the principal of "ready, fire, aim" should guide the decision-making process in situations with time pressure and significant uncertainty; and uncover the secrets of effective leadership and governance. Contains step-by-step instructions for helping troubled organizations bounce back with vigor. Often quoted in the Wall Street Journal, the author is an authority on restructuring and

downsizing. Offers a handbook for implementing a successful corporate turnaround. James Shein's *Reversing the Slide* is full of insightful advice on what works, what does not, and why it will prove invaluable to executives, managers, and employees in helping troubled companies before it's too late.

The Art of Distressed M&A: Buying, Selling, and Financing

Troubled and Insolvent Companies

Wiley
How to steer your business through times of financial distress and achieve sustained profitability. *Corporate Turnaround Artistry* is a complete guide for entrepreneurial companies in times of financial distress—presenting effective strategies and proven methods to revive and rehabilitate your business. Uncertain

economic times have significantly altered the financial resources available to struggling businesses. Narrowing margins and mounting internal and external pressure has taken their toll on many companies. Fortunately, most businesses can be repaired while maintaining their existing revenue structure. Offering practical steps that go beyond simple cost-cutting

and sales-building advice, this invaluable guide teaches you how to control cash, secure financial relief, and develop a comprehensive turnaround plan that your employees, customers, and creditors will support. Business leaders and entrepreneurs often fall into the trap of assuming new debt when tough times strike. Author and Certified Turnaround Practitioner Jeff Sands shows that to many

struggling businesses, more money is no longer the answer to the problem. Expert advice on topics including cashflow stabilization, short and long-term profit sustainability, lean management techniques, and more, provides the framework to timely and efficient corporate turnaround. From identifying the initial cash crisis to meeting with creditors and developing a

small businesses as clients. **The Stress Test Every Business Needs** Taylor & Francis It was the most brutal corporate restructuring in Wall Street history. The 2015 bankruptcy brawl for the storied casino giant, Caesars Entertainment , pitted brilliant and ruthless private equity legends against the world's most relentless hedge fund wizards. In the tradition of Barbarians at

the Gate and The Big Short comes the riveting, multi-dimensional poker game between private equity firms and distressed debt hedge funds that played out from the Vegas Strip to Manhattan boardrooms to Chicago courthouses and even, for a moment, the halls of the United States Congress. On one side: Apollo Global Management and TPG Capital. On the other: the likes of Elliott Management,

Oaktree Capital, and Appaloosa Management. The Caesars bankruptcy put a twist on the old-fashioned casino heist. Through a \$27 billion leveraged buyout and a dizzying string of financial engineering transactions, Apollo and TPG—in the midst of the post-Great Recession slump—had seemingly snatched every prime asset of the company from creditors, with the notable exception of

Caesars Palace. But Caesars' hedge fund lenders and bondholders had scooped up the company's paper for nickels and dimes. And with their own armies of lawyers and bankers, they were ready to do everything necessary to take back what they believed was theirs—if they could just stop their own infighting. These modern financiers now dominate the scene in Corporate America as

their fight-to-the-death mentality continues to shock workers, politicians, and broader society—and even each other. In *The Caesars Palace Coup*, financial journalists Max Frumes and Sujeet Indap illuminate the brutal tactics of distressed debt mavens—vultures, as they are condemned—in the sale and purchase of even the biggest companies in the world with

billions of dollars hanging in the balance. J-Curve Exposure Peter Lang Pub Incorporated The work of Martin Schmuck empirically investigates the phenomenon of financial distress and corporate turnaround in the automotive supplier industry. Based on a sample of 194 publicly listed automotive suppliers, the effectiveness of managerial, operational,

foreword by Henry Kravis, Co-Chairman and Co-CEO of KKR, and special guest comments by senior PE professionals. 2) Private Equity in Action takes you on a tour of the private equity investment world through a series of case studies written by INSEAD faculty and taught at the world's leading business schools. The book is an ideal complement to Mastering Private Equity

and allows readersto apply core concepts to investment targets and portfolio companies in real-life settings. The 19 cases illustrate the managerial challenges and risk-reward dynamics common to private equity investment. Written with leading private equity firms and their advisors and rigorously tested in INSEAD's MBA, EMBA and executive education programmes,

each case makes for a compelling read. Corporate Transformation Springer Nature Leadership is never more crucial than when corporate survival is at stake. But the days of the tough guys are over. The leaders who are driving today's sustainable turnarounds understand that the answers to a distressed company's problems lie almost always within the firm itself - usually

at middle manager level and below. The secret is cooperation. Drawing on interviews with top company doctors and advisers, as well as on the authors' own experience, *Leading Corporate Turnarounds* explores seven key leadership and management skills required for successful turnaround, and shows why quickly gaining the buy-in and trust of all stakeholders is the key to ultimate

success. Written by the founding directors of the Society of Turnaround Professionals (STP), with a proposed Foreword by the Society's Patron Sir John Harvey-Jones. Considers the different drivers of turnaround, the alternatives to it, and the restructuring processes required to move beyond crisis stabilization to sustainable change. Features international case studies from leading

