JOHNS MIYA

Poems and Ballads McGraw Hill Professional

The Blood of Titans is unique love story set in the Golden Age of Africa. It is the tale of Halima, a teenage princess who falls in love with a warrior king. Enormous obstacles lie in the way of their happiness. In the course of their adventures, Princess Halima learns about loss, duty, and the high price of romantic love -- and must make a choice that determines the future of kingdoms. Early responses are glowing: "The Blood of Titans is an epic romantic adventure that harkens back to the origin of African civilization, told with detailed eloquence... an engrossing and well-crafted tale. Forsyth does an excellent job creating Halima's world with details so sharp the reader is easily transported into it." -- Milton J. Davis, Editor of Griots: A Sword and Soul Anthology "The lyrical language of The Blood of Titans quickly drew me into this richly textured novel. I could smell the air, hear the music, and see the towns and sea and grasslands and mountains. Every scene comes to life." - Shauna Roberts, Ph.D, author of Like Mayflies in a Stream "C. Michael Forsyth has charted new territory in the land of Sword and Soul. The Blood of Titans will carry you along on an amazing journey. I give it five spears out of five." -- Charles R. Saunders, Aurora Award-winning author of Imaro Many love stories targeted at African-American women are "urban romances," featuring dubious protagonists such as strippers and thugs. In contrast, the characters of this book have a Shakespearean dignity. With rousing depictions of sword battles, fights to the death with ferocious animals and other derring-do, the novel has plenty to offer both male and female fans of fantasy and the sword and sorcery genre. Anyone who enjoys a good story should read this exciting and moving tale.

Nightlights Chronicle Books

Americans and Britons are exposed to unedited texts, scripts, and speech from one another's dialects at an unprecedented and accelerating rate. Most people have no trouble understanding the general meaning of language in the other dialect, but readers and listeners very often fail to understand or misunderstand critical words, references, and allusions for lack of familiarity of the social and cultural contexts that underlie various usages. This book remedies this gap in understanding by cataloguing the differences that language users on either side of the Atlantic are likely to encounter in their dealings with the other dialect. By taking a culturally neutral stance it addresses the needs of both British and American readers and listeners. The thematic organization of the book allows the user to access language differences in various subject areas, where words likely to be needed at the same time can all be found together. Chapters include; Politics, Law, and Government; Business and Money; Medicine and Healthcare; Education; Food, Clothing, and Shelter; Transportation; Sports; and Profanity and Obscenity, in addition to basic information on orthography, weights and measures, etc. The appendices and extensive index provide a ready point of entry for quick look-ups, and there will be an extra chapter on Canadian, Australian, and Asian English.

Guinness World Records 2012 New York : Oxford University Press

A complete and easy-to-use guide to English idioms. With its detailed analysis of over 4500 idioms, the Longman Dictionary of English Idioms provides the advanced learner with an indispensable reference tool.

The Return of the Author John Wiley & Sons

Americans have a gift for coining proverbs. "A picture is worth a thousand words" was not, as you might imagine, the product of ancient Chinese wisdom -- it was actually minted by advertising executive Fred Barnard in a 1921 advertisement for Printer's Ink magazine. After all, Americans are first and foremost a practical people and proverbs can be loosely defined as pithy statements that are generally accepted as true and useful. The next logical step would be to gather all of this wisdom together for a truly American celebration of shrewd advice. A Dictionary of American Proverbs is the first major collection of proverbs in the English language based on oral sources rather than written ones. Listed alphabetically according to their most significant key word, it features over 15,000 entries including uniquely American proverbs that have never before been recorded, as well as thousands of traditional proverbs that have found their way into American speech from classical, biblical, British, continental European, and American literature. Based on the fieldwork conducted over thirty years by the American Dialect Society, this volume is complete with historical references to the earliest written sources, and supplies variants and recorded geographical distribution after each proverb. Many surprised await the reader in this vast treasure trove of wit and wisdom. Collected here are nuggets of popular wisdom on all aspects of American life: weather, agriculture, travel, money, business, food, neighbors, friends, manners, government, politics, law, health, education, religion, music, song, and dance. And, to further enhance browsing pleasure, the editors have provided a detailed guide to the use of the work. While it's true that many of our best known proverbs have been supplied by the ever-present "Anonymous," many more can be attributed to some very famous Americans, like Ernest Hemingway, Abraham Lincoln, Benjamin Franklin, Mark Twain, J. Pierpont Morgan, Thomas Alva Edison, Abigail Adams, and Ralph Waldo Emerson, to name but a few offered in this fascinating collection. Who wouldn't want to know the origin of "the opera ain't over till the fat lady sings?" This uniquely American proverb and many more are gathered together in A Dictionary of American Proverbs. A great resource for students and scholars of literature, psychology, folklore, linguistics, anthropology, and cultural history, this endlessly intriguing volume is also a delightful companion for anyone with an interest in American culture.

The Garden of Proserpine McGraw Hill Professional

X is an identity thief extraordinaire who steals the identity of the worst possible person! He soon becomes a fugitive, hunted by every intelligence agency in the world. The international adventures of this sardonic and amoral anti-hero combine the irony of The Third Man with the fast-paced thrills of The Bourne Identity. To survive, X must use his talent for deceit and his chameleon-like ability to adopt one persona after another, as his predicament becomes steadily more harrowing and the stakes mount. A former writer for the satirical tabloid The Weekly World News, C. Michael Forsyth peppers The Identity Thief with sly humor and delicious twists. His acclaimed novel Hour of the Beast was hailed by Horror Fiction Review as a "fast-paced, rip-snorting, action-packed, sexy college

romp." Critics called his epic romantic adventure *The Blood of Titans* "an engrossing and well-crafted tale."

They assist to better develop effective services, relevant collections, and accessible formats within the context and requirements of the local community. In this exciting and complex information world it is important for professionals in search of knowledge, information and creative experience to succeed. This is the 2nd edition of *The Public Library Service IFLA/UNESCO Guidelines for Development*.

Common American Phrases in Everyday Contexts Addison-Wesley

With more than 7,000 up-to-date phrases, this dictionary covers situations from talking to a doctor to ordering a meal, and helps learners communicate personal feelings, and make small talk.

Lectures on Architecture and Painting

The year is 1922. A respected judge inexplicably vanishes in a decrepit mansion and two of the world's most remarkable men are summoned to investigate: Sir Arthur Conan Doyle, creator of Sherlock Holmes, and Harry Houdini, the world's greatest escape artist. Aided by a beautiful young psychic, the unlikely partners probe a mystery that becomes murkier and more perilous at every turn and brings them face to face with evil incarnate. To solve the riddle of *The Spook House* and to survive its dangers--they must call upon all of their extraordinary mental and physical powers. The story draws upon the real-life friendship of Conan Doyle and Houdini, two vastly different men brought together by their fascination with the paranormal.
