The fascination with the British involvement in the First World War extends to all aspects of the conflict. The battles and their outcomes; the armies and their leaders; the conditions of trench warfare; and the controversies form part of the growing literature examining every aspect of a war that was to cast a shadow over the rest of the twentieth century, the effects of which are still being felt today. For the British army, the cap badge is the most easily identifiable form of insignia. It represents a distillation of the pride of the regiment, its various battle honors and symbols borne proudly on the metallic emblem that was worn on all headdress, even within the trenches. Identification of the cap badge on old photographs is a first, important step in unraveling the military service of an individual. Cap badges have been collected avidly since they were first thought of in the nineteenth century. Cap-badge collecting is as popular now as it has ever been; yet with a growing number of fakes and forgeries, there is a need for a book that illustrates clearly

the main types, and allows the collector and family historian alike to understand their meaning. Surprisingly, there are no real comprehensive web-based resources; and the available books (many of which are out of print), are often dull, arcane and poorly illustrated with grey, muddy images of otherwise spectacular badges. This book illustrates, for the first time in full color and high quality, images of the main types of badges used by the British Army in World War I. In addition, contemporary illustrations of the soldiers themselves wearing the badges, and the wider importance of their symbolism, is also included. Employing the skills of an established writer (and collector) and artist, it provides a unique reference guide for all people interested in the World War I.

This book examines the uniforms and badges of an almost forgotten group of soldiers - Don, Kuban, Terek and Siberian Cossack units that fought with the German Wehrmacht during World War II. With the cooperation of former members of many Cossack units the authors have collected a great deal of material - much of the information in this book appears in print here for the first time. Among the subjects covered are: Cossacks in the Imperial Russian Army; the uniforms and badges of the Cossacks in the Wehrmacht in World War II, including collar insignia, Cossack headgear, sleeve badges (arm shields), Cossack qualification badges, decorations awarded to Cossacks; flags and command symbols of the Cossack units.

Throughout the relatively short yet highly distinguished history of the Royal Air Force there has been a tendency for the men and women of the Service to be overshadowed by the glamour of the aircraft. Nonetheless it is surprising that there has never before been a complete record of the uniforms and badges of the RAF and its predecessor, the Royal Flying Corps. Malcolm Hobart and Pen and Sword Books have cooperated to rectify this serious omission with this superbly color illustrated and comprehensive collector's guide. Badges of rank and trade are all depicted not only for the flying arms but for ground staff. This valuable addition to our Collector series also covers the RAF Reserves and Auxiliary Service, Air Training Corps and the Royal Observer Corps.

"Badges and insignia are the heraldry of the services; they help us to trace their history and give us a fascinating insight into their varied and complex functions. This exhaustively researched and meticulously illustrated book collects together the badges and insignia worn by the personnel of the major air forces, navies and marine services who participated in World War II. Many lesser-known and unofficial badges have also been included and, where relevant, details of the historical background are given, making this one of the most comprehensive volumes available on this subject. Over 2,500 colour illustrations and a factual, informative text combine to produce a book which both the collector and the novice will find useful and absorbing. In their companion volume to British Army Cap Badges of the First World War, authors Peter Doyle and Chris Foster present an overview of the main cap badges worn by the British Army during the Second World War, which continued the rich and varied tradition of British regimental insignia. This book describes and illustrates, for the first time in high quality full colour, the main types of cap badge worn. With many amalgamations, war-raised units and special forces, British military insignia from the period have a surprising range that differs substantially from that worn by the soldiers of the previous generation. As in the first book, this volume contains contemporary illustrations of the soldiers themselves wearing the badges. Employing the skills of an established writer (and collector) and artist, it provides a unique reference guide for anyone interested in the British Army of the period.

As the continued research efforts of the staff of the Mackinac State Historic Parks produce studies of the history and archeology of this region, they will be published in this series. Relevant papers by non-staff members will also be included. Research by the Mackinac State Historic Parks is primarily directed toward the restoration, reconstruction, and interpretation of the historic sites of Fort Michilimackinac, Fort Mackinac, Mill Creek, and other historic structure in Mackinaw City and Mackinac Island. U. S. Army Medal, Badges and Insignia Bloomsbury Publishing

The remarkable war effort of the German armed forces on three fronts between 1939 and 1945 was recognised by a wider range of insignia than seen in the Allied armies. While the Wehrmacht displayed fewer unit insignia than the Allies, a glance at a German soldier's tunic could reveal much more about his actual combat experience. In this book an experienced researcher explains and illustrates the Battle and Assault Badges of the Army, Waffen-SS and Luftwaffe ground troops; the sleeve shields and cuffbands issued to mark service in particular campaigns; wound badges, commemorative medals, and other types of insignia.
