GREYSON MADDEN

Advanced Engineering Mathematics S. Chand Publishing
 "Mathematical Physics" has been written to provide the readers a clear understanding of the mathematical concepts which are an important part of modern physics. The textbook contains 49 chapters on all major topics in an exhaustive endeavour to cover syllabuses of all major universities. Some of the important topics covered in these chapters are Vectors, Integration, Beta and Gamma functions, Differential Equations, Complex Numbers, Matrix and Determinants, and the Laplace transforms.

Partial Differential Equations S. Chand Publishing
 S. Chand's Mathematics books for Classes IX and X are completely based on CCE pattern of CBSE. The book for Term I covers the syllabus from April to September and the book for Term II covers the syllabus from October to March.

S.Chand'S Mathematics For Class IX Term I S. Chand Publishing
 "Mathematical Physics (CBCS)" is as per the latest prescribed CBCS Syllabus. It focuses on Vector Spaces, Matrix Algebra, Differential & Integral Calculus, Integral Transforms, Infinite Series and Complex Variables. Chapter-end Exercises have been added keeping in mind the CBCS examination format and are divided into Multiple Choice Questions (MCQ), Very Short Answer Type (VSA), Short Answer Type (SA) and Long Answer Type Questions (LA). The book is designed in a very systematic and lucid way that makes this book an ideal choice for undergraduate students.

S. Chand's New Mathematics Class X S. Chand Publishing
 Engineering Mathematics (Conventional and Objective Type) completely covers the subject of Engineering Mathematics for engineering students (as per AICTE) as well as engineering entrance exams such as GATE, IES, IAS and Engineering Services Exams. Though a first edition, the book is enriched by 50 years of Academics and professional experience of the Author(s) and the experience of more than 85 published books.

Mathematical Physics (As per UGC CBCS) S. Chand Publishing
 This book has received very good response from students and teachers within the country and abroad alike. Its previous edition exhausted in a very short time. I place on record my sense of gratitude to the students and teachers for their appreciation of my work, which has offered me an opportunity to bring out this revised Eighteenth Edition. Due to the demand of students a chapter on Linear Programming has been added. A large number of new examples and problems selected from the latest question papers of various engineering examinations held recently have been included to enable the students to understand the latest trend.

S.Chand's Mathematics -XII (Vol-I) S. Chand Publishing
 This book is designed for B.Sc. Mathematics Third Semester students as per Common Minimum Syllabus prescribed for all Uttar Pradesh State Universities and Colleges under the recommended National Education Policy 2020 (NEP 2020)

Advanced Engineering Mathematics, 22e S. Chand Publishing
 The book "Introduction to Engineering Mathematics I" has been conceptualized specifically according to the New Syllabus (2022 onwards) of A. P. J. Abdul Kalam Technical University (APJAKTU), Lucknow. It covers important topics such as Inverse of a Matrix, Elementary Transformation, Linear Dependence and Independence of Vectors, Solution of System of Linear Equations, Characteristic Equation, Eigen Values and Eigen Vectors, Successive Differentiation (nth Order Derivatives), Curve Tracing, Euler's Theorem for Homogeneous Functions, Jacobians, Beta, Gamma Functions and Properties, Vector Differentiation, Vector Integration, etc. for sound conceptual understanding of students. Latest Question papers have been solved and included in the

book. Also, short questions have been added at the end of each chapter for better preparation of examinations.

Mathematics for B.Sc. Students Semester I: Theory | Practical (Differential Calculus & Integral Calculus) NEP-UP S. Chand Publishing
 B.E./B.Tech. Students of Second Semester of MDU, Rohtak and Kurushetra University, Kurushetra.

Professional Mathematics for Polytechnics S. Chand Publishing
 Keeping in view the limited time at the disposal of engineering students preparing for university examination, the book contains fairly large number of solved examples taken from various recently examination papers of different universities and Engineering colleges so that they may not find any difficulty while answering these problems in their final examination. Latest question papers upto summer 2006 of A.M.I.E. have been added for the readers to understand the latest trend.

