín.

Dwellers of Memory offers an alternative ethnographic approach to the study of memory and violence, one that calls into question whether the role of the ethnographer of violence is to be a mere witness of terror, or to oppose it by writing against it. It will be of interest to sociologists, anthropologists, and students of, ethnography.

Van Middledyk's work was the first major historical study of Puerto Rico in English. Van Middledyk advanced Puerto Rican historiography by building on the works of Brau, Coll y Toste, and Acosta, and by consulting early Spanish chronicles. A librarian at the Free Public Library of San Juan, Van Middledyk possessed knowledge of and access to considerable primary source material. His history is sympathetic to the Indians and highly critical of Spanish colonial administration. Coming in the wake of American military occupation, the book sought to explain and justify control of the island by the United States.

This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous *Global Trends* reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of *Global Trends 2030*. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.

El elemento político en los crímenes contra la humanidad. La expansión de la figura al crimen organizado transnacional y el caso de las organizaciones de narcotraficantes mexicanas en el sexenio 2006-2012 estudia, a partir de las características de los crímenes contra la humanidad, si algunas organizaciones criminales son idóneas para promover este crimen internacional. Para ello, analiza los requisitos del término "organización" según el artículo 7.2 a) del Estatuto de Roma. El análisis se ejemplifica con determinadas situaciones en Colombia, Guatemala y, más a fondo, México. El primer capítulo aborda el tipo penal de los crímenes de lesa humanidad, especialmente su elemento político y los rasgos del colapso estatal, término novedoso y derivado de la necesidad de describir en qué grado de estabilidad o crisis se encuentra el Estado donde se comete presuntamente dicho crimen internacional. El segundo capítulo caracteriza la figura de la criminalidad organizada transnacional a partir de la Convención de Palermo. Se completa con el análisis de dos tipos de organizaciones criminales problemáticas para la gobernabilidad como las Bandas Criminales colombianas y los Cuerpos Ilegales y Aparatos Clandestinos de Seguridad guatemaltecos. Con ello, se logran instrumentos teóricos para responder a las cuestiones del capítulo final: Cuál es la naturaleza de las principales organizaciones de narcotraficantes mexicanas que operaron en el sexenio 2006-2012 y qué dificultades plantea considerarlas organizaciones en el sentido del artículo 7.2. a) del Estatuto de Roma. Entre el 2003 y el 2009 se llevó a cabo la mayor desmovilización de excombatientes en la historia de Colombia. También, por primera vez, el proceso se enmarcó en el campo de la justicia transicional y no en las amnistías incondicionales y la impunidad que caracterizaron todos los procesos de paz anteriores en Colombia. Este volumen constituye un análisis concienzudo del proceso de desmovilización de los paramilitares y del marco jurídico que lo regula, realizado por veintiún expertos, académicos y periodistas.

En la primavera del 2008, la periodista del Digital Times, Jana López, en el marco de una investigación sobre la especulación urbanística en España, recibe el encargo de sus jefes de incluir en la misma el peculiar caso de Arenas Blancas. Junto al reportero gráfico, Eduardo Gracia, descubrirá la existencia de unas oscuras relaciones entre políticos locales y un mafioso sin escrúpulos. La confluencia de la investigación periodística, con la operación policial dirigida por el diligente juez Moisés Berruguete, acabará desembocando en una trepidante sucesión de hechos en los que poco a poco, a modo de una caja de muñecas rusas, se nos irán desvelando los misterios ocultos de la historia.

Cronológicamente, la novela es la descripción de un tiempo muy reciente. Un tiempo analizado desde el punto de vista de una joven corresponsal de un periódico digital, y de un maduro juez de instrucción. Una novela de convergencia generacional y de oficios; un reconocimiento velado a los periodistas y jueces independientes que aman su profesión; pero también, un homenaje a las gentes sencillas. Gentes, como decía Antonio Machado de sí mismo, en el buen sentido de la palabra, buenas. Por desgracia, e inevitablemente, hay una profesión que no sale muy bien parada: la que representa la mediocre casta política que los españoles hemos visto gestarse durante nuestros escasos años de democracia. Sin olvidar su contrapartida, o si se quiere, la otra cara de la moneda: el empresariado corrupto y el poder financiero. Brick y el olivo 33 es una novela que se adentra en la temática de la corrupción urbanística en España, pero va más allá, porque también es misterio, intriga, crítica política y una historia de amor.

How do mafias work? How do they recruit people, control members, conduct legal and illegal business, and use violence? Why do they establish such a complex mix of rituals, rules, and codes of conduct? And how do they differ? Why do some mafias commit many more murders than others? This book makes sense of mafias as organizations, via a collative analysis of historical accounts, official data, investigative sources, and interviews. Catino presents a comparative study of seven mafias around the world, from three Italian mafias to the American Cosa Nostra, Japanese Yakuza, Chinese Triads, and Russian mafia. He identifies the organizational architecture that characterizes these criminal groups, and relates different organizational models to

the use of violence. Furthermore, he advances a theory on the specific functionality of mafia rules and discusses the major organizational dilemmas that mafias face. This book shows that understanding the organizational logic of mafias is an indispensable step in confronting them.

The Global Study on Homicide 2013 is based on comprehensive data from more than 200 countries/territories, and examines and analyses patterns and trends in homicide at the global, regional, national and sub-national levels. Such analysis is fundamental to understanding the various factors and dynamics that drive homicide, so that measures can be developed to reduce violent crime. The Study provides a typology of homicide, including homicide related to crime, coexistence-related homicide, and socio-political homicide. The nature of crime in several countries emerging from conflict, the role of various mechanisms in killing, and the response of the criminal justice system to homicide are also analyzed. A further chapter examines homicide at the sub-national level, and includes analysis at the city-level for selected global cities.

Women, Business and the Law 2021 is the seventh in a series of annual studies measuring the laws and regulations that affect women's economic opportunity in 190 economies. The project presents eight indicators structured around women's interactions with the law as they move through their lives and careers: Mobility, Workplace, Pay, Marriage, Parenthood, Entrepreneurship, Assets, and Pension. This year's report updates all indicators as of October 1, 2020 and builds evidence of the links between legal gender equality and women's economic inclusion. By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, Women, Business and the Law 2021 makes an important contribution to research and policy discussions about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.

With this platform, we the Republican Party reaffirm the principles that unite us in a common purpose. We believe in

American exceptionalism. We believe America is exceptional because of our historic role - first as refuge, then as defender, and now as exemplar of liberty for the world to see. We believe our constitutional system - limited government, separation of powers, federalism, and the rights of the people - must be preserved uncompromised for future generations. We believe political freedom and economic freedom are indivisible. When political freedom and economic freedom are separated - both are in peril; when united, they are invincible. We believe that people

are the ultimate resource - and that the people, not the government, are the best stewards of our country's God-given natural resources. As Americans and as Republicans we wish for peace - so we insist on strength. We will make America safe. We seek friendship with all peoples and all nations, but we recognize and are prepared to deal with evil in the world. Based on these principles, this platform is an invitation and a roadmap. It invites every American to join us and shows the path to a stronger, safer, and more prosperous America.
