Savannah has been groomed since birth to take the reins of her father's manufacturing empire. Her emotional armor is as tough as

the steel used in her factories, and no man is allowed past it. Business partner Matt Kensington realizes that the key to entry is not to ask permission, but to command her submission. Calling on the unique sensual talents of his four-man management team, he engineers an aggressive takeover, determined to rescue the woman he's always loved from the steel cage she's

manufactured around her heart. Publishers Note: Originally published as part of the "Behind the Mask" Anthology by Ellora's Cave Publishing, Inc.

Achieving health care

that is safe, timely, effective, efficient, equitable, and patient-centered (STEEEP) is not an endpoint, but a journey. This journey requires a commitment to quality improvement (QI) from the highest levels of leadership combined with the interdependent development of several key components of health care delivery: administration and governance, clinical leadership, quality programs and expertise, data analytics, and accreditation. As each organization travels along its journey, these components must evolve at a common pace. With each component of a given phase of the quality journey firmly developed, the organization can

expect to advance to the next phase knowing that the requisite factors are aligned. Winner of a 2015 Shingo Research and Professional Publication Award Baylor Scott & White Health (BSWH) has formalized its commitment to quality with the adoption of the STEEEP framework supporting the Institute of Medicine's call for health care that is safe, timely, effective, efficient, equitable, and patient centered. This Shingo Prize-winning guide book is a companion to BSWH's recent book Achieving STEEEP Health Care. It presents practical approaches and tools, including sample workflows, forms, charters, and checklists, that health care delivery

organizations can use to organize, lead, execute, and measure the impact of their own improvement efforts. BSWH has traveled the QI journey during its 100 years as the largest not-for-profit health care system in Texas and one of the largest in the U.S. With a history of visionary care, its aim is to help others achieve the highest levels of quality and safety for their patients. Since April 2014, Secretarial Audit has become mandatory under the Companies Act, 2013.

Subsequently, SEBI has also mandated Secretarial Audit for material subsidiaries of a listed Company and obtaining a Compliance Certificate for submission to Stock Exchange. Alongwith this, MGT 7 is also required to be certified by a Practising Company Secretary whereby he/she has to confirm comprehensive compliance of the concerned company. Therefore, there are hundreds of compliances which companies have to do in a financial year and giving such a comprehensive

Compliance Certificate requires thorough knowledge, different perspective and techniques. This book covers the meaning, benefits, process, approach and entire scope of Secretarial Audit providing detailed checklists with respect to Companies Act, 2013, SEBI Regulations and FEMA Regulations which will be very useful for professionals not only while doing Secretarial Audit but also for routine certifications like MGT-7, MGT-8 or Compliance Certifications mandated under various laws. Equalization and Assessment College of Law Publishing Robert's Rules of Order Newly Revised, commonly referred to as Robert's Rules of Order, RONR, or simply Robert's Rules, is the most widely used manual of parliamentary procedure in the United States. It governs the meetings of a diverse range of organizations-including church groups, county commissions, homeowners associations, nonprofit associations, professional societies, school boards, and trade unions-that have adopted it as their parliamentary authority. The manual was first published in 1876 by .US Army officer Henry Martyn Robert, who adapted

the rules and practice of Congress to the needs of non-legislative societies. Ten subsequent editions have been published, including major revisions in 1915 and 1970. The copyright to Robert's Rules of Order Newly Revised is owned by the Robert's Rules Association, which selects by contract an authorship team to continue the task of revising and updating the book. The 11th and current edition was published in 2011. In 2005, the Robert's Rules Association published an official concise guide, titled Robert's Rules of Order Newly Revised In Brief. A second edition of the brief book was published in 2011. *The Guide to Achieving STEEPTM Health Care*

"Locus of Authority
argues that every issue
facing today's colleges
and universities, from
stagnant degree
completion rates to
worrisome cost
increases, is
exacerbated by a
century-old system of
governance that
desperately requires
change. While prior
studies have focused
on boards of trustees
and presidents, few
have looked at the
place of faculty within
the governance
system. Specifically
addressing faculty

roles in this structure,
William G. Bowen and
Eugene M. Tobin ask:
do higher education
institutions have what
it takes to reform
effectively from within?
Bowen and Tobin use
case studies of four
very different
institutions--the
University of California,
Princeton University,
Macalester College,
and the City University
of New York--to
demonstrate that
college and university
governance has
capably adjusted to the
necessities of the
moment and that
governance norms and
policies should be
assessed in the context
of historical events.
The authors examine
how faculty roles have
evolved since colonial
days to drive change
but also to stand in the
way of it. Bowen and

Tobin make the case that successful reform depends on the artful consideration of technological, financial, and cultural developments, such as the explosion in online learning. Stressing that they do not want to diminish faculty roles but to facilitate their most useful contributions, Bowen and Tobin explore whether departments remain the best ways through which to organize decision making and if the concepts of academic freedom and shared governance need to be sharpened and redefined. Locus of Authority shows that the consequences of not addressing college and university governance are more than the nation can afford"--
