New Approaches Oxford  
University Press  
Attempting to bridge the  
gap between specialised  
scholarship in the  
humanistic disciplines and  
an interdisciplinary  
project of cultural  
analysis, Mieke Bal has  
written an intellectual  
travel guide that charts

the course 'beyond'  
cultural studies. As with  
any guide, it can be used  
in a number of ways and  
the reader can follow or  
willfully ignore any of the  
paths it maps or  
signposts. Bal's focus for  
this book is the idea that  
interdisciplinarity in the  
humanities - necessary,  
exciting, serious - must  
seek its heuristic and  
methodological basis in  
concepts rather than its  
methods. Concepts are

not grids to put over an  
object. The counterpart of  
any given concept is the  
cultural text or work or  
'thing' that constitutes the  
object of analysis. No  
concept is meaningful for  
cultural analysis unless it  
helps us to understand  
the object better on its  
own terms. Bal offers the  
reader a sustained  
theoretical reflection on  
how to 'do' cultural  
analysis through a  
tentative practice of doing

just that. This offers a concrete practice to theoretical constructs, and allows the proposed method more accessibility. Please note: illustrations have been removed from the ebook at the request of the rightsholder.

**Essays on Theory, Film, and Fiction** Lulu.com

Italo Calvino was due to deliver the Charles Eliot Norton lectures at Harvard in 1985-86, but they were left unfinished at his death. The surviving drafts explore of the concepts of Lightness,

Quickness, Multiplicity, Exactitude and Visibility (Constancy was to be the sixth) in serious yet playful essays that reveal Calvino's debt to the comic strip and the folktale. With his customary imagination and grace, he sought to define the virtues of the great literature of the past in order to shape the values of the future. This collection is a brilliant précis of the work of a great writer whose legacy will endure through the millennium he addressed. Italo Calvino, one of Italy's

finest postwar writers, has delighted readers around the world with his deceptively simple, fable-like stories. Calvino was born in Cuba in 1923 and raised in San Remo, Italy; he fought for the Italian Resistance from 1943-45. His major works include *Cosmicomics* (1968), *Invisible Cities* (1972), and *If on a winter's night a traveler* (1979). He died in Siena in 1985, of a brain hemorrhage.

The 1960s and 1970s were the heyday of spaghetti westerns--low-budget films about the

early American West mostly filmed in Italy. Though sometimes derided as excessively violent imitations of American-made westerns, they attracted a substantial following that has endured. With its classic elements of gunfights, gambling, heroes, sidekicks, love, and death, the genre is now perceived by critics as an intriguing object of study. This book analyzes the construction of the stories presented in spaghetti westerns. It examines the content of

the Italian western using concepts and constructs borrowed from scholars studying "pre-industrial" narratives. Plot, the constellation of characters, their relationship to each other, and their motives are studied. Films examined in detail include the seminal *A Fistful of Dollars* as well as *Django*, *For a Few Dollars More* and *The Good, the Bad and the Ugly*. There is also a discussion of the early spaghetti westerns. The study then probes the elements of bounty

hunters, the deprived hero, partnerships, betrayal, and comedy. An appendix details the top grossing Italian westerns between 1964 and 1975, including title, director, lead actor and intake. A second appendix provides a list of films quoted by Italian title and then by English title.

**Cesare** Columbia University Press

In this brilliant and vivid study of life in New York City during the years between the creation of the republic and the Civil

War, a distinguished historian explores the position of men and women in both the poor and middle classes, the conflict between women of the laboring poor and those of the genteel classes who tried to help them and the ways in which laboring women traced out unforeseen possibilities for themselves in work and in politics. Christine Stansell shows how a new concept of womanhood took shape in America as middle-class women constituted themselves the moral

guardians of their families and of the nation, while poor workingwomen, cut adrift from the family ties that both sustained and oppressed them, were subverting—through their sudden entry into the working and political worlds outside the home—the strict notions of female domesticity and propriety, of “woman’s place” and “woman’s nature,” that were central to the flowering and the image of bourgeois life in America. Here we have a passionate and enlightening portrait of

New York during the years in which it was becoming a center of world capitalist development, years in which it was evolving in dramatic ways, becoming the city it fundamentally is. And we have, as well, a radically illuminating depiction of a class conflict in which the dialectic of female vice and virtue was a central issue. *City of Women* is a prime work of scholarship, the first full-scale work by a major new voice in the fields of American and urban history.

