In this magical debut -- a finalist for the Pulitzer Prize -- a couple's lives are changed forever by the arrival of a little girl, wild and secretive, on their snowy doorstep. Alaska, 1920: a brutal

place to homestead, and especially tough for recent arrivals Jack and Mabel. Childless, they are drifting apart--he breaking under the weight of the work of the farm; she crumbling from loneliness and despair. In a moment of levity during the season's first snowfall, they build a child out of snow. The next morning the snow child is gone-- but they glimpse a young, blonde-haired girl running

through the trees. This little girl, who calls herself Faina, seems to be a child of the woods. She hunts with a red fox at her side, skims lightly across the snow, and somehow survives alone in the Alaskan wilderness. As Jack and Mabel struggle to understand this child who could have stepped from the pages of a fairy tale, they come to love her as their own daughter. But in this beautiful, violent

place things are rarely as they appear, and what they eventually learn about Faina will transform all of them.

The true story of the remarkable John Rae - Arctic traveller and Hudson's Bay Company doctor - FATAL PASSAGE is a tale of imperial ambition and high adventure. In 1854 Rae solved the two great Arctic mysteries: the fate of the doomed Franklin expedition and the

location of the last navigable link in the Northwest Passage. But Rae was to be denied the recognition he so richly deserved. On returning to London, he faced a campaign of denial and vilification led by two of the most powerful people in Victorian England: Lady Jane Franklin, the widow of the lost Sir John, and Charles Dickens, the most influential writer of the age. A remarkable story of courage and determination, FATAL PASSAGE is Ken McGoogan's passionate

redemption of Rae's rightful place in history. In this richly documented and illustrated work, McGoogan captures the essence of one man's indomitable spirit. Drawing on fresh

archeological evidence, recent research on topics ranging from survival rates to snowfall totals, and heartbreaking letters and diaries made public by descendants a century-and-a-half after the tragedy, Rarick offers an intimate portrait of the Donner Party and their unimaginable ordeal: a mother who must divide her family, a little girl who shines with courage, a devoted wife who refuses to abandon her husband, a man who risks his life merely to keep his word. *Mendocino National Forest*

She is surrounded by dead lakes, fake facts, Open Carry maniacs, and oodles of online advice about survivalism, veil toss duties, and how to be more like Jane Fonda. But

what do you do when you keep stepping on your son's toy tractors, your life depends on stolen land and broken treaties, and nobody helps you when you get a flat tire on the interstate, not even the Abominable Snowman? When are you allowed to start swearing? With a torrent of consciousness and an intoxicating coziness, Ducks, Newburyport lays out a whole world for you to tramp around in, by turns frightening and funny. A heart-rending indictment of America's

Farewell To Manzanar

Former Navy air rescue swimmer Brian Dickinson was roughly 1,000 feet from the summit of Mount Everest—also known as “the death zone”—when his Sherpa became ill and had to turn back, leaving Brian with a difficult decision: Should he continue to push for the

summit or head back down the mountain? After carefully weighing the options, Brian decided to continue toward the summit—alone. Four hours later, Brian solo summited the highest peak in the world. But the celebration was short lived. After taking a few pictures, Brian radioed his team to let them know he had summited safely and began his descent. Suddenly, his vision became blurry, his eyes started to burn, and within seconds, he was rendered almost

completely blind. All alone at 29,035 feet, low on oxygen, and stricken with snow blindness, Brian was forced to inch his way back down the mountain relying only on his Navy survival training, instincts, and faith. In *Blind Descent*, Brian recounts his extraordinary experience on Mount Everest, demonstrating that no matter how dire our circumstances, there is no challenge too big for God.

From July to November 1833, Joseph R. Walker

led a brigade of fifty-eight fur trappers, with two hundred horses and a year's provisions, from the Rocky Mountains of Wyoming to the Pacific coast of central California. Toward the end of their journey the Walker brigade crossed the Sierra Nevada, becoming the first non-Native people to traverse the range from east to west. That crossing, made long and brutal by bewildering terrain and deep snow, is widely and rightly considered a milestone in the exploration of

intermontane North America. Following Walker's death in 1876, an alluring tale arose concerning his trans-Sierran route. In the course of the crossing, goes the story, Walker found himself on the northern rim of Yosemite Valley at the plungepoint of North America's tallest waterfall, staring into the most awesome mountain chasm on the continent. Over the decades since then, this time-honored tale has hardened to folklore. Dozens of historical works have

construed it as a towering moment in the opening of the West. But in fact this tale of Yosemite's discovery has no basis or support in firsthand accounts of the 1833 Sierran crossing. Moreover, there is much in those accounts that contradicts Yosemite lore, and much that points to a trans-Sierran route well north of Yosemite Valley. In *A Way Across the Mountain*, Scott Stine reconstructs Walker's 1833 route over the Sierra. Stine draws on his own intimate knowledge

of the geomorphology, hydrography, biogeography, and climate of the Sierra Nevada and Great Basin, and employs the detailed travel narrative of the Walker brigade's field clerk, Zenas Leonard. Stine documents the inception, growth, and persistence of the Yosemite Myth and explores the extent to which that lore has overshadowed Walker's greatest discovery—that the huge swath of continent between the Wasatch Front and the

Sierran crest is hydrographically closed, draining not to an ocean, but to salty lakes and desert sands.

