& 2 Hachette Books

In 1963, just weeks before the original publication of this book, the last prisoner was escorted off Devil's Island and Alcatraz ceased to be a prison.

Author J. Campbell Bruce chronicles in spellbinding detail the Rock's transition from a Spanish fort to the maximum-security penitentiary that housed such infamous inmates as Robert Stroud, aka the Birdman of Alcatraz, and mobster Al "Scarface" Capone. The chapters describing the daring escape attempts by Frank Morris and two accomplices from this "inescapable" prison became the basis for the 1979 Clint Eastwood movie. Discover the intriguing and absorbing saga of Alcatraz, whose name is still synonymous with punitive isolation and deprivation, where America's most violent and notorious prisoners resided in tortuous proximity to one of the world's favorite cities. The true-crime classic first published in 1963 is reissued in this special edition. Includes archival photos of the prison and prison life. This story will appeal to Bay Area locals and tourists alike. Alcatraz hosts more than a million visitors each year.

An NPR Best Book of 2021 NYPL 10 Best Books for Adults, 2021 A story collection, in the vein of Carmen Maria Machado, Kelly Link, and Nana Kwame Adjei-Brenyah, spanning worlds and dimensions, using strange and speculative elements to tackle issues ranging from class differences to immigration to first-generation experiences to xenophobia What does it mean to be other? What does it mean to love in a world determined to keep us apart? These questions murmur in the heart of each of Brenda Peynado's strange and singular stories. Threaded with magic, transcending time and place, these stories explore what it means to cross borders and break down walls, personally and politically. In one story, suburban families perform oblations to cattlike angels who live on their roofs, believing that their "thoughts and prayers" will protect them from the world's violence. In another, inhabitants of an unnamed dictatorship slowly lose their own agency as pieces of their bodies go missing and, with them, the essential rights that those appendages serve. "The Great Escape" tells of an old woman who hides away in her apartment, reliving the past among beautiful objects she's hoarded, refusing all visitors, until she disappears completely. In the title story, children begin to levitate, flying away from their parents

and their home country, leading them to eat rocks in order to stay grounded. With elements of science fiction and fantasy, fabulism and magical realism, Brenda Peynado uses her stories to reflect our flawed world, and the incredible, terrifying, and marvelous nature of humanity.

Music defines us. To return the favor, we'll stick up with zealous passion for the performers and bands that we love . . . and heap aspersions and ridicule upon people who dare to place their allegiances above our own. In *Rock and Roll Cage Match*, today's leading cultural critics, humorists, music journalists, and musicians themselves take sides in thirty of the all-time juiciest "who's better" musical disputes. Marc Spitz on the Smiths vs. the Cure: "If the Smiths are its James Dean, the Cure are the Marlon Brando of modern rock." Mick Stingley on Van Halen vs. Van Hagar: "Eddie Van Halen single-handedly (sometimes quite literally) conjured rapturous sounds, and reinvented the idea of what could be done with a guitar with his sleight of hand. . . . As for the lyrics . . . Where Roth had been nuanced and clever, relying on double entendres and sexual innuendo, Sammy was ham-fisted and cloying and just downright embarrassing. Gideon Yago on Nirvana vs. Metallica: "Here is why Nirvana will always be a better band than Metallica. It's not because they hit harder (they do). It's not because they are tighter (they're definitely not). . . . It's because Metallica is fundamentally about respecting rules—of metal, of production, of technicality—and Nirvana is about breaking those rules down in the pursuit of innovation. Metallica was metal. Nirvana was something else." Touré on Michael Jackson vs. Prince: "[Prince] was the wild son of Jimi, the younger brother of Rick James and Richard Pryor, the ultrasexual black Casanova who told you up front that he had a dirty mind . . . Michael held the opposite appeal. His music was often about escaping through dance or being hopeful about the world." Russ Meneve on Bruce Springsteen vs. Bon Jovi: "I really, truly mean it when I say, Mr. Springsteen, no disrespect . . . you are a legend. But in the Battle a da Jerz, when that thick chemical-waste smoke clears and the overly sprayed mall hair parts, the Jov man is the last man rockin'." Whitney Pastorek on Whitney Houston vs. Mariah Carey: "Frankly, dry recitations of figures are just too easily negated by simple things like, say, bringing up someone's horrible taste in choosing movie roles. Watch, I'll do it right now: Yes, Mariah has seventeen number one singles, and Whitney only eleven. But Whitney made *The Bodyguard*, which is basically a classic, and Mariah starred in *Glitter*, a colossal suckfest of crapitude that should disqualify her on the spot."

