The Young Composers BlueRose Publishers

Lucille M. Schultz's *The Young Composers: Composition's Beginnings in Nineteenth-Century Schools* is the first full-length history of school-based writing instruction. Schultz demonstrates that writing instruction in nineteenth-

century American schools is much more important in the overall history of writing instruction than we have previously assumed. Drawing on primary materials that have not been considered in previous histories of writing instruction—little-known textbooks and student writing that includes prize-winning essays, journal entries, letters, and articles written for school newspapers—Schultz shows that in nineteenth-century American schools, the voices of the British rhetoricians that dominated college writing instruction were attenuated by the voice of the Swiss education reformer Johann Heinrich Pestalozzi. Partly through the influence of Pestalozzi's thought, writing instruction for children in schools became child-centered, not just a replica or imitation of writing instruction in the colleges. It was also in these nineteenth-century American schools that personal or experience-based writing began and where the democratization of writing was institutionalized. These schools prefigured some of our contemporary composition practices: free writing, peer editing, and the use of illustrations as writing prompts. It was in these schools, in fact, where composition instruction as we know it today began, Schultz argues. This book features a chapter on the agency of textbook iconography, which includes illustrations from nineteenth-century composition books as well as a cultural analysis of those illustrations. Schultz also includes a lengthy bibliography of nineteenth-century composition textbooks and student and school newspapers.

As the book covers varied aspects of English language, it for sure will help aspirants score high in the upcoming national and state level competitive and recruitment examinations.

Grammar Intermediate & Advanced

Cambridge University Press

A few years ago, a magazine sponsored a contest for the comment most likely to end a conversation. The winning entry?

"I teach English grammar." Just throw that line out at a party; everyone around you will clam up or start saying "whom."

Why does grammar make everyone so nervous? Probably because English teachers, for decades – no, for centuries – have been making a big deal out of grammar in classrooms, diagramming sentences and drilling the parts of speech, clauses, and verbals into students until they beg for mercy.

Happily, you don't have to learn all those technical terms of English grammar – and you certainly don't have to diagram sentences – in order to speak and write correct English. So rest assured – English Grammar For Dummies will probably never make your English teacher's top-ten list of must-read books, because you won't have to diagram a single sentence. What you will discover are fun and easy strategies that can help you when you're faced with such grammatical dilemmas as the choice between "I" and "me," "had gone" and "went," and "who" and "whom." With English Grammar For Dummies, you won't have to memorize a long list of meaningless rules (well, maybe a couple in the punctuation chapter!), because when you understand the reason for a particular word choice,

you'll pick the correct word automatically. English Grammar For Dummies covers many other topics as well, such as the following: Verbs, adjectives, and adverbs – oh my! Preposition propositions and pronoun pronouncements Punctuation: The lowdown on periods, commas, colons, and all those other squiggly marks Possession: It's nine-tenths of grammatical law Avoiding those double negative vibes How to spice up really boring sentences (like this one) Top Ten lists on improving your proofreading skills and ways to learn better grammar Just think how improving your speaking and writing skills will help you in everyday situations, such as writing a paper for school, giving a presentation to your company's big wigs, or communicating effectively with your family. You will not only gain the confidence in knowing you're speaking or writing well, but you'll also make a good impression on those around you!

Ranjesh's Practical Global English Grammar, Composition & Usages- Volume - 1A Arihant Publications India limited

English is globally recognized language for cross-border business communication. A Handbook for Letter Writing GMAT Club

Learn English Grammar in 2 Weeks is a peerless book for those who are interested in having a written and spoken command of the English language. The fascination of this international language is unmatched. But it is replete with pitfalls which must be carefully avoided if one does not want to become a butt of laughter either in written or spoken English. Let us quote from the book itself; ♥♥A student of the English language ought to know the difference between 'English' and 'the English'♥♥ This book is a treasure house of modern and current usage in English. As one flips through the pages of the book; one gains in knowledge and confidence The mystery of the English

language unfolds itself in every page of this wonderful treatise. It is a single volume book that combines source grammar and practice exercises while explaining the rules of grammar and tackling seemingly contradictory rules. Since the book is for students of an Intermediary level, concise explanations are provided. It focuses on topics like grammar contrasts (whether to use 'would' or 'used to' in past tense construct) and grammar patterns for example will be going among others. What will you Learn from THE BEST BOOK OF ENGLISH GRAMMAR ✓ The book also explores more than hundred units of grammar concepts and each unit

is allocated two pages. While the left hand page is filled with grammar concepts with concise examples, the facing page comprises of practice exercises. ✓ This format has been followed to ensure that each point is brief but comprehensive. ✓ The book has been designed in such a way that it gives students freedom to choose what unit they want to practice. ✓ The order of the book does not need to be strictly followed as it is a revision guide and each topic is complete and self contained. Therefore, a student can just begin from the middle of the book, concentrate on the unit he or she finds difficulty in. If a student gets stuck at a certain exercise.