At the Mountains of Madness, Lovecraft's incontrovertible masterpiece, written in February-March 1931, is a story details the events of a disastrous expedition to the barren, windswept Antarctic continent, where the secret history of our planet is preserved, amidst the ruins of its first civilization, in September

1930, and what was found there by a group of explorers led by the narrator, Dr. William Dyer of Miskatonic University. Throughout the story, Dyer details a series of previously untold events in the hope of deterring another group of explorers who wish to return to the continent. It uncovers strange fossils and mind-blasting terror. Since it was originally serialized in the February, March, and April 1936 issues of *Astounding Stories* during the classic pulp era, 'At the

Mountains of Madness' has influenced both horror and science fiction worldwide. Lovecraft scholar S.T. Joshi describes the novella as representing the decisive "demythology" of the Cthulhu Mythos by reinterpreting Lovecraft's earlier supernatural stories in a science fiction paradigm.

Bird of Another Heaven

Harper Collins

From the acclaimed author of *Snow Mountain Passage* comes this richly evocative novel that follows a half-Indian, half-Hawai'ian woman and her complex relationship with the last king of

Hawai'i. When talk show host Sheridan Brody finds the journals of his great grandmother Nani Keala (aka Nancy Callahan), he uncovers a mythic, unknown tale. Nani, a shy girl from a remote Indian village, met the Hawai'ian king, David Kalakaua, on his grand progress by train across the United States in 1881, eventually returning with him to Honolulu. There, as his young ally and protégée, ever more assured and charming, she played an integral role in his attempt to revive the

monarchy and spirit of his people and, eventually, witnessed the mysterious circumstances surrounding his downfall. Deeply engaging through its vivid portrayal of California and Hawai'i at the end of the nineteenth century, *Bird of Another Heaven* is a masterful portrait of an era long past.

Crockett on narrative voice and an especially cold winter: What was your inspiration for *After the Snow*? Well, apart from the unbelievably cold winter during which I was writing—in an unheated house, chopping logs and digging my car out of the snow; I think much of the inspiration for the settings in *After the*

Snow came from my various travels. In my twenties I worked as a timber buyer in the Caucasus Mountains of southern Russia, and that work led to travels in Eastern Europe and Armenia. As soon as I step off the plane in those places it smells like home. It may sound strange to say, when *After the Snow* is set in Wales, but really the practical dilemmas in the book come directly from places I've been, people I've lived with, and the hardships I've seen endured with grace and

capability. I was in Russia not long after the Soviet Union collapsed and I've seen society in freefall. Without realizing it at the time I think those experiences led me to dive into *After the Snow* with real passion. What would western civilization look like with a few tumbles under its belt? What would happen if the things we took for granted disappeared? I wanted to write a gripping story about that scenario, but hardly felt that I was straying into fantasy in the detail. What do you

want readers to most remember about *After the Snow*? We all have the capacity to survive, but in what manner? What do we turn to in those times of trouble? Those are the questions I would like people to contemplate after reading *After the Snow*. How did Willo's unique voice come to you? Willo's voice appeared in those crucial first few paragraphs. After that it just grew along with his world and the terrible situations that arise. I think his voice is in all of us. We don't

understand, we try to make good—maybe we find ourselves. How did you stay warm while writing this novel? I banked up the fire—and was warmed by hopes of spring.

"WESTWARD HO! FOR OREGON AND CALIFORNIA!" In the eerily warm spring of 1846, George Donner placed this advertisement in a

local newspaper as he and a restless caravan prepared for what they hoped would be the most rewarding journey of a lifetime. But in eagerly pursuing what would a century later become known as the "American dream," this optimistic-yet-motley crew of emigrants was met with a chilling nightmare; in the following months, their jingoistic excitement would be replaced by desperate cries for help that would fall silent in the deadly snow-covered mountains of the Sierra

Nevada. We know these early pioneers as the Donner Party, a name that has elicited horror since the late 1840s. With *The Best Land Under Heaven*, Wallis has penned what critics agree is “destined to become the standard account” (*Washington Post*) of the notorious saga. Cutting through 160 years of myth-making, the “expert storyteller” (*True West*) compellingly recounts how the unlikely band of early pioneers met their fate. Interweaving information from hundreds of newly

uncovered documents, Wallis illuminates how a combination of greed and recklessness led to one of America’s most calamitous and sensationalized catastrophes. The result is a “fascinating, horrifying, and inspiring” (*Oklahoman*) examination of the darkest side of Manifest Destiny. [The Snow Leopard](#) Vintage
In 1997, Charles Frazier’s debut novel *Cold Mountain* made publishing history when it sailed to the top of *The New York*

