In Tibetan religious literature, Jamgön Kongtrül's Treasury of Knowledge in ten books stands out as a unique, encyclopedic

masterpiece embodying the entire range of Buddhist teachings as they were preserved in Tibet. In his monumental Treasury of Knowledge, Jamgön Kongtrül presents a complete account of the major lines of thought and practice that comprise Tibetan Buddhism. This first book of The Treasury which serves as a prelude to Kongtrul's survey describes four major cosmological systems found in the Tibetan tradition—those associated with the Hinayana, Mahayana, Kalachakra, and Dzogchen teachings. Each of these cosmologies shows how the world arises from mind, whether through the accumulated results of past actions or from the constant striving of awareness to know itself.

The Manual, which consists of forty-one lessons, is illustrated with many drawings and photographs and also includes two informative political and linguistic maps of Tibet. Two CDs provide an essential oral complement to the manual. A detailed introduction presents a linguistic overview of spoken and written Tibetan.

Defying everyone's advice, armed only with her rudimentary knowledge of Chinese and Tibetan, Sabriye Tenberken set out to do something about the appalling condition of the Tibetan blind, who she learned had been abandoned by society and left to die. Traveling on horseback throughout the country, she sought them out, devised a Braille alphabet in Tibetan, equipped her charges with canes for the first time, and set up a school for the blind. Her efforts were crowned with such success that hundreds of young blind Tibetans, instilled with a newfound pride and an education,

have now become self-supporting. A tale that will leave no reader unmoved, it demonstrates anew the power of the positive spirit to overcome the most daunting odds.

Shantideva's Bodhisattvacharyavatara (A Guide to the Bodhisattva's Way of Life) holds a unique place in Mahayana Buddhism akin to that of the Dhammapada in Hinayana Buddhism and the Bhagavadgita in Hinduism. In combining those rare qualities of scholastic precision, spiritual depth and poetical beauty, its appeal extends to a wide audience of Buddhists and non-Buddhists alike. Composed in India during the 8th century of the Christian era, it has since been an inspiration to millions of people throughout the world. This present translation by Stephen Batchelor is based upon a 12th century Tibetan commentary as orally explained by Ven. Geshe Ngawang Dhargyey. The ninth chapter on wisdom has been expanded for this edition with relevant commentarial passages.

An Introduction to Classical Tibetan Oxford University Press, USA
Among Asian languages, Tibetan is second only to Chinese in the depth of its historical record, with texts dating back as far as the eighth and ninth centuries, written in an alphabetic script that preserves the contemporaneous phonological features of the language. The Classical Tibetan Language is the first comprehensive description of the Tibetan language and is distinctive in that it treats the classical Tibetan language on its own terms rather than by means of descriptive categories appropriate to other languages, as has traditionally been the case. Beyer presents the language as a medium of literary expression with great range, power, subtlety, and humor, not as an abstract object. He also deals comprehensively with a wide variety of linguistic phenomena as they are actually encountered in the classical texts, with numerous examples of idioms, common locutions, translation devices, neologisms, and dialectal variations.

Classical Tibetan, with origins dating to the ninth century, is the script found in a huge corpus of surviving Tibetan texts, mostly of Buddhist content; native Tibetans still employ this language, to this day when writing on religious, medical or historical subjects. The aim of this book is to provide a rapid introduction to the main elements of Classical Tibetan, so that students may begin to access for themselves the vast amount of written material available in this language. While designed for guided study, the material will also be of use to those who tackle the language on their own. Regular study over approximately six months should result in an understanding of most grammatical features and allow the student to read the simpler prose texts.

What are the most important points of difference between the major schools of Buddhist philosophy? This rich, medium-length survey offers a lively answer. The introduction, aimed at those new to Buddhist thought, sets up a dialogue between the schools on the most controversial topics in Buddhist philosophy. Jamyang Shayba was the greatest Tibetan writer on philosophical tenets. Losang Gonchok's *Clear Crystal Mirror*, a concise commentary on Jamyang Shayba's root text, represents a distillation of many centuries of Indian and Tibetan scholarship. Buddhist Philosophy skims the cream of Jamyang Shayba's intellect, providing a rare opportunity to sharpen our intellect and expand our view of Buddhist thought.

"Theos Bernard, the White Lama" recounts the real story behind the purported adventures of Theos Casimir Bernard (1908--1947), the self-proclaimed "White Lama" who in 1937 became the third American in history to reach Lhasa, the capital city of Tibet. Bernard met, associated, and corresponded with the major social, political, and cultural leaders of his day, from the Regent and high politicians of Tibet to saints, scholars, and diplomats of British India, and from Charles Lindbergh and Franklin Delano Roosevelt to Gandhi and Nehru. But he also had his flaws. He was an entrepreneur propelled by grandiose schemes, a handsome man who shamelessly used his looks to bounce from rich wife to rich wife to support his activities, and a master manipulator who concocted his own interpretations of Eastern wisdom to suit his own ends. Despite the bright future ahead of him, Bernard disappeared in India during the communal violence of the 1947 Partition, never to be seen again. Through diaries, interviews, and previously unstudied documents, Paul G. Hackett shares Bernard's compelling life story, along with his efforts to awaken America's religious counterculture to the unfolding events in India, Tibet, and the Himalayas.

Enjoy popular Tibetan collections of advice, fables, and aphorisms for following the way of the wise and avoiding the path of fools. The Tibetan Book of Everyday Wisdom: A Thousand Years of Sage Advice presents a genre of Tibetan works known as "wise sayings" (lekshé). While most Tibetan literature focuses on the Buddhist path, wise sayings literature has traditionally been a centerpiece of secular education in Tibet and in the cultivation of social mores and an honorable way of life. Drawing inspiration from classical Indian literature on human virtue and governance (nītiśāstra), including the folktales in the Pañcātāntra, the authors of these Tibetan works strove to educate young minds in the ways of the civilized world, especially by distinguishing the conduct of the wise from that of the foolish. This anthology includes some of the best-loved classics of Tibetan literature, such as Sakya Pandita's Jewel Treasury of Wise Sayings, Panchen Sönam Drakpa's Ganden Wise Sayings, and Gungthang's Treatise on Trees and Treatise on Water. The final work is the intriguing Kaché Phalu's Advice. Ostensibly written by a wise Tibetan Muslim, this versified text enjoys great popularity within Tibetan-speaking communities, such that many Tibetans are able to recite at least a few verses from memory.

How to Read Classical Tibetan, Volume Two: Buddhist Tenets continues Craig Preston's groundbreaking series of self-study materials designed for students learning to read Classical Tibetan on their own. This book serves a dual purpose: the student learns both grammar and philosophy at the same time. With easy-to-understand diagrams, Preston shows how to find your way

through Tibetan sentences. It is like having a personal tutor at your fingertips, allowing you to proceed at your own pace through a wealth of material. As you work your way through an actual Tibetan text, Preston offers guidance at every turn. He explains the meaning of new words as they arise. He also offers a complete glossary of all the words at the end of the book. As you encounter new grammatical constructions, he walks you through understanding their meaning. He shows you how to break down Tibetan sentences into small pieces and then how to put those

pieces back together to form clearly understandable English sentences. The book also helps students of the Tibetan language gain entry into the genre of tenets, which is the comparative study of the original schools of Buddhist thought in India. He introduces the rich vocabulary of Buddhist philosophy without assuming any prior knowledge, offering simple, easy-to-understand explanations of complicated ideas. Preston thus provides a complete language course.
