GCSE Maths is Easy: the ultimate guide for anyone who finds mathematics challenging and for those wanting to pass GCSE maths with ease. This exciting new guide is filled with fun and interesting facts for you to understand maths in a way that makes it more compelling to learn, and more importantly, easier to understand! This book contains plenty of sample questions to assist you through GCSE stage mathematics and it provides detailed step-by-step instructions to work out basic arithmetic. This maths book is like no other; it uses real life scenarios and interesting facts (such as sunken ships and car rallies), to help build your mathematical skills and engage with numbers in a more fun and absorbing way. This book includes everything you will need

to know to understand the basics of any math problem including: fractions, ratios, percentages, data interpretation, multiplications, long division, bearings, triangulation and many other mathematical formulas ideal for all GCSE students. Written in conjunction with Qualified Maths Teachers and created by the UK's leading recruitment experts; this comprehensive guide includes: A breakdown of each mathematical formula. Detailed instructions of how to complete each question type. Lots of interesting facts that makes learning maths fun. Plenty of exercises for you to work through. Memorable methods to ensure you get the correct answer every time. Insider GCSE tips and advice All of the content within this guide will help you prepare for the GCSE maths syllabus and can be applied in your practice of past papers for AQA, CCEA, Cambridge, Edexcel, iGCSE, OCR, Scottish and WJEC. This guide is perfect for those

on GCSE maths courses, those who want to know how to get a GCSE maths qualification, touch up on their mathematics and those who want the ultimate revision aid. *Additional Maths - Exam Practice for the 2018 Specification* Hodder Education
Exam Board: OCR Level: GCSE Subject: RS First Teaching: September 2016 First Exam: June 2018 Motivate every student to deepen their understanding and fulfil their potential by following a stimulating, well-paced course through the strengthened content requirements; produced by subject specialists and OCR's Publishing Partner. - Equips students with the detailed knowledge they need to succeed with clear, lively explanations that make key concepts accessible to all ability levels. - Provides opportunities for students to learn, review and develop their knowledge and skills through a variety of engaging activities, discussion points and extension tasks to stretch high achievers. - Ensures that

your lessons are both innovative and inclusive, supplying a bank of tasks that draw on best practice teaching methods. - Encourages students to take an active interest in every topic, using relevant news articles, real-life viewpoints and quotations from sacred texts to bring religious principles and practices to life. - Boosts students' confidence approaching assessment via practice questions and guidance on tackling different question types. - Enables you to teach the systematic study content confidently with comprehensive coverage of Christianity and Islam. OCR GCSE RS Spec Content covered: Christianity - Beliefs and teachings - Practices Islam - Beliefs and teachings - Practices Religion, philosophy and ethics in the modern world from a Christian perspective - Relationships and families - The existence of God - Religion, peace and conflict - Dialogue between religious and non-religious beliefs and attitudes - Covers the short course content.

Pure Mathematics 1, 2 & Statistics and Mechanics Papers for the Edexcel, OCR, AQA

& OCR MEI 2017 Syllabuses Includes Answers Nelson Thornes Written to support and enhance assessment alongside the pupil texts, these resources offer a range of material for the OCR specification. They provide test questions for each chapter together with detailed mark schemes to make assessment easy. Two versions of each question are provided, one allows pupils to write their answers in the spaces provided and the other requires pupils to have separate writing paper. Questions can be grouped according to needs. Master grids are provided to cut and paste tests together in a consistent format to use the resource in any order. Chapter tests can be grouped to form a module test after chapters. End-of-chapter examinations can also be produced in this way. A free non-calculator supplement organised by unit/chapter is also included in this resource.

Salem Press A student-friendly and engaging resource for the 2016 Edexcel GCSE Geography B specification, this brand new course is written to match the demands of the

specification. As well as providing thorough and rigorous coverage of the spec, this book is designed to engage students in their learning and to motivate them to progress.

Book (AS/A Level)

Routledge
 Teaching Psychology
 14-19 - first published as
 Teaching Post-16
 Psychology - is a core text
 for all training psychology
 teachers, as well as
 experienced teachers
 engaged in further study
 and professional
 development. Taking a
 reflective approach, Matt
 Jarvis explores key issues
 and debates against a
 backdrop of research and
 theory, and provides
 guidance on practical
 ideas intended to make
 life in the psychology
 classroom easier. With an
 emphasis on the
 application of psychology
 to teaching psychology, it
 clearly and
 comprehensively covers
 the knowledge essential
 to develop as a successful
 teacher. Key issues
 considered include: The
 appeal of psychology and
 what the subject can offer
 students The psychology
 curriculum and advice on
 how to choose a syllabus
 Principles of effective
 teaching and learning
 Teaching psychological
 thinking Differentiated
 psychology teaching
 Choosing and developing
 resources Using
 technology effectively.
 With a new chapter
 exploring the role of
 practical work in the post-

coursework era, this
 second edition considers
 psychology teaching
 across the 14-19 age
 range and has been
 updated in light of the
 latest research, policy and
 practice in the field.
 Teaching Psychology
 14-19 is an essential text
 for all those engaged in
 enhancing their
 understanding of teaching
 psychology in the
 secondary school.
New GCSE AQA
 Geography for the Grade
 9-1 Course Cambridge
 University Press
 This outstanding new
 series provides both
 student and teacher with
 comprehensive assistance
 with the GCSE OCR
 Syllabus A (1662). Written
 by highly-respected
 authors, in the style of the
 OCR examiners, every
 aspect of the syllabus is
 covered in detail. The
 Intermediate Homework
 book is a pack of graded
 exercise questions to
 accompany the text book.
 It directly supports the
 OCR GCSE Mathematics
 Intermediate Specification
 A (1962). The OCR
 Mathematics Series will
 guide the student and
 teacher through the
 syllabus in a systematic
 and concise fashion, and
 will become a vital
 element of student
 success.

 Letts & Lonsdale
 The aim of this book is to provide an accessible text for students, covering each of the elements in the OCR GCSE (9-1) Computer Science specification J276. It will be invaluable both as a course text and in revision

for students nearing the end of the course. It is divided into eight sections, each broken down into manageable chapters of roughly one lesson. Sections 5 and 6 of the textbook cover algorithms and programming concepts with a theoretical approach to provide students with experience of writing, tracing and debugging pseudocode solutions without the aid of a computer. These sections would complement practical programming experience. Each of the eight sections cover one of the major topics in this course, and each subtopic contains sample examination questions from past papers, which can be set as homework.
[OCR GCSE Maths Practice Papers and Solutions](#) OCR GCSE Maths Practice Papers and Solutions Higher - Grade 9-1, Non-Calculator This book supports students preparing for the OCR GCSE exam. The practice papers in the book are carefully modelled after past papers and specifications of exam board to ensure that the papers as a whole provide a rich and varied practice to meet all requirements of GCSE mathematics with

an appropriate difficulty. Papers are designed to teach students the most easily applicable, reusable and fastest solutions to typical problems, and utilise problems which target areas of maths which students typically forget under the pressure of an exam. Solutions provided have been reviewed by many students to ensure that they are easily understandable while being the fastest and most re-applicable.