Times best-seller list for sixty-one weeks, won numerous literary awards, including the National Book Award, and went on to sell over three million copies. Now, the beloved American epic returns, reissued by Grove Press to coincide with the publication of Frazier’s eagerly-anticipated second novel, *Thirteen Moons*. Sorely wounded and fatally disillusioned in the fighting at Petersburg, a Confederate soldier named Inman decides to walk back to his home in the Blue Ridge mountains

to Ada, the woman he loves. His trek across the disintegrating South brings him into intimate and sometimes lethal converse with slaves and marauders, bounty hunters and witches, both helpful and malign. At the same time, the intrepid Ada is trying to revive her father's derelict farm and learning to survive in a world where the old certainties have been swept away. As it interweaves their stories, Cold Mountain asserts itself as an authentic odyssey, hugely powerful,

majestically lovely, and keenly moving.

During World War II a community called Manzanar was hastily created in the high mountain desert country of California, east of the Sierras. Its purpose was to house thousands of Japanese American internees. One of the first families to arrive was the Wakatsukis, who were ordered to leave their fishing business in Long Beach and take with them only the belongings they

could carry. For Jeanne Wakatsuki, a seven-year-old child, Manzanar became a way of life in which she struggled and adapted, observed and grew. For her father it was essentially the end of his life. At age thirty-seven, Jeanne Wakatsuki Houston recalls life at Manzanar through the eyes of the child she was. She tells of her fear, confusion, and bewilderment as well as the dignity and great resourcefulness of people in oppressive and demeaning

circumstances. Written with her husband, Jeanne delivers a powerful first-person account that reveals her search for the meaning of Manzanar. Farewell to Manzanar has become a staple of curriculum in schools and on campuses across the country. Last year the San Francisco Chronicle named it one of the twentieth century's 100 best nonfiction books from west of the Rockies. First published in 1973, this new edition of the classic memoir of a devastating Japanese

American experience includes an inspiring afterword by the authors. *Ducks, Newburyport Grove/Atlantic, Inc.* Grade Level 5.5, Book# 85, Points 4.

The Mountain Simon and Schuster
In April of 1846, Sarah Graves was twenty-one and in love with a young man who played the violin. But she was torn. Her mother, father, and eight siblings were about to disappear over the western horizon forever, bound for California. Sarah could not bear to

see them go out of her life, and so days before the planned departure she married the young man with the violin, and the two of them threw their lot in with the rest of Sarah's family. On April 12, they rolled out of the yard of their homestead in three ox-drawn wagons. Seven months later, after joining a party of emigrants led by George Donner, Sarah and her family arrived at Truckee Lake in the Sierra Nevada Mountains just as the first heavy snows of the season closed the pass

ahead of them. After a series of desperate attempts to cross the mountains, the party improvised cabins and slaughtered what remained of their emaciated livestock. By early December they were beginning to starve. Sarah's father, a Vermonter, was the only member of the party familiar with snowshoes. Under his instruction, fifteen sets of snowshoes were hastily constructed from oxbows and rawhide, and on December 15, Sarah and fourteen other

relatively young, healthy people set out for California on foot, hoping to get relief for the others. Over the next thirty-two days they endured almost unfathomable hardships and horrors. In this gripping narrative, Daniel James Brown takes the reader along on every painful footstep of Sarah's journey. Along the way, he weaves into the story revealing insights garnered from a variety of modern scientific perspectives—psychology, physiology, forensics, and archaeology—producing a

tale that is not only spell-binding but richly informative. Dragons in the Snow Platinum Spotlight Series In this exquisitely written journal-turned-journey of self-discovery, international bestselling author Paolo Cognetti examines our universal desire for connection through a voyage in the Himalayas. Why climb a mountain without ever reaching the summit? In 2017, Paolo Cognetti returned to Nepal, not to conquer the mountains but to journey through the

high valleys of the Dolpo with a copy of Peter Matthiessen's *The Snow Leopard* in hand. Drawing on memories of his childhood in the Alps, Cognetti explored the roots of life in the mountains, truly getting to know the communities and the nature that forged this resilient, almost mythical region. Accompanying him was Remigio, a childhood friend who had never left the mountains of Italy, and Nicola, a painter he had recently met. Joined

by a stalwart team of local sherpas, the trio started out in the remote Dolpo region of Nepal. From there, a journey of self-discovery shaped by illness, human connection, and empathy was born. *Without Ever Reaching the Summit* features line illustrations drawn by the author.