### **THE HISTORY OF ITALO**

**DISCO** Faber & Faber Script and writing were among the most important inventions in human history, and until the invention of printing, the handwritten book was the primary medium of literary and cultural transmission. Although the study of manuscripts is already quite advanced for many regions of the world, no unified discipline of 'manuscript studies' has yet evolved which is capable of treating handwritten books from East Asia, India and the Islamic

world equally alongside the European manuscript tradition. This book, which aims to begin the interdisciplinary dialogue needed to arrive at a truly systematic and comparative approach to manuscript cultures worldwide, brings together papers by leading researchers concerned with material, philological and cultural aspects of different manuscript traditions. Wesleyan University Press  
ITALO DISCO STORY. Il dominio italiano sulla 'dance culture' degli anni

'80. Analisi di un fenomeno musicalmente e artisticamente dominante che, a distanza di quasi trent'anni dal suo avvento, vanta milioni di cultori e di appassionati in ogni parte del mondo. Snobbato dalla critica, dai media tradizionali e dalle majors della musica, l'Italo Disco rimane ancora un fenomeno 'tutto italiano' commercialmente ineguagliato, ma poco compreso ed, in massima parte, sconosciuto. *Travelling Concepts in the Humanities* Vintage

A sparkling new translation of the classic work on violence and revolution as seen through mythology and art The Ruin of Kasch takes up two subjects: "the first is Talleyrand, and the second is everything else," wrote Italo Calvino when the book first appeared in 1983. Hailed as one of those rare books that persuade us to see our entire civilization in a new light, its guide is the French statesman Charles-Maurice de Talleyrand, who knew the

secrets of the ancien régime and all that came after, and was able to adapt the notion of "legitimacy" to the modern age. Roberto Calasso follows him through a vast gallery of scenes set immediately before and after the French Revolution, making occasional forays backward and forward in time, from Vedic India to the porticoes of the Palais-Royal and to the killing fields of Pol Pot, with appearances by Goethe and Marie Antoinette, Napoleon and

Marx, Walter Benjamin and Chateaubriand. At the centre stands the story of the ruin of Kasch, a legendary kingdom based on the ritual killing of the king and emblematic of the ruin of ancient and modern regimes.

'Startling, puzzling, profound . . . a work charged with intelligence and literary seduction'  
The New York Times  
'Unique, idiosyncratic and vaultingly ambitious... essential reading'  
Independent 'A great fat jewel-box of a book, gleaming with obscure

treasures' John Banville  
Subject catalog Lulu.com  
For over 2500 years, Buddhism was implicated in processes of cultural interaction that in turn shaped Buddhist doctrines, practices and institutions. While the cultural plurality of Buddhism has often been remarked upon, the transcultural processes that constitute this plurality, and their long-term effects, have scarcely been studied as a topic in their own right. The contributions to this volume present detailed

case studies ranging across different time periods, regions and disciplines, and they address methodological challenges as well as theoretical problems. In addition to casting a spotlight on topics as diverse as the role of trade contacts in the early spread of Buddhism, the hybrid nature of religious practices in Japan or Indo-Tibetan relations in Tibetan polemical literature, the individual papers jointly raise the question as to whether there might be something

distinct about how Buddhism steers and influences forms of cultural exchange, and is in turn shaped by modalities of cultural interaction throughout Asian, as well as global, history. The volume is intended to demonstrate the need for investigating transcultural dynamics more closely in the study of Buddhism, and to suggest new avenues for Buddhist Studies.

### **The Story of Italian**

**Terrorism** Bloomsbury Publishing USA

The European Union and the single currency have given Europe more stability than it has known in the past thousand years, yet Europe seems to be in perpetual crisis about its global role. The many European empires are now reduced to a

multiplicity of ethnicities, traditions, and civilizations. Europe will never be One, but to survive as a union it will have to become a federation of "islands" both distinct and connected. Though drawing on philosophers of Europe's past, Cacciari calls not to resist Europe's sunset but to embrace it. Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about

the European legacy. Though scarcely alive in today's politics, the political unity of Europe is still a necessity, however impossible it seems to achieve.

