Dramatic Mirror of the Stage and Motion Pictures John Wiley & Sons

The use of film and video is widespread in contemporary theatre. Staging the Screen explores a variety of productions, ranging from Piscator to Forced Entertainment, charting the impact of developing technologies on practices in dramaturgy and performance. Gieseckam addresses critical issues raised by multi-

media work and inter-media work

Exploring the use of live performance and the moving image in contemporary art practice, *The Sensible Stage* brings together essays that examine how elements from theater and cinema are integrated into art, often in order to question the boundaries and mediations between the body and the image. Opening with a discussion between prominent philosopher Alain Badiou and Elie During, this book offers a unique mixture of theoretical, creative and discursive reflections on the meeting of stage and screen. This revised and expanded edition includes two new chapters that offer an updated look at how these ideas continue to develop

in contemporary art practice.

Shakespeare's Auditory Worlds Davidson Press

In this invaluable and detailed presentation of the leading creative figures in a richly innovative and dynamic period of Czech theatre, Professor Jarka M. Burian provides us with insightful portraits of the directors K. H. Hilar, E. F. Burian, Alfred Radok, and Otomar Krejca: of the famous Voskovec and Werich comedic duo; of the scenographer Josef Svoboda; and of the playwright, now President of the Czech Republic, Václav Havel. There are also briefer studies of numerous other directors, designers, and actors. The author, a Czech-American theatre scholar and practitioner, has been a frequent on-site observer of Czech theatre since 1965. He is directly acquainted with many of the major artists and the most notable productions that have made Czech theatre internationally famous.

Dramatics in the Secondary School Bloomsbury Publishing

Inspired by the verbal exuberance and richness of all that can be heard by audiences both on and off Shakespeare's stages, *Shakespeare's Auditory Worlds* examines such special listening situations as overhearing, eavesdropping, and asides. It breaks new ground by exploring the complex relationships between sound and sight, dialogue and blocking, dialects and other languages, re-voicings, and, finally, nonverbal or metaverbal relationships inherent in noise, sounds, and music, staging interstices that have been largely overlooked in the critical literature on aurality in Shakespeare. Its contributors include David Bevington, Ralph Alan Cohen, Steve Urkowitz, and Leslie Dunn, and, in a concluding "Virtual Roundtable" section, six seasoned repertory actors of the American Shakespeare Center as well, who discuss their nuanced hearing experiences on stage. Their "hearing" invites us to understand the multiple dimensions of Shakespeare's auditory world from the vantage point of actors who are listening "in the round" to what they hear from their

onstage interlocutors, from offstage and backstage cues, from the musicians' galleries, and often most interestingly, from their audiences.

E. K. Chambers's seminal four-volume account of the private, public, and court stages, together with other forms of drama and spectacle surviving from earlier times, from the beginning of the reign of Elizabeth until the death of Shakespeare. Hailed as a comprehensive compendium of 'practically all the discoverable evidence upon the various parts of the subject, collected, weighed, sorted, classified and built up with immense care into a logical and beautiful structure' (New Statesman), the work is still much consulted by today's scholars and historians.

Liveness on Stage CRC Press

This book offers a sustained and deeply experiential pragmatic study of performance environments, here defined at unstable, emerging, and multisensational atmospheres, open to interactions and travels in augmented virtualities. Birringer's writings challenge common assumptions about embodiment and the digital, exploring and refining artistic research into physical movement behavior, gesture, sensing perception, cognition, and

trans-sensory hallucination. If landscapes are autobiographical, and atmospheres prompt us to enter blurred lines of a "forest knowledge," where light, shade, and darkness entangle us in foraging mediations of contaminated diversity, then such sensitization to elemental environments requires a focus on processual interaction. Provocative chapters probe various types of performance scenarios and immersive architectures of the real and the virtual. They break new ground in analyzing an extended choreographic – the building of hypersensorial scenographies that include a range of materialities as well as bodily and metabodily presences. Foregrounding his notion of kinetic atmospheres, the author intimates a technosomatic theory of dance, performance, and ritual processes, while engaging in a vivid cross-cultural dialogue with some of the leading digital and theatrical artists worldwide. This poetic meditation will be of great interest to students and scholars in theatre, performing arts as well as media arts practitioners, composers, programmers, and designers.