Mathematics for B.Sc. Students: Semester III (Algebra | Mathematical Methods) NEP-UP S. Chand Publishing

This book provides a complete course for first-year engineering mathematics. Whichever field of engineering you are studying, you will be most likely to require knowledge of the mathematics presented in this textbook. Taking a thorough approach, the authors put the concepts into an engineering context, so you can understand the relevance of mathematical techniques presented and gain a fuller appreciation of how to draw upon them throughout your studies.

Advanced Engineering Mathematics S. Chand Publishing
 This book has been thoroughly revised according to the New Syllabus of Uttar Pradesh Technical University (UPTU), Lucknow. [For B.E. / B.Tech. / B.Arch. Students for second semester of all Engineering Colleges of Uttar Pradesh Technical University (UPTU). Lucknow]

A Textbook of Engineering Mathematics Vol-II (MDU, Krukshet Pearson Higher Ed
 For B.E./B.Tech. / B.Arch. Students for First Semester of all Engineering Colleges of Maha Maya Technical University, Noida and Gautam Buddha Technical University, Lucknow
Introduction to Engineering.Mathematics Vol-1(GBTU) Jones & Bartlett Learning
 This textbook has been designed to meet the needs of B.Sc. First Semester students of Mathematics as per Common Minimum Syllabus prescribed for all Uttar Pradesh State Universities and Colleges under the recommended National Education Policy 2020. A methodical text, which mirrors the flow of the units of the syllabus, has been created with a focus on developing mathematical skills in both Differential and Integral Calculus and enables the reader to possess an in-depth knowledge of the subjects. Apart from this, topics such as Convergence and Divergence of Series, Successive Differentiation, Partial Differentiation, Riemann Integral: Fundamental Theorems of Integral Calculus, Vector Differentiation and Integration have been well-explained.

Mathematical Physics, 8e S. Chand Publishing
 S. Chand's Mathematics books for Classes IX and X are completely based on CCE pattern of CBSE. The book for Term I covers the syllabus from April to September and the book for Term II covers the syllabus from October to March.

Advanced Engineering Mathematics S. Chand Publishing
 Introduction to Engineering Mathematics - Volume IV has been thoroughly revised according to the New Syllabi (2018 onwards) of Dr. A.P.J. Abdul Kalam Technical University (AKTU, Lucknow). The book contains 13 chapters divided among five modules - Partial Differential Equations, Applications of Partial Differential Equations, Statistical Techniques - I, Statistical Techniques - II and Statistical Techniques - III.

Higher Engineering Mathematics 40th Edition Pearson Education India
 Our understanding of the fundamental processes of the natural world is based to a large extent on partial differential equations (PDEs). The second edition of Partial Differential Equations provides an introduction to the basic properties of PDEs and the ideas and techniques that have proven useful in

analyzing them. It provides the student a broad perspective on the subject, illustrates the incredibly rich variety of phenomena encompassed by it, and imparts a working knowledge of the most important techniques of analysis of the solutions of the equations. In this book mathematical jargon is minimized. Our focus is on the three most classical PDEs: the wave, heat and Laplace equations. Advanced concepts are introduced frequently but with the least possible technicalities. The book is flexibly designed for juniors, seniors or beginning graduate students in science, engineering or mathematics.

Advanced Engineering Mathematics, 22e S. Chand Publishing

S. Chand's Mathematics books for Classes IX and X are completely based on CCE pattern of CBSE. The book for Term I covers the syllabus from April to September and the book for Term II covers the syllabus from October to March.

Introduction to Engineering Mathematics - Volume II [APJAKTU Lucknow] S. Chand

Publishing

For B.E. First Year Semester II (All Branches). Strictly According To The Syllabus Of Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal (M.P.)

Introduction to Engineering Mathematics - Volume III [APJAKTU] S. Chand Publishing

A worldwide bestseller renowned for its effective self-instructional pedagogy.

S.Chand'S Mathematics For Class X Term -I S. Chand Publishing

Introduction to Engineering Mathematics Volume-III is written for the B.E./B.Tech./B. Arch. students of third/fourth semester of Dr. A.P.J. Abdul Kalam Technical University (AKTU) in according to the new syllabus. The book is divided into twenty-five chapters covering all the important topics of the subject. It contains fairly a large number of solved examples from question papers of examinations recently held by different universities and engineering colleges so that the students may not find any difficulty while answering these problems in their final examination.
