Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award • One of the New York Times' Ten Best Books of the Year "Impressive . . . Mr. Judt writes with enormous authority." —The Wall Street Journal "Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history." —The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. Postwar is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, Postwar is a rare joy. Judt's book, *Ill Fares the Land*, republished in 2021 featuring a new preface by bestselling author of *Between the World and Me* and *The Water Dancer*, Ta-Nehisi Coates.

In this signal work of history, Bancroft Prize winner and Pulitzer Prize finalist Lizabeth Cohen shows how the pursuit of prosperity after World War II fueled our pervasive consumer mentality and transformed American life. Trumpeted as a means to promote the general welfare, mass consumption

quickly outgrew its economic objectives and became synonymous with patriotism, social equality, and the American Dream. Material goods came to embody the promise of America, and the power of consumers to purchase everything from vacuum cleaners to convertibles gave rise to the power of citizens to purchase political influence and effect social change. Yet despite undeniable successes and unprecedented affluence, mass consumption also fostered economic inequality and the fracturing of society along gender, class, and racial lines. In charting the complex legacy of our "Consumers' Republic" Lizabeth Cohen has written a bold, encompassing, and profoundly influential book.

The fifth volume of *A History of the Book in America* addresses the economic, social, and cultural shifts affecting print culture from World War II to the present. During this period factors such as the expansion of government, the growth of higher education, the climate of the Cold War, globalization, and the development of multimedia and digital technologies influenced the patterns of consolidation and diversification established earlier. The thirty-three contributors to the volume explore the evolution of the publishing industry and the business of bookselling. The histories of government publishing, law and policy, the periodical press, literary criticism, and reading—in settings such as schools, libraries, book clubs, self-help programs, and collectors' societies—receive imaginative scrutiny as well. The *Enduring Book* demonstrates that the corporate consolidations of the last half-century have left space for the independent publisher, that multiplicity continues to define American print culture, and that even in the digital age, the book endures. "In *Popular Culture in the Age of White Flight*, Eric Avila offers a unique argument about the restructuring of urban space in the two decades following World War II and the role played by new suburban spaces in dramatically transforming the political culture of the United States. Avila's work helps us see how and why the postwar suburb produced the political culture of 'balanced budget conservatism' that is now the dominant force in politics, how the eclipse of the New Deal since the 1970s represents not only a change of views but also an alteration of spaces."—George Lipsitz, author of *The Possessive Investment in Whiteness*

The *New York Times* said of Ronald H. Spector's classic account of the American struggle against the Japanese in World War II, "No future book on the Pacific War will be written without paying due tribute to *Eagle Against the Sun*." Now Spector has returned with a book that is even more revealing. In *The Ruins of Empire* chronicles the startling aftermath of this crucial twentieth-century conflict. With access to recently available firsthand accounts by Chinese, Japanese, British, and American witnesses and previously top secret U.S. intelligence records, Spector tells for the first time the fascinating story of the deadly confrontations that broke out—or merely continued—in Asia after peace was proclaimed at the end of World War II. Under occupation by the victorious Allies, this part of the world was plunged into new power struggles or back into old feuds that in some ways were worse than the war itself. In *The Ruins of Empire* also shows how the U.S. and Soviet governments, as they secretly vied for influence in liberated lands, were soon at odds. At the time of the peace declaration, international suspicions were still strong. Joseph Stalin warned that "crazy cutthroats" might disrupt the surrender ceremony in Tokyo Bay. Die-hard Japanese officers plotted to seize the emperor's palace to prevent an announcement of surrender, and clandestine relief forces were sent to rescue thousands of Allied POWs to prevent their being massacred. In *The Ruins of Empire* paints a vivid picture of the postwar intrigues and violence. In Manchuria, Russian "liberators" looted, raped, and killed innocent civilians, and a fratricidal rivalry continued between Chiang Kai-shek's regime and Mao's revolutionaries. Communist resistance forces in Malaya settled old scores and terrorized the indigenous population, while mujahideen holy warriors staged reprisals and terror killings against the Chinese—hundreds of innocent civilians were killed on both sides. In Indochina, a nativist political movement rose up to oppose the resumption of French colonial rule; one of the factions that struggled for supremacy was the Communist Viet Minh led by Ho Chi Minh. Korea became a powder keg with the Russians and

Americans entangled in its north and south. And in Java, as the Indonesian novelist Idrus wrote, people brutalized by years of Japanese occupation "worshipped a new God in the form of bombs, submachine guns, and mortars." Through impeccable research and provocative analysis, as well as compelling accounts of American, British, Indian, and Australian soldiers charged with overseeing the surrender and repatriation of millions of Japanese in the heart of dangerous territory, Spector casts new and startling light on this pivotal time—and sets the record straight about this contested and important period in history.

