The new book,
SCIENCE OF
PROPAGATION

(DAWA'H), is about Dawah methodology: Science of Propagation (علم الدعوة) is a new dimension of thought process which has not been mentioned in the Islamic literature. However, Allah (SWT) has introduced the matter of Dawah in a scientific way in the verse 125 of Nahal where the philosophical terms Wisdom, Sermonizing and Argument are connected in a logical fashion.

Therefore, in the present book the wisdom triangle, wisdom process triangle, Dawah methodology, structure and decision making process of a Dawah organization, perspectives of sermon, science of argument, and few topics of argument that usually a Daa'ee faces during Islamic Dawah works are explained. To explain the subject matters, 20 (twenty) figures and 5

(five) tables have been introduced. **Tajweed Made Easy** Goodword Books Professor Abdur Rahim's eight-volume texts enable the student to acquire a knowledge of Arabic in the classical structural form. All of the books teach essential language skills through applied grammar. Each lesson is based on a conversation which illustrates distinctive language

patterns. A variety of exercises helps the student to understand and master each of the patterns occurring in the lesson. The vocabulary ranges from classical and Quranic Arabic to words and expressions current in modern Arabic. This series of books is currently being utilized at various schools to prepare students for the University of London (UK) GCE O-

Level and A-Level examinations. **Pir-e-kamil** Shaikh Akhlaqu-e-Rasul this small and useful book is very useful for non-arabic speaking Muslims he will present the basic requirements for the foundation of their aqeedah (creed) and Ibadah (worship). grace, this is the second part of the "Tajweed Guide to Read Right" for the recitation of Hafs 'An 'Aasim by the way of Shaatibiyah This Tajweed book is a humble attempt to look into the science of Tajweed for the people of the Qur'an. We pray that Allah makes it a tool to simplify and clarify the study the science of Tajweed. These books cannot be taught without a qualified

teacher, therefore I decided to add tutorial videos to provide step by step explanations with practical applications for those who cannot find a qualified teacher. As stated before in book one, this book will discuss the theoretical rules of Tajweed such as: articulation points (Makharij), characteristics of letters (Sifaat), the rules of Laam, and the relationship between two

meeting letters. Other lessons are considered a supplement to some of the lessons that are described in book one: The rules of Isti'aatha and Basmalah, Levels of Tafkheem, the rule of the stronger of the two causes of lengthening which is considered an addition to Madd lessons, also the meeting of Hamzatul Qat' and Hamzatul Wasl in one word. The pictures and the main source of

reference used in this book are based on Shaykh Ayman Swayd's popular TV-Series "Itqan " I pray, that these books are accepted by Allah, by sincerely making this effort for his pleasure, and that Allah makes it a means of benefit for the Ummah. faith that for much of the West remains shrouded in ignorance and fear. Adapted for young readers from No god but God: The Origins, Evolution, and Future of Islam, this exploration of Islam by Reza Aslan, internationally acclaimed scholar of comparative religion, delves into the rituals and traditions of a religion that is largely misunderstood by the West. It covers the religion's origins—the

revelation of Muhammad as Prophet and the subsequent uprising against him, and the emergence of his successors—as well as Islam's complex history. No god but God is sure to stimulate discussion and encourage understanding of the Islamic faith and the people who follow it.