The story of rock lives in Lynn Goldsmith's photographs. After coming of age in the Midwest in the tumultuous 1960s, she crashed the music scene in New York and emerged as one of its leading image-makers. She chronicled Bruce Springsteen's passage to glory, the Rolling Stones' legendary stadium tours, Michael Jackson's staggering ascent, U2's arrival in New York, and the brooding force of Bob Marley. Culture heroes like Bob Dylan and Patti Smith became frequent subjects for her lens. The range of her work is staggering. In *Rock and Roll Stories*, she shares the best of this work. Her commentary takes the reader into the studio, the tour bus, the concert hall, and the streets where the pictures were made, offering revealing perspectives on her subjects and herself. A greatly expanded and newly designed edition of her very successful book *PhotoDiary* (1995), this volume captures the story of a generation's loyalty to rock and roll.

Rock seeks to identify the decisive factors that can lead traditionally hostile nations toward amicable relations and contends that power relationships alone do not determine whether nations will be at peace with one another. He examines four interconnected cases of great power relations between 1895 and 1914 involving the United States, Great Britain, Germany, and France to test his hypothesis. Edgar Award Finalist: The story of the infamous escape attempt and bloody siege at Alcatraz. In 1946, six men attempted to break out of Alcatraz Federal Penitentiary, a maximum-security prison on an island off the coast of San Francisco. Their bloody siege lasted two days, and ended with five dead and fifteen wounded—plus two of the perpetrators executed for their role in the endeavor. In *Six Against the Rock*—the basis for a TV movie—an award-winning crime writer tells the story of this notorious event and the inmates who were involved, supplemented with vivid dramatic recreations that place the reader in the center of the conflict. "The personal clash between Coy and Cretzer over leadership of the desperate little band provides much of the suspense; Alcatraz itself, that logistical marvel of a fortress, provides the rest. And for a backdrop there are two platoons of Marines firing bazookas as well as something of the grim history of that most forbidding prison." —Kirkus Reviews, starred review

How to Rock Break-Ups and Make-Ups

Babes in Toyland burst onto the Minneapolis music scene in the late 1980s and quickly established itself at the forefront of punk/alternative rock. The all-female trio featured a shy, seventeen-year-old Jewish teen from the suburbs on bass guitar—an instrument she had never played before joining the band. Over the next few years, Michelle Leon lived the rock-and-roll lifestyle—playing live concerts, recording in studios, touring across the United States and Europe, and spending endless hours in stuffy vans, staying in two-star motels, and sleeping on strangers' couches in town after town. The

grind and drama of life in the band gradually wore on Leon, however, and a heartbreaking tragedy led her to rethink her commitment to the band and the music scene. Leon's sensitive, sensory prose puts readers right on stage with Babes in Toyland while also conveying the uncertainty, vulnerability, and courage needed by a girl who never felt like she fit in to somehow find her place in the world. "A crucial and compelling account of what it was to be a woman making music in the nineties. . . . Fantastic and ferocious."—Jessica Hopper, music and culture critic and author of *The First Collection of Criticism by a Living Female Rock Critic* "Profound, poetic, badass, tender, and inspiring."—Will Hermes, author of *Love Goes to Buildings on Fire* "I Live Inside feels as real and personal as reading your own memories. . . . Parts read like a fairy tale while others are so haunting they will never leave

you."—Kelli Mayo, musician (Skating Polly) "Leon draws you right into the Babes in Toyland van, shows you the after party tensions and what is in the mind of this particular girl in a band."—Darcey Steinke, author of *Sister Golden Hair: A Novel and others* "[Leon's] prose is stunning, her eye is wry, and her heart enormous; the result is a compelling memoir filled with pop culture, travel, intrigue, and a young artist's quest to find her voice."—Laurie Lindeen, musician (Zuzu's Petals) and author of *Petal Pusher: A Rock and Roll Cinderella Story* "By the end of this lyrical, tough, and moving memoir, you'll not only feel like you know Michelle Leon, you'll also want to talk and dance and listen to music with her."—Scott Heim, author of *Mysterious Skin and We Disappear* "A vivid, poetic memoir."—Mark Yarm, author of *Everybody Loves Our Town: An Oral History of Grunge* "This is Planet Leon."—David Markey, filmmaker, author, and musician