The story of the civil rights movement typically begins with the Montgomery bus boycott of 1955 and culminates with the 1965 voting rights struggle in Selma. But as Martha Biondi shows, a grassroots struggle for racial equality in the urban North began a full ten years before the rise of the movement in the South. This story is an essential first chapter, not only to the southern movement that followed, but to the riots that erupted in northern and western cities just as the civil rights movement was achieving major victories. Biondi tells the story of African Americans who mobilized to make the war against fascism a launching pad for a postwar struggle against white supremacy at home. Rather than seeking integration in the abstract, black New Yorkers demanded first-class citizenship—jobs for all, affordable housing, protection from police violence, access to higher education, and political representation. This powerful local push for economic and political equality met broad resistance, yet managed to win several landmark laws barring discrimination and segregation. *To Stand and Fight* demonstrates how black New Yorkers launched the modern civil rights struggle and left a rich legacy. Table of Contents: Prologue: The Rise of the Struggle for Negro Rights 1 Jobs for All 2 Black Mobilization and Civil Rights Politics 3 Lynching, Northern style 4 Desegregating the metropolis 5 Dead Letter Legislation 6 An Unnatural Division of People 7 Anticommunism and Civil Rights 8 The Paradoxical Effects of the Cold War 9 Racial Violence in the Free World 10 Lift Every Voice and Vote 11 Resisting Resegregation 12 To Stand and Fight Epilogue: Another Kind of America Notes Acknowledgments Illustration Credits Index Reviews of this book: Historians have thoroughly documented the experiences of those African Americans who lived in the South and worked to repeal Jim Crow laws. However, in this work, Biondi explores what she calls 'the struggle for Negro rights' in New York City, an exploration resulting in a stark reminder of the daily challenges facing blacks who lived in northern cities...With its detailed discussions of the American Labor Party, the Communist Party, Black Nationalism, Adam Clayton Powell Jr., W. E. B. Dubois, Roy Wilkins, and, especially, Paul Robeson, this work should be required reading for all historians interested in the post-WW II experience of African Americans in the urban North. --T. D. Beal, *Choice Reviews* of this book: In this meticulously researched monograph, Biondi reminds the reader that the struggle for black civil rights was waged in the North before it was joined in the South. She documents the fight against racial discrimination in hiring, police brutality, housing segregation, lack of political representation, and inadequate schools in New York City between 1946 and 1954...Biondi's writing is crisp and direct. She introduces the reader to a host of activists whose efforts deserve to be remembered. Unfortunately, most of the causes they championed remain with us today. --Paul T. Murray, *MultiCultural Review* With stunning research and powerful arguments, Martha Biondi charts a new direction in civil rights history - the northern side of the black freedom struggle. Biondi presents postwar New York as a battleground, no less than the Jim Crow South, for the fight against police brutality and discrimination in employment, housing, retail stores, and places of amusement. Men and women, trade unionists and religious leaders, integrationists and separatists, liberals and the Left come together in this pathbreaking study of America's largest and most cosmopolitan city. --Evelyn Brooks Higginbotham, editor-in-chief of *The Harvard Guide to African-American History* *To Stand and Fight* brilliantly re-writes the history of postwar social movements in New York City. Martha Biondi has not only extended our view of the civil rights movement to the urban North, but she places the movement squarely within an international framework. She redefines the movement, focusing on the specific struggles that mattered: jobs, welfare, housing, police misconduct, political representation, and black people's ongoing battle for independence in the colonies. *To Stand and Fight* will stand out as a major contribution to an already burgeoning field of civil rights studies. --Robin D. G. Kelley, author of *Freedom Dreams: The Black Radical Imagination* *To Stand and Fight* establishes that New York was as important a battleground for racial equality as Montgomery or Birmingham. Martha Biondi has done a great service by uncovering the rich and largely forgotten history of New York's role in the African American freedom struggle. --Thomas J. Sugrue, author of *The Origins of the Urban Crisis: Race and Inequality in Postwar Detroit*

Hailed for its coiled eroticism and the moral claims it makes upon the reader, this mesmerizing novel is a story of love and secrets, horror and compassion, unfolding against the haunted landscape of postwar Germany. When he falls ill on his way home from school, fifteen-year-old Michael Berg is rescued by Hanna, a woman twice his age. In time she becomes his lover—then she inexplicably disappears. When Michael next sees her, he is a young law student, and she is on trial for a hideous crime. As he watches her refuse to defend her innocence, Michael gradually realizes that Hanna may be guarding a secret she considers more shameful than murder.

Winner of the Chicago Tribune's 2013 Heartland Prize A critically acclaimed history of Chicago at mid-century, featuring many of the incredible personalities that shaped American culture Before air travel overtook trains, nearly every coast-to-coast journey included a stop in Chicago, and this flow of people and commodities made it the crucible for American culture and innovation. In luminous prose, Chicago native Thomas Dyja re-creates the story of the city in its postwar prime and explains its profound impact on modern America—from Chess Records to Playboy, McDonald's to the University of Chicago. Populated with an incredible cast of characters, including Mahalia Jackson, Muddy Waters, Howlin' Wolf, Chuck Berry, Sun Ra, Simone de Beauvoir, Nelson Algren, Gwendolyn Brooks, Studs Turkel, and Mayor Richard J. Daley, *The Third Coast* recalls the prominence of the