Film Directing Shot by Shot Taylor & Francis

Twenty-First Century Musicals stakes a place for the musical in today's cinematic landscape, taking a look at leading contemporary shows from their stage origins to their big-screen adaptations. Each chapter offers a new perspective on a single musical, challenging populist narratives and exploring underlying narratives and sub-texts in depth. Themes of national identity; race, class and gender; the 'voice' and 'singing live' on film; authenticity; camp sensibilities; and the celebration of failure are addressed in a series of questions including: How does the film adaptation provide a different viewing experience from the stage

version? What themes are highlighted in the film adaptation? What does the new casting bring to the work? Do camera angles dictate a different reading from the stage version? What is lost/gained in the process of adaptation to film? Re-interpreting the contemporary film musical as a compelling art form, *Twenty-First Century Musicals* is a must-read for any student or scholar keen to broaden their understanding of musical performance.

Adapting Performance Between Stage and Screen

Routledge

Theatre is traditionally considered a live medium but its 'liveness' can no longer simply be taken for granted in view of the increasing mediatisation of the stage. Drawing on theories of intermediality, *Liveness on Stage* explores how performances that incorporate film or video self-reflexively stage and challenge their

own liveness by contrasting or approximating live and mediated action. To illustrate this, the monograph investigates key aspects such as 'ephemerality', 'co-presence', 'unpredictability', 'interaction' and 'realistic representation' and highlights their significance for re-evaluating received notions of liveness. The analysis is based on productions by Gob Squad, Forkbeard Fantasy, Station House Opera, Proto-type Theater, Tim Etchells and Mary Oliver. In their playful approaches these practitioners predominantly present such media combination as a means of cross-fertilisation rather than as an antagonism between liveness and mediatisation. Combining an original theoretical approach with an in-depth analysis of the selected productions, this study will appeal to scholars and practitioners of theatre and performance as well as to those researching intermedial phenomena.

You've researched your character extensively, tailored her to your audience, sketched hundreds of versions, and now you lean back content as you gaze at your final character model sheet. But now what? Whether you want to use her in an animated film, television show, video game, web comic, or children's book, you're going to have to make her perform. How a character looks and is costumed starts to tell her story, but her body language reveals even more. *Character Mentor* shows you how to pose your character, create emotion through facial expressions, and stage your character to create drama. Author Tom Bancroft addresses each topic with clear, concise prose, and then shows you what he really means through commenting on and redrawing artwork from a variety of student "apprentices." His assignments

allow you to join in and bring your drawing to the next level with concrete techniques, as well as more theoretical analysis. Character Mentor is an apprenticeship in a book. Professional artists from a variety of media offer their experience through additional commentary. These include Marcus Hamilton (Dennis the Menace), Terry Dodson (X-Men), Bobby Rubio (Pixar), Sean "Cheeks" Galloway (Spiderman animated), and more. With a foreword by comicbook artist Adam Hughes, who has produced work for DC, Marvel Comics, Lucasfilm, Warner Bros. Pictures, and other companies.

Swartz reminds us in that various stage and screen dramatizations of Baum's story preceded and influenced the 1939 film. This richly illustrated book contains many rare photographs, film stills, sketches, theater programs, and movie advertisements from the different productions. Piecing together the Chicago and Broadway stage productions (1902-3) from contemporary reviews, surviving script pages, and published song lyrics, Swartz shows how Baum and his many collaborators worked to transform the book into a popular theatrical attraction - often requiring significant alterations to the original story.

The fifteen original essays in *Staging Philosophy* make useful

connections between the discipline of philosophy and the fields of theater and performance and use these insights to develop new theories about theater. Each of the contributors—leading scholars in the fields of performance and philosophy—breaks new ground, presents new arguments, and offers new theories that will pave the way for future scholarship. *Staging Philosophy* raises issues of critical importance by providing case studies of various philosophical movements and schools of thought, including aesthetics, analytic philosophy, phenomenology, deconstruction, critical realism, and cognitive science. The essays, which are organized into three sections—history and method, presence, and reception—take up fundamental issues such as spectatorship, empathy, ethics, theater as literature, and the essence of live performance. While some essays challenge assertions made by critics and historians of theater and performance, others analyze the assumptions of manifestos that prescribe how practitioners should go about creating texts and performances. The first book to bridge the disciplines of theater and philosophy, *Staging Philosophy* will provoke, stimulate, engage, and ultimately bring theater to the foreground of intellectual inquiry while it inspires further philosophical investigation into theater and performance.
