*The Law of Dilapidations with Some Hints on Practice* Oxford University Press, USA

This book deals with structural surveys for all types of building - domestic industrial and commercial - and includes diagnosis of a wide range of defects. It considers both modern and older construction methods, and deals with the particular problems of alterations and restoration work. Guidance is given on how to carry out measured surveys and on report writing. The third edition covers the latest definitions of types of property surveys, more information on report writing and a range of detail updates. \* Covers all types of building - commercial, industrial and historical - not just domestic \* Deals with particular problems of conversion and renovation work - increasingly important today \* New edition features latest definitions of survey types, more on report writing and a range of other updates \* 'a valuable reference book' - ASI Journal

This book discusses the legal principles governing dilapidated premises. It examines the express implied and statutory repairing obligations of landlord and tenants. The text looks at the

remedies which are available to both parties to a lease if a repairing obligation is broken. The liability of freeholders to carry out repairs is noted, as well as the legislative framework governing party wall owners. Both professionals and students in the dilapidations field will find this book of interest.