*Athenian Potters and Painters III* Walter de Gruyter GmbH & Co KG Athenian Potters and Painters III presents a rich mass of new material on Greek vases, including finds from excavations at the Kerameikos in Athens and Despotiko in the Cyclades. Some contributions focus on painters or workshops ð

Paseas, the Robinson Group, and the structure of the figured pottery industry in Athens; others on vase forms Ð plates, phialai, cups, and the change in shapes at the end of the sixth century BC. Context, trade, kalos inscriptions, reception, the fabrication of inscribed painters' names to create a fictitious biography, and the reconstruction of the contents of an Etruscan tomb are also explored. The iconography and iconology of various types of figured scenes on Attic

pottery serve as the subject of a wide range of papers Ð chariots, dogs, baskets, heads, departures, an Amazonomachy, Menelaus and Helen, red-figure komasts, symposia, and scenes of pursuit. Among the special vases presented are a black spotlight stamnos and a column krater by the Suessula Painter. Athenian Potters and Painters III, the proceedings of an international conference held at the College of William and Mary in

Virginia in 2012, will, like the previous two volumes, become a standard reference work in the study of Greek pottery. *Library of Congress Catalog* Fordham Univ Press

Six Memos for the Next Millennium Springer

Quanto descritto fra le pagine di questo libro ha però una stretta connessione con uno dei momenti cruciali della storia di Roma. A tal fine si è ritenuto opportuno raccontare di eventi e di uomini storicamente esistiti, affiancati da pochi personaggi di fantasia per ovvie necessità di trama. Per quanto verosimile, il "plot" è stato adattato alle esigenze di sviluppo narrativo senza modificare, sia pur

minimamente, le caratteristiche del principale avvenimento intorno al quale ruota l'intera vicenda e che si è inteso definire "Il Segreto di Giulio Cesare."

### **Reconfiguring the Margins**

Walter de Gruyter GmbH & Co KG  
For more than fifteen years, *Nomadic Subjects* has guided discourse in continental philosophy and feminist theory, exploring the constitution of contemporary subjectivity, especially the concept of difference within European

philosophy and political theory. Rosi Braidotti's creative style vividly renders a productive crisis of modernity. From a feminist perspective, she recasts embodiment, sexual difference, and complex concepts through relations to technology, historical events, and popular culture. This thoroughly revised and expanded edition retains all but two of Braidotti's original essays, including her investigations into epistemology's relation to the "woman question;" feminism and biomedical

ethics; European feminism; and the possible relations between American feminism and European politics and philosophy. A new piece integrates Deleuze and Guattari's concept of the "becoming-minoritarian" more deeply into modern democratic thought, and a chapter on methodology explains Braidotti's methods while engaging with her critics. A new introduction muses on Braidotti's provocative legacy.

### **Buddhism and the Dynamics of**

### **Transculturality** Oxbow Books

"Technologies of Gender builds a bridge between the fashionable orthodoxies of academic theory (Lacan, Foucault, Derrida, et al.) and the frequently-marginalized contributions of feminist theory. . . . In sum, de Lauretis has written a book that should be required reading for every feminist in need of theoretical ammunition—and for every theorist in need of feminist enlightenment." —B. Ruby Rich " . . . sets

philosophical ideas humming. . . . she has much to say." —Cineaste "I can think of no other work that pushes the debate on the female subject forward with such passion and intellectual rigor." —SubStance This book addresses the question of gender in poststructuralist theoretical discourse, postmodern fiction, and women's cinema. It examines the construction of gender both as representation and as self-representation in relation to several kinds of

texts and argues that feminism is producing a radical rewriting, as well as a rereading, of the dominant forms of Western culture.

**The Twenty Days of**

**Turin: A Novel** New

Directions Publishing

This book is the first dedicated volume of academic analysis on the monumental work of Elena Ferrante, Italy's most well-known contemporary writer. The Works of Elena Ferrante: Reconfiguring the Margins brings together the most exciting and innovative

research on Ferrante's treatment of the intricacies of women's lives, relationships, struggles, and dilemmas to explore feminist theory in literature; questions of gender in twentieth-century Italy; and the psychological and material elements of marriage, motherhood, and divorce. Including an interview from Ann Goldstein, this volume goes beyond "Ferrante fever" to reveal the complexity and richness of a remarkable oeuvre. *Music* McFarland

The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries in which the movement, initiated by F.T. Marinetti in 1909, exercised a particularly noteworthy influence. The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty-eight countries. While acknowledging the great

achievements of the movement in the visual and literary arts of Italy and Russia, it treats Futurism as an international, multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the

early twentieth-century avant-garde. Hundreds of artists, who in some phase in their career absorbed Futurist ideas and stylistic devices, are presented in the context of their national traditions, their international connections and the media in which they were predominantly

active. The handbook acts as a kind of multi-disciplinary, geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact.