companies including BT, Virgin Express, Arthur Andersen, Parmalat, GE, Lee Cooper, New Look and IBM. *Bankruptcy and Insolvency Accounting, Volume 1* Academic Press. PRAISE FOR DISTRESS INVESTING "Marty Whitman has distilled decades of distressed investing experience into a text that is a must-read for everyone interested in

the field, whether a student or a professional investor." —WILBUR L. ROSS, Chairman and CEO, WL Ross & Co. LLC "Distress Investing: Principles and Technique represents a detailed and unique perspective on an arcane arena of investment that is going to get a lot more attention. Marty Whitman is the master, and has set the standard for many years." —SAM ZELL, Chairman, Equity Group Investments, LLC "Martin Whitman and Professor Diz have produced a seminal work on the ins and outs of distressed investing for all distressed debt investors. It is jam-packed with information and guidance for the novice and the experienced. A must-read for anyone interested in distressed investing." —LEWIS KRUGER, Stroock & Stroock & Lavan LLP "Marty Whitman, a legend in distress investing, packs decades of experience into these pages. The restructuring of the capital markets currently under way is sure to provide great distress investment opportunities, which this guide book can make count for you." —BRUCE FLATT, Brookfield Asset Management Inc. "The principles

found in this book are those I used in the reorganization of my business from bankruptcy to an S&P 500 company with an investment grade rating and a multibillion-dollar market capitalization. An excellent premier by Marty Whitman and Professor Diz, integrating economic theory with real-world investment to help investors of all shapes and sizes understand and invest in distressed

securities."

| prepackaged plans of reorganization to 363 sales to loan-to-own transactions | <u>A Research Companion</u> | one that seeks to attract credit using expressly defined statutory incentives, and a market-based one that relies on the business judgment of lenders against the backdrop of transaction avoidance rules. |
| The Art of Distressed M&A also highlights practical examples using recent bankruptcy cases following the Bankruptcy Abuse Prevention and Consumer Protection Act of 2005 and is the first publication of its kind since The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. | Beard Books This book focuses on the restructuring of distressed businesses, emphasizing the need for new financing during the restructuring process as well as during relaunch, and examines the role of law in encouraging creditor confidence and incentivizing lending. It describes two broad approaches to encouraging new finance during restructuring: a prescriptive | Securing new financing for a distressed business is a critical part of successful restructuring. Without such financing, the business may be unable to meet interim liquidity constraints, or |

to implement its restructuring plans. This book addresses related questions concerning the place of new financing as an essential component of restructuring. In general terms, the book explores how statutory interventions and the courts can provide support with contentious issues that arise from the provision of new financing, whether through new financing agreements or

through distressed debt investors, who are increasingly gaining prominence as sources of new financing for distressed businesses. It argues that courts play a key part in preventing or correcting the imbalances that can arise from the participation of distressed debt investors. In this context, it critically examines the distressed debt market in emerging markets like Nigeria and

the opportunity presented by non-performing loans, arguing that the regulatory pattern of market entry may disincentivize distress debt investing in a market that is in dire need of financing. The book offers a fresh and comparative perspective on restructuring new financing for distressed businesses by comparing various approaches (primarily from the US, UK and Germany) and

drawing lessons for frontier markets, with particular reference to Nigeria. It fills an important gap in international comparative scholarship and discusses a living problem with both empirical and policy aspects. Issue 2 2013: Journal of Corporate Restructuring, CreateSpace Corporate debt restructurings in the emerging markets have always presented special

challenges. Today, as the global economy emerges from the COVID-19 pandemic and businesses look to pick up the pieces, this is even more true. For many, the financial hangover of the lockdowns and market disruptions linger and threaten their independence, even their survival. This peril is more acute in the emerging and frontier markets. Weaker economic fundamentals and

institutional resiliency often intensify the challenge to return to pre-COVID-19 operating levels and financial sustainability. In this context, borrowers invariably must address the imbalance of substantial existing debt with the “new reality” of their business operations and revenues. This book, using case studies, presents a full, detailed narrative of a fictitious troubled bank in an

emerging market, with characters, dialogues, and negotiations. It also includes a series of discussion questions with suggested answers, to draw out key issues from the case. In doing so, this initial narrative offers a substantive analysis of the five main phases and principles of a restructuring: (1) pre-restructuring, (2) the decision to restructure, (3) the case set-up, (4)

structuring and negotiation, and lastly (5) implementation. In each chapter, the book outlines the main elements of the phases and shows how the elements are applied in practice. The book also presents separate chapters on exogenous shocks (with a focus on the COVID-19 pandemic as an example of such shocks), macroeconomics, and legal issues present in cross-border

restructurings. It will be of interest to the international professional financial and legal community, primarily junior-to mid-level financiers, business people, and lawyers. [Workouts and Turnarounds II](#) Springer Science & Business Media The definitive guide to private equity for investors and finance professionals Mastering Private Equity was written with a professional

audience in mind and provides a valuable and unique reference for investors, finance professionals, students and business owners looking to engage with private equity firms or invest in private equity funds. From deal sourcing to exit, LBOs to responsible investing, operational value creation to risk management, the book systematically distils the essence of private equity

into core concepts and explains in detail the dynamics of venture capital, growth equity and buyout transactions. With a foreword by Henry Kravis, Co-Chairman and Co-CEO of KKR, and special guest comments by senior PE professionals.
